Message from the Chairman of the ESG Steering Committee

環境、社會及管治督導委員會主席寄語

The world has made steady stride towards sustainability over the past year, including a landmark agreement at the 2023 United Nations Climate Change Conference ("COP28"), to transition away from fossil fuels. At the same time, record-breaking temperatures and more frequent extreme weather events serve as clear reminders of the pressing need, more than ever, to work together towards a more sustainable environment for future generations. At Sino, we fully embrace these and look forward to joining hands with like-minded partners to contribute to a more sustainable future through green architectural planning, decarbonisation, innovation and inclusion.

In 2023, we reached an important milestone on our decarbonisation journey: Sino Land's near-term emission reduction targets were verified by the Science Based Targets initiative ("SBTi"). This underscores our commitment to accelerating climate action, setting a clearer path towards achieving net-zero carbon by 2050 in line with our Decarbonisation Blueprint.

These efforts are guided by our Sustainability Vision 2030 and Climate Change Policy, which forms part of our holistic approach to sustainability together with other robust corporate policies and initiatives on a wide range of issues — from promoting renewable energy, plastic reduction, biodiversity, harnessing smart solutions, health and safety to diversity and inclusion. We continue to support the Ten Principles of the United Nations Global Compact in the areas of human rights, labour, environment and anti-corruption. Our continuous efforts to integrate these principles into our strategy, culture and daily operations, while contributing to the United Nations Sustainable Development Goals (UNSDGs), are detailed in this Report.

Together for a Sustainable Future

We recognise the importance of leveraging innovation and technology in our pursuit of a sustainable future. In addition to supporting incubation and start-up programmes, we opened Sino Inno Lab at One North, which also entails The Spark, an open exchange platform and soft-landing pad for emerging innovators in Hong Kong and the Greater Bay Area.

Central to our sustainability efforts is our belief in the importance of fostering inclusive workplaces and communities. During the reporting period, we launched Sino Women Connect, an initiative designed to facilitate connections and exchanges of experiences among female colleagues from diverse backgrounds, empowering them to realise their potential. Sino Land has come on board as a

在過去一年,環球在可持續發展的進程穩步推進,包括第28屆聯合國氣候變化大會上達成協議,「逐步淘汰」化石燃料。與此同時,破紀錄的高溫和極端天氣情況越趨頻繁,提醒我們比以往任何時候都更需要攜手合作,為締造更可持續發展的環境出一分力。集團期待與志同道合的夥伴合作,透過綠色建築規劃、減碳、創新和多元共融,建構更可持續發展的未來。

2023年,我們的減碳進程迎來重要里程碑:信和置業獲科學基礎目標倡議組織(「SBTi」)認證科學基礎減量短期目標,顯示我們對加快行動應對氣候變化及實踐《減碳藍圖》的承諾,更為集團於2050年或以前實現淨零碳目標訂立更明確的路線圖。

我們依循《可持續發展願景 2030》和《氣候變化政策》推行上述舉措,是我們全面可持續發展策略的一部分,配合涵蓋可再生能源、塑減、生物多樣性、智能科技解決方案、健康及安全,以及多元共融等多個重要議題的政策和舉措,構成集團可持續發展的整體策略。此外,我們繼續支持《聯合國全球契約》中人權、勞工、環境和反貪污方面十項原則。我們將持續努力,將各原則融入集團策略、文化和日常營運,同時為實現聯合國可持續發展目標努力,詳情請參閱本報告。

一起 續建未來

我們明白創新科技對推進可持續發展的重要性。除了支援初創和創業計劃,我們於朗壹廣場開設「信和創意研發室」,以及啟動The Spark,為香港和大灣區的創科人才提供開放的交流平台及「軟著陸」中心。

締造友善平等職場和多元共融社區是集團推行可持續發展的重要元素。報告期內,我們推出了「信和女性連繫計劃」,鼓勵不同背景的女性員工互相聯繫和經驗交流,助她們一展所長。信和置業亦成為《聯合國婦女賦權原則》的簽署企業,承諾致力在業務各層面促進性別平等。信和置業亦成為香港首批獲得《女性職場指數》僱主金獎認證的發展商之一;《女性職場指數》是亞洲首個追蹤女性職場代表性及認受性的認證制度指數。我們很榮幸在推廣多元及共融的努力備受認可。

signatory to the UN Women's Empowerment Principles, affirming our commitment to promoting gender equality in every facet of our business. We are humbled that our diversity and inclusion initiatives were acknowledged, as Sino Land became one of the developers in Hong Kong recognised as a Gold Employer in the inaugural Women Workplace Index, Asia's first certification regime dedicated to evaluating the representation of women in workplace.

In addition, we have promoted social inclusion beyond our workplace. Partnerships have recently been forged with different organisations to deliver impactful programmes aimed at serving and uplifting ethnic minority groups, persons with disabilities and less-resourced communities, amongst others.

We are deeply honoured that the Group's ongoing efforts to Create Better Lifescapes have garnered global recognitions. For the second consecutive year, Sino Land has been recognised by Corporate Knights as one of the Global 100 Most Sustainable Corporations, and included as a constituent of the Dow Jones Sustainability™ Asia/Pacific Index. We are also thankful that Sino Land has been included in the inaugural World's Most Sustainable Companies list by TIME Magazine and Statista. Gender diversity and inclusion are reshaping organisational cultures around the world. Studies have found that companies that foster diverse and inclusive working environments can be more innovative, productive and attractive to employees and customers. Programmes for our female colleagues help achieve these results while fostering stronger connections and professional development. 性別多元和共融的趨勢正重塑世界各地的機構文化。研究發現,能營造多元和共融工作環境的公司,不但於創新突破和生產力方面有更佳表現,對員工和客戶而言亦更具吸引力。我們為女同事專門設立的計劃,既有助實現上述的成果,同時亦能促進同事間的聯繫和幫助她們專業發展。

Accelerating Business Action on Gender Diversity and Inclusion 加速性別多元共融 的商業行動

The Group strives to maintain an inclusive and fair workplace where colleagues can achieve both personal and professional fulfilment. We took a significant step towards this goal in May 2024 with the launch of Sino Women Connect, an initiative designed to cultivate connections amongst female colleagues from diverse age groups, positions and backgrounds. Sino Women Connect aims to encourage mutual support and facilitate the sharing of experiences amongst female colleagues, empowering them to realise their full potential. Through a variety of wellness activities and seminars, Sino Women Connect enables female employees to expand their social networks and engage in open and meaningful conversations within a relaxed and enjoyable environment. In addition, the Group has also implemented a mentorship programme, pairing female employees at Assistant General Manager level or above with younger colleagues who have less than eight years of work experience. Through regular communication and meetings, this initiative empowers younger female employees to recognise their capabilities and potential in the workplace while maintaining a healthy work-life balance.

To align our efforts with international best practices, Sino Land has become a signatory to the Women's Empowerment Principles, a set of principles offering guidance to businesses on how to advance gender equality and empower women established by UN Women and UN Global Compact. This reaffirms our commitment to creating an inclusive working environment and community that provides equal opportunities for women. We also seek to support women through our broader diversity and inclusion initiatives. In October 2023, for example, our annual Diversity and Inclusion Month hosted interactive activities and workshops for our colleagues, their families and friends. For details about the Diversity and Inclusion Month, please refer to p.110–111 in this Report.

Furthermore, Sino Land is one of the pioneer developers in Hong Kong to be recognised as a Gold Employer in the Women Workplace Index, the first certification regime in Asia that focuses on evaluating workplace representation for women, with the support of the Hong Kong's Equal Opportunities Commission. Moving forward, we will continue to strengthen our commitment to diversity and inclusion in the workplace and beyond with more programmes and initiatives.

集團致力維護共融和公平的工作環境,讓同事實現個人和職業抱負。為達成上述目標,我們於2024年5月邁出了重要一步,推出「信和女性連繫計劃」,藉此促進來自不同年齡、職位和背景女同事之間的聯繫。「信和女性連繫計劃」的目的是鼓勵女同事從分享個人經驗中互勵互勉,讓她們盡展潛能。「信和女性連繫計劃」透過一系列有益身心的活動和講座,讓女性員工能擴闊生活圈子,並在輕鬆愉快的氣氛中坦誠對話。集團亦安排師友計劃,邀請助理總經理級或以上的女性員工配對工作年資少於八年的年輕女同事,藉著日常溝通及定期會面,助她們在職場上充分發揮自己的能力和潛力,同時維繫生活和工作之間的平衡。

為與國際間的最佳實踐常規保持一致,信和置業已成為《婦女賦權原則》的簽署企業,該原則由聯合國婦女署和聯合國全球契約制定,為企業如何促進性別平等和女性賦權提供指導。是次簽署行動,再次肯定我們為婦女提供平等機會,以及創造共融工作環境和社區的承諾。我們亦致力透過更多元和共融的措施來支援婦女。例如,我們於2023年10月舉辦「多元共融月」,為同事及其親友舉辦互動活動和工作坊。有關「多元共融月」的詳情,請參閱本報告第110頁至111頁。

此外,信和置業榮獲《女性職場指數》僱主金獎, 是香港首批榮獲此殊榮的發展商之一。《女性職場 指數》是獲香港平等機會委員會支持的亞洲首個追蹤 女性職場代表性及認受性的認證制度指數。展望 未來,我們將繼續加強履行承諾並推行更多相關 計劃,促進工作環境及至社區的多元和共融。

Activities through Sino Women Connect enable female employees to expand their networks and engage in meaningful conversations.

In March 2024, the Group reached a significant milestone in our journey of Creating Better Lifescapes through innovation and technology ("I&T") with the opening of Sino Inno Lab at One North in the Northern Metropolis. This new location expands the reach of the Sino Inno Lab platform, which has provided Hong Kong with a dynamic sandbox for proof-of-concept development and technological innovations since 2018, to build stronger ties with entrepreneurs and start-ups from the Greater Bay Area and overseas. Complementing this initiative is The Spark, an open exchange platform and a soft-landing pad for emerging innovators, serving as a co-working space and event hub.

Esteemed guests and partners, including Professor Sun Dong, JP, Secretary for Innovation, Technology and Industry, the Hong Kong Government, attended the opening ceremony and experienced the Lab's diverse showcase of deep-tech solutions. These include those that involve sustainability, artificial intelligence, robotics, digital arts and Medtech with applications in the fields of PropTech, ConTech, ArtTech and SocialTech. Many solutions feature sustainability aspects, such as a natural, mineral-based paint capable of absorbing carbon dioxide.

Building on Sino Inno Lab's successful collaboration with over 800 innovators across more than 100 technology solutions over the years, this expansion serves as a new engine providing fresh economic impetus for the growth of Hong Kong's I&T ecosystem. Leveraging the unique advantages of the Northern Metropolis, which acts as a strategic link to Shenzhen and the Greater Bay Area while facilitating global connections, Sino Inno Lab and The Spark benefit from their placement within the "Twin Cities" and "Three Circles" development framework. This advantageous positioning allows innovators to explore business opportunities in the region while facilitating the entry of Hong Kong and overseas start-ups into the thriving Greater Bay Area market.

2024年3月,集團在位於北部都會區的朗壹廣場開設「信和創意研發室」,為實現以創新科技「建構更美好生活」立下重要的里程碑。「信和創意研發室」自2018年便已作為香港提供驗證創新意念及科技的「沙池」,是次透過新增駐點來拓展範圍,加強位於大灣區與海外的初創企業和企業家的聯繫。作為項目的一部分,The Spark是一個開放交流平台,為創科人才提供支持。這裡同時也是共享辦公空間和活動中心。

香港政府創新科技及工業局局長孫東教授,JP,連同一眾嘉賓和合作夥伴出席開幕儀式,並體驗研發室展出的多元化深技術。當中包括融合可持續發展、人工智能、機器人技術、數碼藝術、醫療科技的解決方案,以及在房地產科技(「PropTech」)、建築科技(「ConTech」)、藝術科技(「ArtTech」)及社會科技(「SocialTech」)領域的技術應用。多個技術都具備可持續發展方面的元素,例如能夠吸收二氧化碳的天然礦物油漆。

自成立以來,「信和創意研發室」已與超過800位 創客合作探索新技術,為逾100項科技解決方案 提供支持,此次擴建將為香港創科生態系統的發展 提供新經濟動力。北部都會區的樞紐優勢不但令其 成為連通深圳和大灣區與世界的橋樑,而且令「信和 創意研發室」和The Spark受益於「雙城三圈」發展 框架。這項有利的定位讓創新者能夠探索區內的 商機,同時協助香港和海外初創企業進入蓬勃發展的 大灣區市場。

Fostering Inclusive Communities 促進共融社區

Megatrend addressed 應對大趨勢

Promoting social inclusion is an important element of our sustainability principles. We have actively supported organisations that share our vision of empowering minority communities. The Group engages all members of society, from children and youth to the elderly, through events and activities in partnership with charitable organisations and NGOs.

社會共融是可持續發展的重要元素,我們積極支持抱持著支援少數族裔共同願景的機構,透過與慈善團體和非政府組織合作籌劃活動,接觸社會上的不同階層,包括兒童、青少年以至長者。

Social Inclusior 社會共融

The Group cares for and serves the community, with volunteering being an integral part of our culture. We join hands with people from all walks of life to promote inclusivity within our community.

During the reporting period, we forged synergetic partnerships with various community partners to deliver programmes that engage and empower ethnic minority groups and individuals. We collaborated with WEDO GLOBAL Foundation in organising special study groups, facilitated by experienced tutors, for 40 students from ethnically diverse backgrounds to help them prepare for the Hong Kong Diploma of Secondary Education Examination. Additionally, our partnership with WEDO GLOBAL Foundation covers their Multicultural Education Programme 2023/24, which offers various activities to over 400 students and parents from HKTA Wun Tsuen School, Man Kiu Association Primary School and Tai Kok Tsui Catholic Primary School. The aim of the programme is to enable students to learn about the multicultural community of Hong Kong and to encourage them to explore the people, events and things around them.

We also continued to build stronger bonds with ethnic minority communities through various cultural activities. In collaboration with Integrated Brilliant Education Limited, an organisation committed to educating students from less-resourced non-Chinese speaking communities, we hosted a series of festive activities such as a calligraphy and paper-cutting workshop and an evening feast at The Fullerton Ocean Park Hotel Hong Kong, in celebration of the Chinese New Year. During Ramadan, we sponsored the Iftar for 2,300 members of Hong Kong's Muslim community at the Kowloon Mosque and the Ammar Mosque in Wan Chai, in partnership with The Incorporated Trustees of the Islamic Community Fund of Hong Kong and The Islamic Union of Hong Kong.

Our efforts towards social inclusion extend to people with varying abilities. On 15 October 2023, we supported the Hong Kong Blind Union ("HKBU") in celebrating International White Cane Day to raise public awareness about visual impairment. Funds from the event were allocated for HKBU's services for the newly blind and the visually impaired. In November 2023, the Group also supported the annual Hong Chi Climbathon to raise funds for providing services and to deepen the public's understanding of people with varying abilities.

集團致力關懷和服務社區,義工服務成為我們企業

報告期內,我們與多個社區合作夥伴攜手舉辦活動, 藉以關懷及連繫少數族裔社群。我們與愛同行基金會 合作,為40位來自不同種族背景的基層學生舉辦 特別研習小組,透過經驗豐富的導師提供學習指導, 協助他們準備香港中學文憑考試。此外,我們支持愛 同行基金會2023/24年度的多元文化教育計劃, 為來自香港道教聯合會雲泉學校、閩僑小學和大角嘴 天主教小學超過400名學生及家長提供不同活動。 計劃旨在讓學生了解香港的多元文化社區,並鼓勵 他們探索周邊的人、事、物。

我們亦持續誘過各種文化活動,與少數族裔建立更 緊密的連繫。我們與為基層非華語學生提供教育服務 的匯成教育中心合作,於香港富麗敦海洋公園酒店 舉辦一連串的節日活動,包括書法與剪紙工作坊及晚宴 來慶祝農曆新年。齋戒月期間,我們與香港回教信託 基金總會及香港伊斯蘭聯會合作,在九龍清真寺和 位於灣仔的愛群清真寺為香港穆斯林社區的2.300多名 成員提供開齋飯。

我們致力推動社會共融,亦延伸至傷健人士。 2023年10月15日,我們支持香港失明人協進會 舉辦「國際白杖日」慶祝活動,以提高公眾對視覺 障礙的認識。活動所籌得的善款將用於香港失明人 協進會為新失明人士及視障人士提供支援服務。 2023年11月,集團亦繼續支持年度匡智慈善跑樓梯 大賽,為匡智會籌募經費,加深公眾對不同能力人士 的認識。

除了上述活動,我們的酒店亦與其他機構合作,為 不同能力和背景的人士提供就業機會,包括有特殊 教育需要(「SEN」)的年輕人和基層婦女,以進一步 促進職場的社會共融。

In addition to these initiatives, our hotels partnered with other social inclusion in the workplace.

By organising various activities focused on social inclusion, we build stronger bonds with different communities in Hong Kong. 我們舉辦多項以社會共融為重點的活動,藉以

Materiality Assessment

We review our materiality analysis annually based on the results of our stakeholder engagement exercise. In 2024, we conducted a comprehensive materiality assessment integrating the latest GRI Standards' criteria. We adopted the concept of double materiality, which considers both the positive and negative impacts of our relevant sustainability issues on our enterprise value and the economy, the environment and people (including impacts on human rights) across our value chain.

重要性評估

我們每年都會根據持份者參與活動的結果,檢視並 更新重要性評估。2024年,我們採用全球報告倡議 組織(「GRI」)的最新標準展開全面的重要性評估。 我們亦採用「雙重重要性」的概念,評估相關可持續 發展議題對企業價值及整個價值鏈的經濟、環境和 大眾(包括對人權的影響)所衍生的正面和負面影響。

Research 研究

We identified the sustainability issues most relevant to our business through desk research and peer benchmarking. This research considered regulatory and disclosure landscape changes, industry trends, sustainability reporting standards and sustainability ratings.

我們透過資料閱覽方式及參照同儕,以識別與 業務最相關的可持續發展議題。研究包括對監管 機制及披露環境變化、行業趨勢、可持續發展 報告準則以及可持續發展評級的考量。

Stakeholder Engagement 持份者參與

2

Our research was supported by extensive stakeholder engagement, which included an online survey of 711 individuals representing 11 stakeholder groups. All stakeholders were asked to assess the actual and potential negative and positive impacts on our enterprise value (Financial Materiality) and the economy, environment and people (Impact Materiality) of our identified sustainability issues, prioritising them based on their significance. They were also asked to rank significant risks, opportunities, our sustainability performance and communication strategies. The stakeholders engaged included representatives from the Board, employees, tenants/customers, partners/suppliers, investors/analysts, peers, media, academia and NGOs, amongst others.

我們的研究獲持份者的廣泛參與及支持, 其中包括來自11個持份者組別711名持份者 所完成的網上問卷調查。所有持份者都必須評估 就我們所識別的可持續發展議題對企業價值 (即財務重要性)以及經濟、環境及大眾(即影響 重要性)的實際和潛在的負面影響和正面影響, 並根據其重要性排列優先次序。持份者亦為我們 的重要風險、機遇、可持續發展表現和溝通策略 進行排序。參與的持份者包括董事會代表、僱員、 租戶/顧客、合作夥伴/供應商、投資者/分析師、 行業同儕、傳媒、學術界和非政府機構等。

Evaluation 評估

3

In a materiality assessment discussion, executives from the Group evaluated the distilled results of the research, stakeholder responses, and our assessment of the sustainability impacts based on each of the GRI Standards' criteria. This analysis provided the foundation for setting a threshold to determine which topics are material and to prioritise the impacts for reporting. A list of issues categorised by significance of impact can be found on the following page. A description of the impacts considered and how they affect our value chain can be found on subsequent pages.

集團的高級管理人員於重要性評估討論中,分析研究結果、持份者意見,以及根據各項GRI準則要求評估對可持續發展的影響。分析為報告影響排列出優先順序,並為設定閾值奠定基礎,以助其後界定重大議題。下頁的可持續發展議題按影響的重要性分類。相關影響及其對我們價值鏈的延伸影響,可參考後續頁面的說明。

Confirmation 確認

4

Our management reviewed and confirmed the prioritisation of our business impacts and material topics for reporting. The materiality assessment confirmed three material sustainability issues with the highest financial impacts: Climate Resilience and GHG Emissions, Energy Consumption and Efficiency, and Health and Safety. The resulting prioritisation will enable us to better manage our approach to addressing the most significant impacts along our value chain. Our sustainability issues are grouped into 15 material topics to enhance the clarity of our reporting. The findings were also shared with our Internal Audit Department and will inform our Enterprise Risk Management processes.

Financial Materiality

Following the concept of double materiality, we assessed the positive and negative impacts of our various sustainability issues on our enterprise value. Stakeholders with financial expertise, including our executives, were engaged to determine the issues with the highest financial impact on our business; the results of this assessment are presented below:

財務重要性

我們按照「雙重重要性」的概念,評估各項可持續 發展議題對企業價值的正面和負面影響。我們徵詢 了具財務專業知識的持份者,包括高級管理人員, 以確定對業務財務影響最大的議題。結果如下:

1

Climate Resilience and GHG Emissions 氣候抗禦力和溫室氣體排放

We have identified and evaluated the impact of climate-related risks on our buildings, operating costs and property value evaluation. Focusing on climate resilience and decarbonisation is essential in adapting to and mitigating the impacts and seizing the opportunities stemming from support of the transition to a low-carbon economy.

我們已識別並評估氣候相關風險對 建築物、營運成本和物業價值的影響。 專注提升氣候抗禦力和減碳對適應和 減輕氣候變化風險的影響,以及把握 低碳經濟轉型所帶來的機遇至關重要。

2

Energy Consumption and Efficiency 能源消耗和效益

With the regulatory landscape moving towards a low-carbon economy to meet decarbonisation goals, more stringent building codes on energy efficiency are expected. Focusing on energy efficiency solutions within our buildings and operations is therefore necessary to meet foreseeable regulatory requirements and avoid the costs of non-compliance. Energy efficiency solutions also offer opportunities to reduce operating costs and attract ESG-oriented tenants, residents and customers.

隨著監管環境漸以低碳經濟和實現低碳 為目標,我們預期面對更嚴格的能源 效益建築規範。為滿足可預見的監管 要求並避免因不合規而產生的成本,我們 必須專注發展建築物和日常營運的能源 效益解決方案。能源效益解決方案亦為 我們提供機遇,降低營運成本和吸引同樣 關注環境、社會及管治的租戶、住戶和 顧客。

3

Health and Safety 健康及安全

Maintaining a healthy and safe workplace is necessary to attract and retain industry talent. This enhances the productivity and morale of our workforce, as well as the quality and efficiency of our work. Additionally, robust health and safety standards avert potential injuries, disruption to operations, and impaired brand and reputation.

維持健康及安全的工作環境,對吸引和 留住業界人才必不可少。這樣,我們才能 有效提升員工的生產力和士氣,以及 工作質素和效率。此外,嚴格的健康和 安全標準亦可避免隱患、營運中斷,以及 品牌和聲譽受損。

Governance 管治

Sustainable and Ethical Supply Chain 可持續和具道德 的供應鏈 The Group benefits local communities by providing employment opportunities along the supply chain and in construction and renovation projects. Long-term benefits include new revenue generation opportunities for suppliers, economic development and enhanced customer satisfaction from delivering products that meet ethical and sustainable sourcing expectations.

Undertaking risk assessments and building capacity will help suppliers uphold high standards when it comes to ethical business practices, human and labour rights, efficient consumption of resources and provision of products and services with sustainability attributes. Sound management of business relationships is imperative to minimise the risk of the Group indirectly contributing to environmental and social impacts (e.g., waste, emissions or human rights abuses) through its supply chain.

Forced and Child Labour 強制勞工和童工 Adopting a transparent approach to forced and child labour throughout the value chain ensures stakeholders benefit from internationally recognised protection standards. Respecting labour rights in the workplace and at construction sites creates a more inclusive, productive and safe environment. Just treatment of people, including, for example, prevention of forced and child labour, will reduce the risk of impaired performance, adverse impacts on people, societies and economies, and loss of reputation.

Cybersecurity and Data Protection 網絡安全與數據 保護 A robust cybersecurity and data protection strategy can empower and equip employees and other key stakeholders with the correct information and tools, facilitating digitalisation and PropTech efforts to enhance positive outcomes, such as tenant and customer satisfaction and reduced environmental footprint. In today's digital age, property and hospitality companies are at a higher risk of cyberattacks due to the significant amount of data they retain during the sales and leasing phases. These attacks can lead to breaches of sensitive, proprietary and personal data, adversely affecting all key stakeholder groups, including employees, tenants, customers, suppliers and business partners. Adherence to data privacy regulations and agreements with key stakeholders will prevent potentially significant legal ramifications.

| Governance 管治 | Ethics and Integrity 道德與誠信 | Ethical business practices set the foundation for functioning economies and markets along the value chain. Strong corporate governance and transparency build trust, attracting customers and talent and creating positive economic development. Ethical conduct avoids penalties, so more resources can be allocated to support people and the environment. The reliance on contractors and sub-contractors for property/hotel development and operations poses corruption risks that may erode trust in markets and from governments, impacting the entire value chain. Prudent corporate governance and transparency can prevent impaired performance, reputation loss and potential fines. |
| | Economic Performance 經濟表現 | The property and hospitality sectors are major contributors to economies. The Group contributes by providing job opportunities (generating income for employees, which stimulates economic growth) and creating demand for related industries such as architecture, engineering, construction and food and beverage. The property sector as a whole can influence issues such as housing affordability and economic stability. Therefore, careful consideration is required to deliver broader prosperity. Solid economic performance safeguards financial resources, supporting business growth and human capital development. |
| | Customer Satisfaction 顧客滿意度 | Regular stakeholder engagement and a focus on quality management systems will help identify customer needs and enhance product and service excellence, furthering the Group's ability to contribute to community development. Focusing on customer satisfaction may avoid the consequences of customer attrition, which impact revenue and constrain resources available for fostering sustainable business growth, disbursement to shareholders and making meaningful contributions to the economy and society. |

Significant Impacts

Green Living 綠色生活

Health and Safety 健康及安全

A culture of safety can protect and support people, both internally and externally. Safeguarding all individuals in the workplace and at our properties will improve performance and help attract and retain talent and customers, benefitting our stakeholders and the economy. Strong health and safety practices can avert injuries as well as impaired reputation and performance.

Energy Consumption and Efficiency 能源消耗和效益

In Hong Kong, commercial and residential buildings account for approximately 90% of overall electricity consumption, generating over 60% of total GHG emissions. Energy-efficiency measures and investments in cleaner energy support the low-carbon economy, helping to safeguard ecosystems, people, and economies. Appropriately managing energy consumption can avert impacts on air quality and the exacerbation of climate change. Meeting regulatory and stakeholder expectations will ensure that the Group's capacity to contribute meaningfully to the economy and society is not hindered.

Wellbeing 福祉

Supported and healthy employees are motivated at work. Prioritising wellbeing attracts talent, creates positive customer experiences, and promotes economic development. Support for employees discourages underperformance in the workplace and high turnover rates, that may, in turn, result in lost opportunities for the business, people and economies.

Labour Practices 勞工實務常規

Respected and satisfied employees cultivate a culture where people feel empowered and are more likely to find purpose at work. This attracts talent and creates positive economic development. Nurturing employees helps prevent high turnover rates and low productivity, which may result in lost opportunities for the business, people and economies.

Material Use, Waste Reduction and Management 物料使用、廢物 削減和管理

Minimising resource consumption and waste generation, maximising reuse and recycling, and ensuring proper waste treatment help reduce environmental impact and safeguard societal wellbeing. Adequate management of resources and waste can prevent environmental damage, loss of reputation, and penalties that may impede the Group's ability to contribute to sustainable development.

Urban Biodiversity 城市生物多樣性

The property sector profoundly impacts biodiversity and ecosystem health, mainly through construction and design practices. A sound approach to biodiversity sustains ecosystems, resources and quality of life. Proper consideration of biodiversity impacts prevents degradation of ecosystems and loss of stakeholder trust.

Diversity and Equal Opportunities 多元與平等機會

Diversity of thought encourages innovation that can amplify performance. Diverse, equitable and inclusive workplaces empower employees, attract talent and create positive economic development. A robust approach to diversity and equal opportunities reduces the risk of higher turnover, impaired reputation and lost opportunities for the business, people and economy.

Management Approach

Corporate Governance Structure

The Group places great importance on corporate integrity, business ethics and good governance. Our governance systems and processes are designed to reflect these values at all levels, including Tsim Sha Tsui Properties' Board of Directors (the "Board"). The Board provides overall leadership and control for the Company in an effective manner to maximise the financial performance of the Company and shareholder value. The Board sets overall direction, strategies and policies and evaluates financial performance.

As at the publication of this Report, the Board has seven Directors comprising two Executive Directors including the Chairman and the Deputy Chairman of the Board, two Non-Executive Directors (including Ms Nikki Ng who has been appointed as a Non-Executive Director with effect from 10 August 2023) and three Independent Non-Executive Directors. Non-Executive Directors, including Independent Non-Executive Directors, play a crucial role by bringing independent views and advice on important issues relating to the Company's strategy, policy and financial performance, and taking the lead on issues where potential conflicts of interest may arise.

The balance between the number of Executive and Non-Executive Directors is considered effective in ensuring independent judgment is exercised effectively to protect the interests of the Company and its shareholders. The Board's work is supported by regular reporting from the Audit Committee, Compliance Committee, Remuneration Committee and Nomination Committee.

Diversity at the Board level is essential to attaining our strategic objectives and furthering sustainable development. Our Board Diversity Policy stipulates that the Nomination Committee must consider a variety of factors when deciding on new appointments or re-appointments. These include age, gender, ethnicity, cultural identity, educational background, professional or industry experience, skills, knowledge and other relevant criteria.

The Company is committed to maintaining a high degree of corporate transparency and communicating regularly with our stakeholders. Accordingly, information about our business is disseminated through various channels, including press releases, the corporate website, results briefings, onsite visits and investor conferences, amongst others. For more details about our approach to corporate governance and governance structure, please refer to our Annual Report 2024.

Risk Management

An essential and integral part of our corporate governance is the robust and effective management of risks, including ESG risks. The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and ensuring that the Company establishes and maintains appropriate and effective risk management and internal control systems to address ESG risks, including climate-related risks. In addition, the Audit Committee is authorised by the Board to oversee risk management and internal control systems.

Enterprise Risk Management ("ERM") is a process through which risks and relevant controls are identified, assessed, evaluated and reviewed on an ongoing basis. The Group implements an ERM approach to support the Board and the Audit Committee in discharging their risk management responsibilities and to aid individual business units in managing the key risks they face. An ERM Policy and Framework based on International Standard ISO 31000:2018 Risk Management – Guidelines has been established and is reviewed regularly.

With direction from the Board, the Audit Committee and the Risk and Control Committee, the Group utilises the Three Lines of Defence model. This model combines a top-down strategic view with a bottom-up operational risk assessment by each business unit, to provide a holistic view and ensure all significant risks are appropriately identified and managed.

For the year ended 30 June 2024, the Audit Committee, with the assistance of the Risk and Control Committee, reviewed the effectiveness of the risk management and internal control systems covering strategic, financial, operational, compliance and ESG risks. The Audit Committee engages in various activities to oversee the risk management system on an ongoing basis. Such activities include, but are not limited to, reviewing the ERM Policy and Framework and ERM reports.

在董事會、審核委員會與風險及監控委員會的 指引下,集團採用「三道防線」的風險管理模式, 綜合「由上而下」的策略觀點以及各業務部門所進行 「由下而上」的營運風險評估,以確保所有重大風險 均獲識別並適當管理。

截至2024年6月30日年度,審核委員會在風險及 監控委員會的協助下,檢討集團的風險管理和內部 監控體系的成效,範疇包括策略、財務、營運、合規, 以及環境、社會及管治的風險。審核委員會透過檢討 《企業風險管理政策及框架》以及企業風險管理報告 等不同方式,持續監督風險管理系統。

During the reporting year, the Internal Audit Department worked with all business units and senior management to enhance risk management and internal control systems, and to raise staff awareness of risk management. This included updating the risk register and reaffirming all business units' understanding of the key risks and opportunities relevant to our operations. More information about our risk management and internal control systems can be found in our Annual Report 2024.

Sub-committees engage in annual review exercises, stakeholder surveys, as well as peer and best practice benchmarking to assess and enhance the Company's management approach for each material topic. They meet regularly and track key performance indicators aligned with our SV2030 targets to identify areas for improvement.

Improving our Sustainability Performance

The Group's commitment to improving our sustainability performance extends from management to frontline employees. To reinforce the Group's vision of Creating Better Lifescapes and our core value of "Continuous Improvement", ESG is one of our main annual goal-setting areas for measuring achievements. Accordingly, the Group's performance on material topics is directly linked to the compensation of our executives based on their corresponding roles. Colleagues at the Assistant Manager level and above are expected to set KPIs related to sustainability topics and integrate sustainability practices into their daily work. These KPIs are reviewed during annual performance appraisals. We consistently strive for strong results in this area and incentivise good performance.

Cybersecurity and Data Protection

網絡安全與數據保護

As digitalisation becomes increasingly important to our business, there is a growing need to focus on cybersecurity and data protection as part of our governance strategy.

數碼化對業務的重要性與日俱增,將網絡安全與數據保護納入管治策略的需求亦隨之增加。

The Innovative Design Sub-committee of the ESG Steering Committee oversees our approach to cybersecurity and data protection. Our Group Associate Director is responsible for overseeing cybersecurity issues to ensure the enterprise strategy and processes protect our information assets. Our Cybersecurity Policy outlines our approach to protecting colleagues, customers and suppliers from data breaches. The Internal Audit Department and third-party auditors continue to conduct risk assessments of the Group's information technology systems, including secure network architecture, performance and capacity monitoring, data protection, licenced software management and anti-virus detection and management, annually at a minimum. For example, we conduct disaster recovery drill testing annually on several business applications. In addition, our cybersecurity operation centre services, endpoint detection and response system provide round-the-clock protection, offering visibility on rapidly evolving cyberattacks and enabling effective defence.

We educate our colleagues about data security and safeguarding digital assets. During the reporting period, we provided our staff with cybersecurity awareness courses via platforms such as our SINO iLearn app to enable them to build knowledge on how to protect the Group's information and systems. The courses were mandatory for all colleagues with company email accounts in our Hong Kong and regional offices. The courses covered topics such as password policies, phishing and social engineering scams. Course materials included a video and quiz designed to ensure colleagues understand how cyberattacks occur.

We also continued to communicate information security tips to colleagues via email, with messages focusing on actions that should be taken to protect against security threats with various devices and applications and ways to prevent the leakage of sensitive company data. In addition, tips were shared on recognising phishing emails and what to do if a data breach occurs. Our efforts in cybersecurity training also included phishing simulation exercises, with simulated phishing emails sent to colleagues to assess their awareness. The training enabled colleagues to experience the process of recognising, avoiding and reporting potential phishing threats in a realistic scenario. Employees who failed the exercise will need to attend the training again.

In November 2023, Sino Administration Services Limited ("SAS") obtained the ISO/IEC 27001:2013 (Information Security Management) certification after being audited by the British Standards Institution. Our environmental management system ("EMS") is certified to the ISO 14001 (Environmental) EMS Standard by an independent third party. It outlines the principles, scope, responsibilities and processes for identifying and reducing the significant environmental impacts of our business operations. The Group currently holds 45 certificates in ISO 14001 (Environmental).

We are committed to implementing environmental protection initiatives that exceed regulatory requirements across our operations, as described in our Environmental Policy. Our Green Office Policy and Green Office Management Guidelines outline our resourceefficient practices for the workplace, such as reducing the consumption of energy, water and office supplies, as well as waste generation. Throughout the reporting period, we continued to raise awareness among our colleagues regarding environmental protection and the importance of minimising the negative impact of our operations through the Sino Sustainability Academy. Details of this can be found on p.46 of this Report. We also advocate for sustainable practices among tenants. Our Green Lease and Green Fit-out Guides provide recommendations for consuming less energy and water, monitoring indoor air quality ("IAQ"), utilising greener construction materials and managing food waste, amongst other measures. "Green Clauses" in our lease agreements reflect these recommendations and set out specific measures that tenants can implement in their own operations.

Our efforts concentrate on climate resilience, energy efficiency, resource management and biodiversity; our approach is overseen by the ESG Steering Committee and the Board with the support of the Green Living Sub-committee. This sub-committee sets our objectives and targets, reviews and evaluates our initiatives and identifies areas for improvement. We continue to leverage innovative technologies to enhance our performance as we strive to achieve our SV2030 targets.

Sino Land was one of the pioneering developers in Hong Kong to publish a standalone Climate Action Report in 2023, disclosing our efforts in identifying, assessing and managing our material climate-related risks and opportunities, in alignment with the TCFD recommendations. Details about the Climate Action Report can be found on p.69 of this Report.

管理方針

生機蓬勃的自然環境,對於我們社區以及業務運作的可持續發展都至關重要。我們的環境管理體系已通過獨立第三方的ISO 14001 (環境)標準認證。此標準為識別和減少業務對環境的重大影響提供相關原則、範圍、責任和流程指引。現時集團共持有45張ISO 14001 (環境) 證書。

如《環保政策》所述,我們承諾在營運中實施超越相關法例要求的環境保護措施。而《綠色辦公室政策》和《綠色辦公室管理指引》則概述我們在工作間促進資源效益的常規,包括減少能源、用水和辦公室資源使用,以及廢物產生。報告期內,我們繼續透過「可持續發展學堂」讓員工了解環境保護和減少營運對環境影響的重要性,詳情可參閱本報告第46頁。我們亦向租戶提倡可持續實務常規,並在綠色租賃計劃和《綠色裝修指南》提供有關節能和減少用水、監測室內空氣質素、採用環保建築物料和廚餘管理等方面的建議,以及透過租約內的「綠色條款」鼓勵租戶採取具體措施,於營運中實踐可持續發展元素。

我們著重於氣候抗禦力、能源效益、資源管理,以及生物多樣性。環境、社會及管治督導委員會在綠色生活小組委員會的協助下監督這些主題的管理方針。小組委員會制定目標和指標、檢討和評估相關計劃,並找出有待改進的地方。我們在實現《可持續發展願景 2030》目標的過程中,繼續積極採用創新科技來提升表現。

2023年,信和置業成為香港首批發表獨立《氣候行動報告》的地產發展商之一。當中,我們根據TCFD建議,闡述識別、評估及管理重大氣候相關業務風險和機遇方面的工作。有關《氣候行動報告》的詳情可參閱本報告第69頁。

Climate Resilience and GHG Emissions

氣候抗禦力和溫室氣體排放

Climate change is one of the most pressing challenges confronting the global community. Recognising that collective action is needed to address this issue, we aim to achieve net-zero carbon emissions by 2050. We are also committed to taking an active role in minimising the impacts of climate change as we strive to understand how climate-related risks affect our business and adapt to the changing environment.

氣候變化是全球社會面臨最迫切挑戰之一。我們深明採取集體行動來應對 這項挑戰的重要性,並就此訂立目標,於2050年前實現淨零碳排放。 我們亦承諾積極將氣候變化的影響降到最低,同時了解氣候相關風險 如何影響我們業務,從而適應不斷變化的環境。

How We Are Managing It

The Group dedicates resources to addressing climate-related issues across all aspects of our operations and value chain to further sustainable development.

Aligning with a Science-based Approach to Decarbonisation

In June 2021, Sino Land pledged to support the Business Ambition for 1.5°C — led by the SBTi in partnership with the United Nations Global Compact and the We Mean Business Coalition — that urges businesses to set science-based targets for reducing GHG emissions.

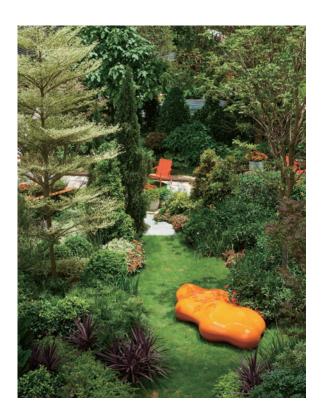

怎樣管理

集團投入資源於營運及價值鏈各層面中應對氣候相關事宜,以推動可持續發展。

採取科學為本的方針減碳

2021年6月,信和置業承諾支持由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5°C」聯署運動 — 此運動呼籲企業訂立科學基礎減碳目標,以減低溫室氣體排放。

The following emissions reduction targets have been verified by SBTi during the reporting period: 以下減量目標,已在報告期內獲得科學基礎目標倡議組織驗證:

-46.2%

Reduce absolute Scope 1 and 2 GHG emissions by 46.2% by FY2030 from the FY2019 baseline.

以2019財政年度為基準,於2030財政年度或之前把範疇一及 範疇二的絕對溫室氣體排放量減少46.2%。

-51.6%

Reduce Scope 3 GHG emissions from capital goods, fuel and energy-related activities, and waste generated in operations, by 51.6% per square foot by FY2030 from the FY2022 baseline. 以2022財政年度為基準,於2030財政年度或之前把每平方呎的範疇三溫室氣體排放量減少51.6%,當中包括資本貨物、燃料和能源相關活動,以及營運中所產生的廢棄物。

- 51.6%

Reduce Scope 3 GHG emissions from leased assets per square foot by 51.6% by FY2030 from the FY2022 baseline. 以2022財政年度為基準,於2030財政年度或之前將出租資產每平方呎所產生的範疇三溫室氣體排放量減少51.6%。

In June 2022, we launched our holistic Decarbonisation Blueprint to guide our net-zero commitment and climate-related strategy. This sets out a series of initiatives to help us reduce our environmental impact, supporting our aspiration for a more sustainable, low-carbon future for all. In line with this Blueprint, Sino Land has established GHG emission reduction targets with experts from The Hong Kong University of Science and Technology ("HKUST"), following the SBTi methodology.

Further information about our Decarbonisation Blueprint can be found on our website.

We are pleased to announce that, in July 2023, Sino Land's near-term GHG emissions reduction targets — covering its operations and development activities in Hong Kong, Mainland China, Singapore and Australia — were verified by the SBTi as aligned with its criteria and recommendations (Version 5.0), which significantly raise the level of ambition for setting Scope 1 to 3 targets. This external validation highlights Sino Land's steadfast dedication to addressing long-term energy and climate-related challenges as it works towards its net-zero carbon goals by 2050, reaffirming its commitment to reducing its environmental impact and aligning with international best practices.

2022年6月,我們發表全方位《減碳藍圖》,藉此引領氣候相關策略的方向並履行淨零碳排放承諾。當中所訂明的計劃有助我們減低對環境的影響,支持我們對更可持續、低碳未來的願景。為實踐《減碳藍圖》,信和置業與香港科技大學(「科大」)學者合作,根據科學基礎目標倡議組織的計算方式訂立溫室氣體減排目標。

有關《減碳藍圖》的詳情,請參閱我們的網站。

我們欣然宣布,信和置業於2023年7月獲科學基礎目標倡議組織認證溫室氣體排放減量短期目標,涵蓋公司於香港、中國內地、新加坡以及澳洲的營運和發展項目。有關目標獲科學基礎目標倡議組織確認符合其5.0版本的標準及建議,該版本顯著地提高了對範疇一至三的目標要求彰顯了信和置業在應對長期能源和氣候挑戰的堅定承諾,並致力於2050年前實現淨零碳排放,重申了信和置業減少環境影響並與國際最佳實務常規接軌的決心。

Engaging in Collective Action

We are committed to advancing collective action on climate-related issues. In November 2022, Sino Land became a signatory to the Action Declaration on climate policy engagement, an initiative of Corporate Knights and the Global 100 Council. In August 2023, Sino Land was amongst the first to sign the Business Environment Council's ("BEC") rebranded BEC Net-zero Carbon Charter, which succeeded the BEC Low Carbon Charter launched in March 2019. As a Science-aligned Signatory, Sino Land is required to pursue emissions reduction targets following a 1.5°C-aligned, science-based pathway and to report on its progress regularly. Our efforts to reduce GHG emissions and combat climate change were recognised during the reporting period by the Hong Kong Green Building Council, which issued Energy Performance Certificates to 15 of our managed properties under the Zero-Carbon-Ready Building Certification Scheme.

Understanding the importance of consistency and transparency in reporting on climate-related risks and opportunities, as well as the holistic treatment of information on other aspects of sustainability, our reporting has been developed with reference to IFRS S1 and IFRS S2 since 2023. In April 2024, Sino Land became one of the pioneering property developers to join the IFRS Sustainability Alliance. By becoming a member of this Alliance, Sino Land affirms its commitment to establishing a cohesive global baseline for climate-related and other sustainability disclosures to meet the needs of capital markets.

Sino Group participated in the Hong Kong Government's Carbon Neutrality Partnership to accelerate the low-carbon transformation in the public and private sectors. Tsim Sha Tsui Properties and Sino Land also continue to disclose the annual GHG emissions in the Environment and Ecology Bureau of the Hong Kong Government's Carbon Footprint Repository for Listed Companies in Hong Kong. Other key industry collaborations during the reporting period include Sino Land's ongoing support for ReThink HK, an annual conference advancing sustainability awareness in Hong Kong. At the 2023 conference, the Sino Land's representatives shared their insights on green buildings and the future of urban design, business' contribution to biodiversity and the role of education and talent in creating positive social impact, alongside like-minded partners.

Climate-related Risk Analysis

Our Climate Change Policy provides guidelines for managing climate-related risks across our business lines and value chain. As part of our SV2030 strategy, we are dedicated to performing climate-related risk assessments at our wholly-owned new development projects, where applicable, by 2030. Details of our risk assessment process and results are included in the following section titled Climate Action Report.

促進集體行動

我們致力推動與氣候事宜相關的集體行動。2022年11月,信和置業簽署了由Corporate Knights及Global 100 Council 發起的《參與氣候政策與行動宣言》。繼參與商界環保協會於2019年3月推出的《BEC 低碳約章》後,2023年8月,信和置業繼續成為首批企業簽署新升級版的《BEC 零碳約章》。作為符合科學的簽署機構,信和置業承諾以控制氣溫升幅於攝氏1.5度為目標,訂立科學基礎減碳目標並定期匯報進展。報告期內,我們旗下管理的15項物業獲得香港綠色建築議會的「零碳就緒建築認證」計劃頒發「能源表現證書」,肯定我們在減少溫室氣體排放和應對氣候變化方面的努力。

我們明白,匯報氣候相關風險和機遇時保持一致和透明,以及在可持續發展其他方面保持資訊完整尤其重要。自2023年,我們參考《IFRS S1》和《IFRS S2》編製報告。於2024年4月,信和置業成為率先加入IFRS可持續發展聯盟的地產發展商之一。透過成為聯盟的成員,信和置業承諾致力於建立全球一致的氣候相關和其他可持續發展資訊披露基準,以滿足資本市場的需求。

信和集團參與香港政府的「碳中和夥伴計劃」,以加快公私營界別低碳轉型的步伐。尖沙咀置業和信和置業亦繼續於香港政府環境及生態局的香港上市公司碳足跡資料庫中公開披露年度溫室氣體排放量。報告期內我們與其他主要業界合作,包括信和置業繼續支持推動香港可持續發展意識的年度研討會ReThink HK。在2023年的研討會中,集團代表與志同道合的夥伴分享對綠色建築和未來城市設計、商界對生物多樣性的貢獻,以及教育和人才如何創造積極社會影響方面的看法。

氣候相關風險分析

我們的《氣候變化政策》為各營運範圍及價值鏈提供 氣候風險管理指引。作為我們《可持續發展願景 2030》的一部分,我們致力於2030年前為合適的 全資擁有新發展項目展開氣候風險評估。有關風險 評估的詳情和結果已刊載於以下「氣候行動報告」章節。

To accelerate climate action, Sino Land has set science-based emissions reduction targets to decarbonise its operations. 為了加快氣候行動,信和置業訂立了以科學為基礎的排放減量目標,務求減低營運的碳排放。

Climate Action Report

In 2023, Sino Land published its first standalone Climate Action Report to communicate how it is working to mitigate emerging climate-related risks as well as its comprehensive climate strategies. Independently assured by the Hong Kong Quality Assurance Agency, the Climate Action Report outlines Sino Land's sustainability vision, management approach and decarbonisation strategy. It also includes the results of an evaluation of Sino Land's portfolio in Hong Kong, consisting of over 170 existing and new buildings, across different climate scenarios as prescribed by the TCFD. This assessment of climate risks enables Sino Land to seize opportunities to bolster the climate resilience of its portfolio. More information can be found in its Climate Action Report.

Aligning with Climate Reporting Standards

In line with the global effort to enhance climate transparency, we have aligned our climate-related disclosures with TCFD recommendations since 2021 and, in 2022, Sino Land became one of the pioneer developers in Hong Kong to join the list of TCFD supporters. Together with nearly 5,000 organisations worldwide, Sino Land pledged its commitment to increasing transparency in reporting on climate-related risks and opportunities, fostering more informed financial decision making and building a more resilient financial system. As the IFRS Foundation now oversees the monitoring of progress on companies' climate-related disclosures, we have also enhanced our reporting with reference to IFRS S2 since 2023.

The Group's approach to climate-related governance, strategy, risk management, metrics and targets, in line with TCFD recommendations, is summarised on the following pages. More details on our climate-related disclosures aligned with the TCFD recommendations and with reference to IFRS S2 are described on p.190 and p.249 of this Report.

氣候行動報告

2023年,信和置業發表首份獨立《氣候行動報告》,展現如何緩解湧現的氣候相關風險及其全面策略。《氣候行動報告》由香港品質保證局獨立驗證,內容涵蓋信和置業的可持續發展願景、管理方針和減碳策略。其中,信和置業亦參照TCFD建議,評估旗下位於香港的物業項目在不同氣候下的情境,包括170多座現有和新建物業在不同氣候情境下的抗禦力,把握機遇提升物業的氣候抗禦力。有關詳情,請參閱其《氣候行動報告》。

以氣候報告準則匯報

為響應全球對提高氣候相關披露透明度的行動,我們自 2021年起已參照 TCFD 建議披露氣候相關的資訊。2022年,信和置業更加入成為 TCFD 支持機構,為香港首批房地產開發商之一。信和置業與全球近 5,000 多家機構攜手承諾,確認提高與氣候相關風險和機遇的報告透明度,並致力為財務決策以及建立更具抗禦力的金融體系提供更多支持。目前,國際財務報告準則基金會負責監督企業披露氣候相關資訊的進展。為加強報告的資訊披露,我們自 2023年已參考了《IFRS S2》編撰報告。

下頁摘要概述集團根據TCFD建議對氣候相關的 管治、策略和風險管理方針,以及其指標和目標。 有關我們符合TCFD建議及參照《IFRS S2》的氣候相 關披露資訊,請參閱本報告的第190頁和第249頁。

Governance

Climate-related governance processes are integrated throughout our operations. Overall responsibility for managing climate-related risks and opportunities lies with the Board, while the ESG Steering Committee manages the day-to-day identification, assessment and management of these issues. Senior managers from various business units consider climate-related impacts in their operations by participating in the Green Living Sub-committee, which meets quarterly and reports to the ESG Steering Committee.

In addition, climate-related risks and opportunities influence various aspects of our operations, from material selection to innovative initiatives like leveraging IoT and AI in energy management and monitoring.

Risk Management

We regularly review and monitor physical and transition climate-related risks through our EMS and ERM Policy and Framework. With the assistance of an independent consultant, we continue to enhance the integration of climate-related risks into our ERM framework. To further manage risks, climate-related measures are considered early in the development process at our properties, for example, through the procurement of low-carbon construction materials.

Metrics and Targets

Our SV2030 strategy includes numerous climate-related targets, including GHG reduction and electricity-related targets. We also conduct climate risk assessments at our wholly-owned new development projects where applicable. We continue to monitor these key climate-related metrics and publish them annually in this Report.

此外,與氣候相關的風險和機遇影響我們營運 各層面,從物料選用以至利用物聯網和人工智能管理 及監察能源使用等創新舉措。

風險管理

我們透過環境管理系統和《企業風險管理政策及框架》,定期檢討和監察與氣候相關的實體和轉型風險。在獨立顧問的協助下,我們繼續將氣候相關風險更完善地整合到企業風險管理框架中。例如我們在物業發展的起始階段便考慮採購低碳建築材料等應對氣候相關的措拖,進一步管理風險。

指標和目標

我們於《可持續發展願景 2030》中羅列出多個與氣候相關的目標,包括減低溫室氣體以及用電相關的目標,以及為合適的全資擁有新發展項目進行氣候風險評估。我們繼續監察與氣候相關的關鍵指標,並每年於本報告匯報進展。

Energy Consumption and Efficiency

能源消耗和效益

Commercial and residential buildings account for about 90% of Hong Kong's electricity consumption, generating over 60% of total carbon emissions.* Reducing energy consumption, adopting renewable and cleaner energy sources, and improving operational efficiencies are, therefore, core aspects of our goal of achieving net-zero carbon as we strive to tackle climate change.

商業和住宅樓宇佔香港的整體用電量約90%,產生的碳排放量佔總碳排放量超過60%*。在我們實現淨零碳排放以應對氣候變化的過程中,減少能源消耗、採用可再生和潔淨能源,以及提升營運效益極為重要。

How We Are Managing It

Our Energy Policy outlines our approach to improving energy efficiency to manage consumption and costs effectively. The Group conducts energy audits at our managed properties annually to identify energy performance improvement opportunities. We then embed energy management considerations across all aspects of our operations by retrofitting lighting, energy-efficient HVAC equipment and appliances, smart meters and smart monitoring platforms to optimise building services and renewable energy systems. In addition, we engage our stakeholders and government bodies to advance broader action on energy management.

During the reporting period, we supported local campaigns to engage our stakeholders and the public in energy-saving activities. We sponsored and promoted Green Sense's No Air Con Night. In addition, 25 of our managed properties participated in CLP Power Hong Kong Limited's Summer Saver Rebate Programme 2024, through which households with smart meters were incentivised to join energy-saving missions during days with high temperatures.

怎樣管理

我們的《能源政策》概述提高能源效益的管理方針, 以有效管理能源消耗和成本。集團每年於旗下管理的 物業進行能源審核,以識別改善能源表現的機會。 我們將能源管理融合於營運的各層面,其中包括改造 照明、使用節能暖通空調設備和電器、智能電錶以及 智能監控平台優化樓宇服務和可再生能源系統。 此外,我們亦與持份者和政府等機構合作,推動 更廣泛的能源管理行動。

報告期內,我們全力支持持份者和公眾參加本地的 節能活動。我們贊助並推廣由環保觸覺主辦的 「無冷氣夜」。此外,我們旗下管理的25項物業參加 了中電的2024年「炎夏慳住賞」計劃,藉以鼓勵已 安裝智能電錶的住戶,在炎夏期間仍然共同履行慳電 使命。

 ^{*} Hong Kong Green Building Council.
 香港綠色建築議會。

To further raise public awareness of nature and climate crises, we also supported World Wide Fund for Nature ("WWF")'s Earth Hour by turning off the façade lighting at The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore, as well as all non-essential lights at over 175 of our managed properties and hotels in Hong Kong, for one hour on 23 March 2024. Ninety-eight of our managed properties have also implemented the Charter on External Lighting, switching off lighting installations for decorative, promotional or advertising purposes during preset times to foster a better nighttime environment for the public. To further demonstrate our commitment to energy conservation, 174 of our managed properties obtained the Energywi\$e certificate from the Hong Kong Green Organisation.

Greener Transportation

Vehicle electrification remains a key area where we can have a positive environmental impact. We continue accelerating the deployment of EV charging stations at our managed properties to reduce our environmental footprint and lower energy costs for our stakeholders. As part of the Hong Kong Government's EV-charging at Home Subsidy Scheme, we plan to install over 3,000 EV chargers at 21 of our managed properties. As at 30 June 2024, our managed properties and hotels have been equipped with over 1,800 EV chargers in total, establishing us as one of the leading real estate companies in Hong Kong in terms of EV charger provision. We aim to increase this to over 1,900 charging stations by the end of the year. During the reporting period, there were over 650 EV chargers installed in our development portfolio.

We work closely with partners to enhance our EV charging services and build a more robust network of EV facilities in Hong Kong. In April 2024, we launched a collaboration with Sinopec (Hong Kong) Limited ("Sinopec") for the joint installation of over 60 new EV chargers at eight of our managed properties. In June 2024, we signed a memorandum of understanding with PetroChina International (Hong Kong) Corporation Limited to expand the EV charging infrastructure in Hong Kong, supporting the growing adoption of lower-carbon electric mobility in the region. To further encourage usage of the charging stations, we also worked with Sinopec to launch special redemption incentives through our loyalty programme, S+ REWARDS.

Improving Energy Efficiency with Technology

Innovative technologies are a key part of our plan to reduce our carbon footprint and enhance business performance through energy efficiency. Incorporating advanced AI and data analysis, we have implemented smart building management systems to enhance the energy efficiency of our portfolio. We installed the CLPe PlantPRO system at China Hong Kong City during the reporting period. This system, which is also installed at Olympian City 3 and Island Resort Mall, optimises the operation and maintenance of chiller plants through the use of AI technology. This has resulted in a reduction of approximately 7% in energy consumption by Mechanical Ventilation and Air Conditioning ("MVAC") systems. To further optimise the energy efficiency of the MVAC system, an AI-based platform, the Automated Logic Chilled Water System Optimiser, was utilised at Olympian City 1 to enable a reduction of 5–10% in energy usage across the entire chilled water system.

為進一步提升大眾對自然和氣候危機的認識,我們亦支持世界自然基金會(「WWF」)的「地球一小時」活動,於2024年3月23日將新加坡富麗敦酒店及新加坡富麗敦海灣酒店的外牆燈飾,以及旗下超過175項香港管理物業和酒店非必要的戶外照明關掉一小時。我們旗下98項管理物業亦簽署了《戶外燈光約章》,在預設時間關閉非必要的裝飾、宣傳或廣告燈光裝置,為大眾締造更美好的晚間環境。此外,我們旗下174項管理物業獲得香港綠色機構「節能證書」,進一步展示我們對節約能源的承諾。

綠色運輸

電動車普及化仍是我們推動積極影響的主要領域。 我們繼續於旗下管理物業加快安裝電動車充電站, 以致力減少環境足跡,同時為持份者降低能源成本。 在香港政府的「EV屋苑充電易資助計劃」支持下, 我們計劃於旗下21項管理物業安裝超過3,000個 充電站。截至2024年6月30日,我們已於旗下管理 物業和酒店中安裝超過1,800個電動車充電站,成為 香港提供最多電動車充電站的地產發展商之一,並以 年底增加至超過1,900個充電站為目標。報告期內, 我們的物業發展組合設置了超過650個電動車 充電站。

我們繼續與夥伴緊密合作,提升電動車充電服務並擴大香港的充電設施網絡。2024年4月,我們與中石化(香港)有限公司(「中石化」)合作,於旗下八項管理物業增設超過60個電動車充電站。2024年6月,我們與中國石油國際事業(香港)有限公司簽署合作備忘錄,致力合作擴展香港電動車充電設施的覆蓋範圍,以支持本地正在增加的低碳電動車使用率。為了進一步鼓勵顧客使用充電站,我們亦與中石化合作,透過S*REWARDS獎賞計劃推出特別兌換禮遇。

以科技提升能源效益

創新技術有助提升能源效益,是我們減少碳足跡和提升業務表現計劃的關鍵部分。我們實施智能管理系統,透過人工智能及數據分析提升我們物業的能源效益。除了奧海城三期和藍灣廣場,我們在報告期內為中港城安裝了CLPe PlantPRO,透過人工智能改善冷凍機組操作和保養。系統減少了機械通風及空調(「MVAC」)系統能源消耗約7%。為進一步優化MVAC系統的能源效益,奧海城一期引入名為Automated Logic Chilled Water System Optimiser的人工智能平台,成功減少整個冷水系統5-10%的能源消耗。

We are actively implementing renewable energy solutions at our managed properties. 我們積極於旗下管理的物業實施再生能源解決方案。

We have implemented a variety of energy efficiency measures at our managed properties, including:

- Retrofitting lighting by adopting LED lights, energy-efficient lighting controls and daylight sensors;
- Enhancing energy-efficient equipment by incorporating demand control ventilation systems to optimise airflow, air-source heat pumps for hot water supply and space heating and zoning control for the centralised AC systems to provide separate heating and cooling; and
- Establishing centralised intelligent building management platforms to monitor and enhance the operational efficiency of building facilities, along with installing Smart Hybrid Conversion Systems for solar energy.

Renewable Energy Management

We strive to promote the use of renewable energy while raising awareness among our stakeholders. During the reporting period, we installed 121 solar panels at The Fullerton Ocean Park Hotel Hong Kong. These photovoltaic systems are expected to generate 21,596 kWh of electricity annually. We have also installed a total of ten hybrid solar-wind turbines at ONE SOHO, YM² and One North, which are expected to generate around 1,116 kWh annually. As at 30 June 2024, over 4,000 photovoltaic panels have been installed at properties under the Group's management in Hong Kong. These photovoltaic systems are expected to generate 1,193,000 kWh of electricity annually.

By 2030, we target to achieve accumulated renewable energy generation of 6,000,000 kWh from our 2012 level. To date, we have generated 3,788,000 kWh of renewable energy above our 2012 level. The GHG emissions avoided are equivalent to the amount of $\rm CO_2$ removed by 115,286 trees planted*.

我們亦於旗下管理物業實施一系列節能措施,包括:

- 進行照明改裝,例如選用LED燈、節能照明控制 和日光感應器;
- 提升節能設備,包括採用需求控制通風系統以 調節通風流量、空氣源熱泵來生產熱水和加熱 室內空間,及中央空調系統的分區控制以個別 進行加熱及制冷;以及
- 設置智能大廈管理的中央平台,以監察和提升 建築設備的營運效率,以及安裝太陽能智能混合 轉換系統。

可再生能源管理

我們致力推廣可再生能源的使用,同時增強持份者的相關意識。報告期內,我們於香港富麗敦海洋公園酒店安裝了121塊光伏電板,預計每年合共產生約21,596千瓦時的電力。我們亦於ONE SOHO、裕民坊和朗壹廣場安裝共十台風力及太陽混能電柱,預計每年產生合共約1,116千瓦時的電力。截至2024年6月30日,集團在香港的管理物業已安裝超過4,000塊光伏電板,預計每年產生約1,193,000千瓦時的電力。

我們的目標,是於2030年或以前將累計的再生能源 發電量從2012年水平增加至6,000,000千瓦時。 至今,我們已從2012年水平起產生合共3,788,000 千瓦時的可再生能源,所避免的溫室氣體排放量相當 於種植了115,286棵樹*。

Material Use, Waste Reduction and Management

物料使用、廢物削減和管理

We strive to effectively utilise natural resources, manage consumption, reduce waste at source, and adopt a circular economy approach to minimise our environmental impact.

我們致力有效使用自然資源、監察資源使用的情況並實踐源頭 減廢,以及採取循環經濟模式來減低對環境的影響。

How We Are Managing It

Our ESG Steering Committee, with the support of our Green Living Sub-committee, oversees the Group's material use and waste management initiatives. This includes reviewing and evaluating our progress towards meeting our SV2030 targets in this area. Our Green Office Policy guides the use of resources across our offices, while initiatives tailored for tenants are included in our Green Fit-out Guides. We continue to involve stakeholders in resource and material use reduction, recycling and upcycling, through various channels.

怎樣管理

我們的環境、社會及管治督導委員會在綠色生活小組委員會的支持下,監督集團的物料使用和廢物管理的措施。當中包括檢討和評估《可持續發展願景 2030》相關目標的進展。我們的《綠色辦公室政策》概述辦公室資源運用實務常規,而針對租戶的計劃則載於《綠色裝修指南》。我們持續透過多個渠道,與持份者就減少、回收及升級再造資源和物料交流。

All our stakeholders are encouraged to join us in our endeavours to minimise waste and promote a circular economy approach. 我們鼓勵所有持份者攜手協力,一起減廢和促進循環經濟。

Waste Management

Our Waste Management Policy sets forth requirements for the proper reuse and recycling of materials, and disposal of waste. We actively encourage our stakeholders to join us in our endeavours to minimise waste from daily operations and construction waste from our development sites. As per local market regulations, all our waste is collected by licenced collectors for proper disposal. A limited amount of hazardous waste, including a small quantity of mercury-containing fluorescent tubes, is also collected by licenced waste collectors and sent to Hong Kong's Chemical Waste Treatment Centre, where the mercury is recovered and recycled. As a testament to our commitment to responsible waste management, 40 properties under our management hold Wastewi\$e certificates from the Hong Kong Green Organisation.

Engaging with our Stakeholders at Development Sites

We provide incentives that encourage contractors to recover and recycle building materials. We also collaborate closely with them in establishing project-specific targets for waste reduction, reuse and recycling whenever feasible. By setting clear objectives, we aim to minimise waste generation and maximise resource efficiency throughout the construction process. We implement material separation practices to facilitate efficient sorting and enable effective reuse and recycling processes at all of our construction sites.

廢物管理

我們的《廢物管理政策》訂明妥善重用、回收物料和處置廢物的要求。我們致力與持份者攜手合作,減少日常營運所產生的廢物,以及在發展項目的工地中的建築廢料。所有廢物均按當地相關規定,由持牌廢物處理商收集並妥善處置。當中的少量含汞光管等有害廢物,亦由持牌廢物處理商收集送往香港化學廢物處理中心,將汞收集和循環再造。我們旗下管理的40項物業獲香港綠色機構頒發「減廢證書」,彰顯我們對負責任廢物管理的承諾,及對我們在這方面的努力作出肯定。

連繫項目工地的持份者

我們為承辦商提供誘因,鼓勵他們回收和循環再造 建築材料。為了於整個施工過程中減少廢物產生及 提升資源使用效益,我們亦與承辦商緊密合作,在 可行情況下,針對項目制定明確的減廢、重用和回收 再造目標。我們於所有工地實施物料分類,以促進 有效的資源重用和回收再造。

Plastic Waste

We have long advocated for a reduction in the single-use plastics consumption by our properties and hotels. In April 2018, we launched the Plastic Awareness Campaign to drive collective action on plastic waste across our portfolio. Currently, we are working towards a long-term target of eliminating single-use plastics from our core business operations by 2035. We also engage our suppliers on plastic reduction through our Guidelines on Green Gift Hampers and Basket Packaging Design to reduce excessive packaging and transition to environmentally responsible materials. As of 30 June 2024, we have reduced the consumption of individual single-use plastic items by 77.1% across all our business lines from our 2017 baseline.

Engaging with our Hotel Stakeholders

We are driving plastic reduction at our hotels through multiple initiatives, including replacing plastic straws, bottled water and single-use plastic amenity containers. At The Fullerton Hotel Sydney, we joined over 50 businesses in committing to the City of Sydney's Single-Use Platinum Pledge in April 2024. In line with the Pledge, we will introduce eight specific initiatives to reduce the impact of single-use plastics on the environment. To reduce reliance on plastic bottles, we have also installed Zip Taps in banqueting areas to provide guests with filtered still and sparkling water, avoiding approximately 51,800 plastic bottles annually.

塑膠廢料

一直以來,我們致力推動旗下物業和酒店減少使用即棄塑膠製品。我們於2018年4月推行「塑減行動」,務求在物業組合中就塑膠廢料議題推動集體行動。目前,我們正為達成長期目標而努力,力求於2035年或以前在核心業務停止使用所有即棄塑膠製品。我們亦透過《禮籃綠色包裝設計指引》就減塑目標與供應商溝通,減少過度包裝,並逐步轉用對環境負責的物料。截至2024年6月30日,與2017年相比,我們旗下各業務的即棄塑膠製品消耗數量已減少77.1%。

聯繫酒店的持份者

我們以多項措施推動旗下酒店減少使用塑膠,包括取替塑膠飲管、樽裝水以及小瓶膠樽裝沐浴用品。悉尼富麗敦酒店亦於2024年4月與50多家企業攜手承諾,響應悉尼市「Single-Use Platinum Pledge」。為此,我們推出八項具體措施來減少即棄塑膠製品對環境的影響。為了減少對膠樽的依賴,我們亦在宴會廳安裝濾水器,為賓客提供過濾水和氣泡水,每年避免使用約51,800個膠樽。

Progress on Plastic Reduction 減塑進展

During the reporting period, Group-wide efforts in plastic reduction led to the following:

The Fullerton Ocean Park Hotel Hong Kong provides smart filtered water refill stations as a more sustainable option to replace plastic bottled water. 香港富麗敦海洋公園酒店提供智能濾水站,以更可持續的方式取代塑膠模裝水。

At The Fullerton Ocean Park Hotel Hong Kong, we took steps to implement the Hong Kong Government's ban on single-use plastics, including replacing toiletries covered by Phase 1 of the Product Eco-responsibility (Amendment) Ordinance 2023 with non-plastic alternatives.

In October 2023, both The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore joined the Singapore Hotel Association's Hotel Industry Sustainability Pledge to minimise single-use packaging for drinking water and guest room amenities while maximising use of recycled materials by 2025. In alignment with the pledge, we have installed water filtration systems in most of our guestrooms at The Fullerton Hotel Singapore and provided reusable glass bottles for guests to use during their stay. This initiative potentially eliminates the disposal of more than 160,000 plastic bottles annually. Additionally, both of our hotels in Singapore have replaced smaller bottles for wet amenities in guest rooms with larger dispensers made partially of recycled materials.

During the reporting period, we also installed two new Seabins next to the Clifford Pier Jetty and the Customs House. These floating skimmers can intercept floating debris and microplastics, reducing the amount of plastic and other waste in our shared waters in support of Singapore's efforts to tackle marine litter.

為了執行香港政府對即棄塑膠製品的管制,我們於香港富麗敦海洋公園酒店亦逐步採取多項措施,包括以非塑膠替代品取代《2023年產品環保責任(修訂)條例》第一階段所涵蓋的盥洗用品。

2023年10月,新加坡富麗敦酒店和新加坡富麗敦海灣酒店響應新加坡酒店協會的「Hotel Industry Sustainability Pledge」,目標於2025年或以前將飲用水和客房用品的即棄塑膠包裝減至最少,並盡可能使用回收物料。為此,新加坡富麗敦酒店更為大部分客房安裝飲用水過濾系統,並提供可再用的玻璃瓶,供賓客在入住期間使用,預計每年可減少棄置超過16萬個膠樽。此外,我們於新加坡的兩間酒店,都已將客房內的小瓶膠樽裝的洗漱用品更換成補充式分裝瓶,而分裝瓶部分組件更由回收物料製成。

我們亦於報告期內在紅燈碼頭和前海關大樓旁增設兩個「海洋垃圾桶」,這些漂浮過濾器能吸入浮游的碎片和微膠粒,以減少共用水域中的塑膠及其他廢物的數量,藉此支持新加坡處理海洋垃圾方面的工作。

Engaging with our Property Stakeholders

Key initiatives at our managed properties include installing umbrella dryers at our wholly-owned buildings in Hong Kong to eliminate the provision of plastic umbrella bags, well before the Hong Kong Government's ban on single-use plastics under the Product Eco-responsibility (Amendment) Ordinance 2023. Following the enactment of the law, all our other non-wholly-owned buildings have also stopped using plastic umbrella bags, encouraging tenants and visitors to use umbrella dryers and effectively lowering our plastic waste generation. During the reporting period, we launched a new Styrofoam Recycling Programme at tmtplaza, Olympian City, China Hong Kong City, Exchange Tower, Gold Coast Piazza, Citywalk, Island Resort Mall and The Balmoral to recycle styrofoam boxes into pellets and compacted styrofoam bricks. Each compactor has the capacity to handle 400 to 500 styrofoam boxes daily. After compressing the material, it can be handed over to local qualified and government-approved recyclers for further processing and export to be used in the manufacture of various products, such as hangers, picture frames and insulation boards.

Reverse vending machines have also been installed at our managed properties to encourage the collection and recycling of plastic beverage bottles in Hong Kong. Collected plastic bottles are sent to a contractor and transformed into plastic flakes, which are then used to produce recycled plastic products. As at 30 June 2024, we have installed reverse vending machines at 26 of our managed properties. During the reporting period, more than 1,480,000 plastic bottles were recycled through this initiative, avoiding 328,000 kg of GHG emissions, equivalent to the amount of CO_2 removed by 14,200 trees planted.*

連繫旗下物業的持份者

我們旗下管理物業的主要計劃,包括早於香港政府通過《2023年產品環保責任(修訂)條例》與管制即棄塑膠產品有關條文之前,已在香港的全資擁有物業設置兩傘除水器,以停止供應即棄兩傘膠袋。隨著條例生效,我們於其他所有非全資擁有的大廈亦已停止派發兩傘膠袋,並鼓勵租戶和訪客使用兩傘除水器,以有效減少塑膠廢物產生。報告期內,我們於屯門市廣場、奧海城、中港城、國際交易中心、黃門市廣場、荃新天地、藍灣廣場和承峰推出全新的「發泡膠回收計劃」,將發泡膠箱循環再造成再生膠粒和壓縮膠磚。我們在參與物業設置的冷壓機,每天能處理400至500個發泡膠箱。經過壓縮後,材料便交由政府認可的本地持牌回收商進一步加工和出口,用於製造衣架、畫框和隔熱板等各類產品。

我們亦於旗下香港物業設置逆向自動售貨機,以鼓勵 收集和回收膠樽。收集得來的膠樽將送往承辦商, 轉化成塑膠薄片,用於生產再生塑膠產品。截至 2024年6月30日,我們於旗下26項管理物業設置 逆向自動售貨機,並於報告期內回收超過148萬個 膠樽,避免了328,000公斤碳排放,相當於種植了 14,200棵樹*。

Together with our stakeholders, we work to give discarded materials new life through recycling. 我們與持份者攜手合作,透過回收再造來賦予廢棄物料新生命。

As a strategic partner to Food Angel, we set up surplus food collection points at our properties in support of its "World Food Rescue Week 2024" initiative

作為惜食堂的策略夥伴,我們於 旗下物業設置剩食收集點,以支持其 「世界惜食週 2024」。

We also offered Door-to-Door Recycling Services specifically designed for office tenants. This programme has been implemented across 20 office buildings. Tailor-made recycling bins have been placed within the premises to ensure easy and accessible disposal of a wide array of recyclable materials, including paper, aluminium cans, plastic and glass bottles, toner cartridges and rechargeable batteries, as well as fluorescent lamps and tubes. We provide a weekly collection service for participating tenants, supporting the regular and efficient collection of recyclables.

In addition to these initiatives, on Earth Day 2024, tmtplaza partnered with V Cycle to be the first shopping mall in Hong Kong to collect beauty product bottles, giving them a second life to be used as raw materials for recycled products. We joined forces with beauty brands in the mall's BEAUTY WORLD zone to raise awareness about reducing plastic use while shopping for beauty products. Through this Sustainable Beauty Empties Recyling Scheme, we expect to collect around 10,000 empty beauty product bottles, equivalent to avoiding 1,050 kg of GHG emissions.

Food Rescue and Food Waste

We actively engage stakeholders and community partners in our waste reduction initiatives. In Hong Kong, we continue to partner with Food Angel, a food rescue and food assistance programme. As a strategic partner of its Food Smart Buddy Programme, we set up smart food donation machines at four managed shopping malls YM², Olympian City, Citywalk and tmtplaza making it convenient for our community members to donate their surplus food for redistribution to those in need. Additional smart kiosks and scales were deployed and rotated every six months at five of our residential sites. The Group also supported Food Angel's "World Food Rescue Week 2024" initiative. To further encourage food donation, we reward S⁺ REWARDS members with bonus points when they donate food at designated food donation machines. This effort resulted in the collection of 4,820 kg of food throughout the reporting period.

The Group's collaboration with Food Angel goes beyond food collection. Our colleagues have also been volunteering regularly to prepare meal boxes for people in need. More details can be found in the Community Investment and Engagement section of this Report on p.152.

我們亦特別為寫字樓租戶提供上門回收服務。目前,計劃已推行至20座寫字樓。我們亦設置了特製的回收箱,確保租戶能輕鬆簡單地處理各種回收物料,包括紙張、鋁罐、塑膠和玻璃樽、碳粉盒和充電池,以及慳電膽和光管。為了協助租戶定期和有效率地收集回收物品,我們為參加租戶提供每星期一次的收集服務。

除了上述計劃,屯門市廣場為香港首個商場於2024年的世界地球日與V Cycle合作,收集美容產品的空瓶來循環再造成為回收產品,為可回收物料賦予第二生命。我們與商場BEAUTY WORLD區的美容品牌聯手,提高顧客購買美容產品時減少使用塑膠的意識。透過是次「Sustainable Beauty美容空瓶回收企劃」,我們預計收集約10,000個美容產品空模,相當於避免約1,050公斤的溫室氣體排放。

食物拯救與廚餘

我們積極與持份者及社區夥伴合作推行減廢計劃。在香港,我們繼續與食物回收及食物援助計劃惜食堂合作。作為「智・惜食夥伴」計劃策略夥伴的一份子,我們於旗下四個商場——裕民坊、奧海城、荃新天地以及屯門市廣場設置智能食物捐贈機,方便區內市民捐贈乾貨剩食並轉贈予有需要人士。另外,我們亦設置流動智能食物捐贈站和電子磅,每六個月在五個屋苑輪流擺放。集團亦參與「世界惜食週2024」,以支持惜食堂為進一步鼓勵捐贈剩食,S*REWARDS會員於指定食物捐贈機捐贈食物便可獲取積分獎賞。是次活動於報告期內共收集4,820公斤食物。

除了食物收集,集團亦擴展與惜食堂的合作。我們的 員工定期參與義工服務,為有需要的人士準備飯餐。 詳情可參閱本報告「社區投資和參與」章節的第152頁。 Residential properties, shopping malls, offices and industrial buildings under our management implement a comprehensive food waste management programme to reduce the amount of food waste sent to landfill. Food waste digesters have been installed at The Fullerton Ocean Park Hotel Hong Kong, The Fullerton Hotel Singapore and eight managed properties in Hong Kong to convert food waste into greywater, gas or organic fertilisers, thereby mitigating methane and other emissions associated with landfill disposal.

Aside from onsite food waste management, we provide collection services to clients at 11 selected properties under our management, and transport the collected food waste to $O\cdot PARK$ for conversion into biogas.

At The Fullerton Hotel Singapore, we partnered with Food from the Heart, a charity that helps feed the underprivileged within the city, and Divert for 2nd Life, a food rescue group, during the reporting period to distribute bread and surplus food to their beneficiaries every evening. In addition, colleagues from The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore also volunteered with Food Rescue Sengkang to save still-edible and unsold excess food at Pasir Panjang Wholesale Market for distribution to the local communities.

Water Consumption and Efficiency

We recognise the significance of conserving water, one of our most important shared natural resources. Our commitment to using it more efficiently is clearly outlined in our Environmental Policy, Green Office Policy, Sustainable Building Guidelines and Sustainable Procurement Policy. In Hong Kong, we obtain potable water and seawater for flushing from the Water Supplies Department of the Hong Kong Government, and discharge all effluents into public sewer systems in compliance with applicable discharge licences. Our target is to reduce our water consumption intensity by 20% from our 2018 baseline by 2030. As at 30 June 2024, we have reduced water consumption intensity by 23.82% from our 2018 baseline.

We monitor our water consumption on a monthly basis, with various measures in place to reduce our overall water usage. These include using high-efficiency fixtures, occupancy sensors on taps, dual-flush, low-capacity flushing cisterns, leakage detection systems, smart irrigation systems and rainwater collection tanks for water reuse. We have also installed digital water sub-meters in areas such as the laundry room, kitchens and the swimming pool at The Fullerton Hotel Singapore.

In addition, forty properties managed by SEML have joined the ${\rm ECH_2O}$ – Enterprises Cherish Water Campaign organised by the Water Supplies Department of the Hong Kong Government and Green Council. This initiative encourages companies to cherish water together through different initiatives including the signing of a charter, appointment of cherishing water managers, education and promotion, and equipment improvement. The Group remains committed to implementing various measures to reduce water consumption in collaboration with our stakeholders.

我們在旗下管理的住宅物業、商場、寫字樓及工業 大廈推行全面的廚餘管理計劃,以減少運往堆填區的 廚餘量。當中,我們為香港富麗敦海洋公園酒店、 新加坡富麗敦酒店以及香港八項管理的物業安裝 廚餘機,有效將廚餘轉化為中水、氣體或有機堆肥, 減少堆填區相關的甲烷和其他污染物排放。

除了物業的廚餘管理計劃,我們亦在旗下11項管理物業為客戶提供廚餘收集服務,並運送至O·PARK以轉化為沼氣發電。

新加坡富麗敦酒店於報告期內與為新加坡弱勢社群提供糧食的善粮社以及食物拯救團隊 Divert for 2nd Life合作,每天黃昏向受助者派發麵包和食品。此外,新加坡富麗敦酒店及新加坡富麗敦海灣酒店的員工亦參加Food Rescue Sengkang組織的義工服務,從Pasir Panjang批發市場拯救仍可食用和未售出的剩食,並由該機構分發給當地社群。

用水和用水效益

我們明白節約用水的重要性,這是我們最珍貴的共享資源之一。我們致力提升用水效益,並清楚訂明於《環保政策》、《綠色辦公室政策》、《可持續建築指引》和《可持續採購政策》。在香港,我們從香港政府水務署獲取食水和沖廁海水,並根據適用的排放許可證,將所有廢水排入公共污水收集系統中。我們的目標是於2030年前將用水強度從2018年基數減少20%,截至2024年6月30日,我們的用水強度已由2018年基數減少23.82%。

我們每月監測用水量,並實施多項節約措施以減少整體用水量。這些措施包括使用高效能裝置、水龍頭 感應器、雙沖式低容量沖洗水箱、漏水偵測系統、智能灌溉系統,以及收集雨水以重新使用。我們亦已在新加坡富麗敦酒店洗衣房、廚房和游泳池等區域 安裝了電子水錶。

此外,信和物管旗下管理的40項物業已加入由香港政府水務署和環保促進會的「商約」惜水運動。該計劃透過不同的舉措,包括簽署惜水承諾、委任惜水經理、宣傳教育、改善設備等,鼓勵企業共同推動珍惜用水。 集團將繼續與持份者合作,實施各種措施以減少用水。

Promoting a Future with Less Waste

We continue to work with stakeholders and community partners in driving the circular economy.

In August 2023, we organised the Eco-Exchange Day at Olympian City to promote waste reduction and environmental awareness. Around 1,500 children and parents exchanged used toys and books, with some items donated to nearby less-resourced communities.

In January 2024, Sino Clubhouses, under its Green Journey Programme, organised Eco Markets at Hong Kong Gold Coast, One SilverSea, The Avenue, Grand Central and Pacific Palisades, where residents could set up booths and sell their second-hand items. Taking the lead in this environmental activity, SPS colleagues set up a booth at the Hong Kong Gold Coast Eco Market, collecting over 550 second-hand items from colleagues to sell. Proceeds from the sale of items, as well as unsold items, were donated to Christian Action, our long-term recycling activity partner.

During the reporting period, we participated in the Environmental Protection Department of the Hong Kong Government's programme to install smart bins in selected properties under our management. These smart bins facilitate efficient material and waste segregation by incentivising responsible waste management practices among residents and tenants. They are designed to accommodate food waste and recyclable materials, including paper, plastics, metals and glass bottles. All food waste collected is managed and transported by the Government to O-PARK, while partner waste collectors handle recyclable materials.

促進減廢未來

我們繼續與社區夥伴和持份者合作,以共同推動循環 經濟。

2023年8月,我們於奧海城舉辦「環保交換日」來 推廣減廢和提升環保意識。約1,500名小朋友與家長 前來交換玩具和書籍,部分物品捐贈予區內的弱勢 社群。

2024年1月,信和會所在「綠色旅程」計劃下,於香港黃金海岸、一號銀海、囍滙、凱滙和寶馬山花園的會所舉辦環保市集,讓住戶設置攤位來轉售二手物品。作為環保活動的推動者,信和管業優勢的員工於香港黃金海岸環保市集設立攤位,收集並轉售由員工捐出的550多件二手物品。物品的轉售收益及尚未售出的物品,已捐贈予我們的長期回收合作夥伴基督教勵行會。

報告期內,我們參與香港政府環境保護署舉辦的計劃,在旗下管理的特選物業安裝智能回收箱,培養住戶和租戶履行廢物管理的責任,促進有效的物料及廢物分類和棄置。智能回收箱經特別設計,旨在協助收集廚餘和可回收物料,例如紙張、塑膠、金屬和玻璃轉等。所收集的廚餘均運往政府管理的O·PARK,而可回收物料則由廢物收集商夥伴處理。

信和會所於香港黃金海岸、 一號銀海、囍滙、凱滙和寶馬山 花園舉辦環保市集,讓住戶轉售 二手物品。 As part of our efforts to encourage stakeholders to join our green journey, our partnership with Christian Action, lasting over a decade, has resulted in the collection of over 78,000 mooncake containers. We also organised a CNY Usable Item Collection Programme during the reporting period. We collected more than 8,900 kg of new and used items, including clothes, shoes, bags, toys, accessories and electrical appliances, from tenants and residents at 131 properties. Collected items were either distributed to Christian Action's service recipients or sold at Christian Action's charity sales outlets to generate funds for Christian Action's service programmes. We also continued collaborating with Nespresso and Clean the World to recycle coffee capsules and bar soap, respectively. During the reporting period, we collected over 750 kg of Nespresso capsules and 160 kg of soap for recycling.

Additionally, as part of our thirteenth consecutive year of celebrating the Chinese New Year in a more environmentally responsible way, 22 properties under our management, including shopping malls, offices and residential properties, served as collection points for good-as-new lai see packets as part of the Greeners Action's "Lai See Reuse and Recycle Program". During the programme, over 3,300 kg of lai see packets were collected for reuse in the following year. To further our commitment to promoting a circular economy and resource conservation, we facilitate the sale of pre-owned office furniture to our employees through our used item exchange portal, limiting the volume of office furniture headed for landfill.

During the reporting period, the recycling programmes for Christmas and peach blossom trees resulted in the collection and delivery of 124 trees for shredding and reuse as compost and mulch for gardening and planting.

作為推動持份者共同參與綠色旅程的一環,我們與基督教勵行會在過去十多年的合作期間,共收集超過78,000個月餅盒。報告期內,我們舉辦了「歲晚二手物回收計劃」,收集來自131項物業租戶和住戶的8,900多公斤全新和二手物品,包括衣物、鞋、袋、玩具、飾物和電器。收集得來的物品已分發給基督教勵行會的服務對象或於旗下社企商店出售,善款將用於資助基督教勵行會的服務計劃。我們亦繼續與Nespresso和Clean the World合作,分別回收咖啡膠囊和肥皂。報告期內,我們共收集超過750公斤Nespresso膠囊和160公斤肥皂作循環再造。

此外,我們連續第十三年參加綠領行動的「利是封回收重用大行動」,以更環保的方式慶祝農曆新年。我們於旗下管理的22項物業,包括商場、寫字樓和住宅物業設置收集點,收集新淨完好的利是封。活動期間,我們收集了超過3,300公斤的利是封,以供來年再用。為了進一步推動循環經濟和資源節約,我們透過二手物品交換平台向員工轉售二手辦公室家具,盡量減少辦公室資源被棄置到堆填區。

Urban Biodiversity

城市生物多樣性

The conservation of biodiversity is vital for the future of our planet. We are committed to implementing sustainability practices across our operations and value chain to help protect natural ecosystems.

保護生物多樣性對地球的未來十分重要。我們致力保護自然生態系統的抗禦力,並於業務營運和價值鏈中推行可持續實務常規。

How We Are Managing It

Our property development activities can potentially impact the ecosystems surrounding our development sites. We seek to minimise impact on natural habitats and species by conducting proper assessments and employing effective management practices. It is also essential that we work with our suppliers to address biodiversity risk and reduce impact in our operations and throughout our value chain.

Our Biodiversity Policy guides our efforts to protect ecological systems and provides a framework for integrating biodiversity considerations into all aspects of our operations. Following our Sustainable Building Guidelines, we prioritise the protection and conservation of native species, habitats and ecosystems when selecting development project sites. Our landscaping team accounts for impacts on surrounding ecosystems as they improve the environments around our properties, avoiding the introduction of invasive species and seeking opportunities to promote local biodiversity. As part of our commitment to biodiversity conservation, we conducted tree assessment surveys for all our applicable new development projects during the reporting period.

怎樣管理

我們的物業發展活動或對開發地點周邊的生態系統 造成影響。因此,我們致力透過適當的評估和有效的 管理方針,將營運對自然棲息地和物種的影響減至 最低。我們也必須與供應商合作,以應對生物多樣性 風險,並減少我們的營運和價值鏈中對大自然的 影響。

我們的《生物多樣性政策》指引我們在保護生態系統方面的工作,並提供框架將生物多樣性融入於營運各層面。我們根據《可持續建築指引》,在發展項目的選址過程中優先保護和保育當地物種、重要棲息地和生態系統。我們的園景團隊在美化物業環境時會考慮對周邊生態系統的影響,避免引入入侵物種,促進當地生物多樣性。作為履行保護生物多樣性承諾的一環,我們在報告期內已對所有適用的新發展項目進行樹木評估調查。

We raise awareness amongst our stakeholders about biodiversity protection and conservation. 我們致力提高持份者對保護和保育生物多樣性的意識。

Aiming for Nature Positivity

Following Sino Land's entry to the TNFD Forum in December 2022, Sino Land became the first real estate developer in Hong Kong to join the Science Based Targets Network ("SBTN") Corporate Engagement Program in June 2023, demonstrating its dedication to using natural resources sustainably and protecting and restoring the natural environment. In January 2024, Sino Land further became an inaugural TNFD Early Adopter, pledging to begin aligning its corporate reporting with the TNFD Recommendations by the financial year 2025. We believe that addressing the TNFD Recommendations will allow us to better identify and assess our nature-related dependencies, impacts, risks and opportunities, enabling us to integrate these considerations into our financial and operational decision making.

Building Awareness Among Stakeholders

During the reporting period, we continued to drive awareness of biodiversity protection and conservation among our stakeholders through several key initiatives.

追求自然正向發展

繼 2022年12月加入TNFD論壇後,信和置業於 2023年6月成為香港首家地產發展商參加「科學目標網絡企業參與計劃」,展現以可持續的方式運用 天然資源,以及保護和恢復自然環境的決心。信和置業 更於 2024年1月成為TNFD早期採用者,承諾於 2025財政年度或以前開始根據TNFD建議編寫企業 報告內容。我們相信,回應TNFD建議能使我們有效 地識別和評估與自然相關的關聯、影響、風險和機遇,從而有助我們將這些考量納入企業財務和營運的決策中。

提高持份者的意識

在報告期內,我們通過多項重要舉措,持續推動持份者 對保護生物多樣性的認識和關注。 From July to August 2023, The Fullerton Hotel Singapore collaborated with the National University of Singapore's Lee Kong Chian Natural History Museum on the "Specimen Stories: Biodiversity in a Changing Climate" exhibition at the hotel's East Garden Gallery. In support of Go Green SG, an initiative led by Singapore's Ministry of Sustainability and the Environment, the exhibition demonstrated the richness of Southeast Asian biodiversity as documented through research expeditions.

As part of Go Green SG 2024, The Fullerton Hotel Singapore organised two complimentary workshops for children to inspire their creativity and gain knowledge about sustainability by learning how to transform recycled materials into useful items. The first workshop engaged children in creating superhero-themed photo frames for Father's Day, while the second workshop involved participants in crafting decorative lions.

The Group continued hosting our annual Sino Junior Reporter Programme with SCMP Young Post. Focusing on climate change and marine biodiversity, this ninth iteration of the programme provided an opportunity for participating secondary school students to strengthen their English communication skills through a journalism workshop and learning about cutting-edge innovation related to marine biodiversity through a trip to the CORAL REEFStoration Centre at Ocean Park.

To further promote marine conservation and education, The Fullerton Ocean Park Hotel Hong Kong showcased an exhibition of the original hand sketches of Sea Creatures and Animals in Hong Kong and From Around the World, a bilingual children's book written and illustrated by "Hong Kong's father of marine conservation", the late Professor Brian Morton. We also invited a speaker from the Ocean Park Conservation Foundation Hong Kong to host a complementary book reading event for ethnic minority students from Man Kiu Association Primary School. Afterwards, a visit to the CORAL REEFStoration Centre was also arranged for students to learn about the crucial role of corals in the ecosystem and the various ecological threats they face.

Our integrated green community project, Farm Together, promotes harmony with nature through our 21 urban farms in Hong Kong and one in Singapore. During the reporting period, we set up two new farms under the project: Farm at One North and Wellness Lodge Farm. Farm at One North exemplifies the building's sustainability-, health- and wellness-focused design features. With herbs as its main produce, the farm welcomes One North's tenants to engage in various urban farming activities. Meanwhile, Wellness Lodge Farm is designed to promote physical and mental wellness among residents at Wellness Lodge, a transitional housing project in Tsing Lung Tau. This community farm cultivates a variety of culinary herbs and nutrient-rich crops. Further information about Farm Together can be found in the succeeding case study.

We have also actively responded to our stakeholders' concerns regarding birds striking the windows of the footbridge between Olympian City 2 and Olympian City 3. During the reporting period, we heeded our stakeholders' advice to install window stickers with dot patterns to prevent bird collisions.

2023年7月至8月,新加坡富麗敦酒店與新加坡 國立大學李光前自然史博物館合作,於酒店舉辦 「Specimen Stories: Biodiversity in a Changing Climate」展覽。為支持新加坡永續發展與環境部 發起的「綠動新加坡」,展覽透過研究考察紀錄展示 東南亞豐富的生物多樣性。

作為「綠動新加坡 2024」的一環,新加坡富麗敦酒店 為兒童舉辦了兩場免費工作坊。透過學習如何將回收 物料製作成有用的物品,兒童可以發揮創造力, 並吸收有關可持續發展的知識。參加者於首個 工作坊以「超級英雄」為主題為父親節製作相框, 另一工作坊則讓參加者製作獅子裝飾品。

集團繼續與《南華早報青年報》合作,舉辦年度「信和校園記者計劃」。計劃已踏入第九屆,今年以氣候變化和海洋生物多樣性為重點,為參加中學生提供機會,透過新聞工作坊加強英語溝通技巧,並藉著參觀海洋公園「活化珊瑚中心」了解與海洋生物多樣性相關的尖端創新技術。

為了進一步推廣海洋生態的保育和教育工作,香港富麗敦海洋公園酒店舉辦展覽,展示由「香港海洋保育之父」已故的莫雅頓教授撰寫和繪畫插圖的雙語兒童圖書《海洋及陸地的動物朋友》手稿。我們亦邀請香港海洋公園保育基金的講者,為閩僑小學的少數族裔學生舉辦免費閱讀活動。隨後,學生一同參觀「活化珊瑚中心」,了解珊瑚在生態系統的重要角色及所面臨的各種生態威脅。

我們的綜合綠色社區項目「一喜種田」,透過21個位於香港市區的農圃及一個位於新加坡的農圃,促進與大自然的和諧共存。「一喜種田」項目於報告期內新設兩個農莊:朗壹農莊及普綠軒農莊。朗壹農莊充分體現朗壹廣場以可持續發展和身心健康的設計特色。農莊以栽種香草為主,歡迎朗壹廣場的租戶參與各種都市耕種活動。另外,普綠軒農莊位於青龍頭過渡性房屋項目「普綠軒」,設計著重促進住戶的身心健康。這個社區農莊種植了各種用作烹調的香草和營養豐富的農作物。有關「一喜種田」的詳情,請參閱接下來的案例。

我們亦積極回應持份者對雀鳥撞向連接奧海城二期 及三期行人天橋玻璃幕牆的關注。報告期內, 我們聽取了持份者的建議,在玻璃幕牆貼上圓點 貼紙,以防止雀鳥誤撞玻璃。

Farm Together

一喜種田

Our integrated green community project, Farm Together, continues to promote harmony with nature through urban farms. The project has now expanded to include 21 farms in Hong Kong and one in Singapore, spanning over 57,000 sq. ft., cultivating over 380 plant and crop species and producing more than 1,700 kg of crops annually. The farms breathe new life into our properties, enabling colleagues, tenants, hotel guests and the wider community to experience the wonders of urban farming.

From 25 April to 20 June 2024, Skyline Tower tenants and Sino colleagues joined a six-week programme at Sky Farm, where they experienced the joy of urban farming and green living. Led by our Farm Together consultant, the farming sessions taught our urban farmers about the workflow of a farmer and provided practical fieldwork opportunities. The programme also included a tie-dye workshop and a pesto sauce-making workshop to promote the fun of living green.

Through our partnership with the Hong Kong Labour and Welfare Bureau of the Hong Kong Government's "Elder Academy Scheme", we hosted visits for over 180 elderly individuals at our urban farms across Hong Kong. These visits provided participants with hands-on experience of urban farming. The workshops deepened their understanding of sustainable farming concepts, making the green journey more practical and engaging.

我們的綜合綠色社區項目「一喜種田」,繼續以都市耕作宣揚與自然和諧共處。該項目現已擴展至包括香港的21個農圃和一個位於新加坡的農圃,總面積逾57,000平方呎,合共種植逾380種植物和農作物品種,每年收成量超過1,700公斤。農圃為我們的物業注入活力,讓員工、租戶、酒店賓客及廣大社區都能體驗都市耕作。

2024年4月25日至6月20日,宏天廣場的租戶和信和同事參加了為期六週的「宏天空中農莊」租戶農務工作坊,體驗都市耕作的樂趣。工作坊的內容充實,由「一喜種田」的顧問,向我們的都市農夫傳授務農的流程,並給予親身實踐的機會。計劃亦包括一次紮染工作坊和一次香草醬製作工作坊,使綠色生活更添樂趣。

我們透過與香港政府勞工及福利局「長者學苑計畫」 的夥伴合作,接待超過180名長者參觀我們遍布 全港的都市農圃。活動能讓參加長者親身體驗都市 耕作,並藉著工作坊加深他們對可持續耕作概念的 了解,使綠色之旅變得更實用有趣。

Reviving Hong Kong's Marine Heritage with CORAL REEFStoration

以活化珊瑚行動修復香港的海洋寶藏

Reefs provide valuable climate-adaptive ecosystem services such as protecting coastlines from storms, but they remain threatened by the effects of climate change, such as ocean acidification and warming water.

We aim to rehabilitate the coral reef habitat in Hong Kong's southern waters with CORAL REEFStoration, Hong Kong's first cross-sector collaborative project for local coral restoration. Using the world's first 3D-printed terracotta reef tiles developed by Archireef, the project aims to rebuild 20 square metres of the reef at Middle Island, once home to a vast range of local coral species, within three to five years. To date, we have successfully deployed 14 square metres of reef tiles seeded with over 280 rescued coral fragments. This effort has enhanced the habitat complexity of the site, attracting more fishes and other marine organisms, with 17 unique species such as long-spine urchins and edible sea cucumbers found. We expect the corals to continue growing, further enhancing the habitat and promoting biodiversity.

The project achieved a significant milestone in July 2023 with the opening of the CORAL REEFStoration Centre at Ocean Park, a new rehabilitation facility for rescued coral fragments. To empower the public to take action to protect our marine ecosystem, visitors can participate in a range of

activities at the Centre, including coral lectures and interactive STEAM (Science, Technology, Engineering, Art and Mathematics) experiments, which provide immersive learning opportunities for both local community members and tourists.

The project also includes a "CORAL REEFStoration Ambassador Programme". Ten outstanding students in the programme were selected to participate in the "Star CORAL REEFStorators" initiative designed to deepen their knowledge about marine and coral conservation through snorkelling, eco-tours and husbandry experiences.

珊瑚礁提供獨特的氣候適應生態系統服務,例如保護 海岸線免受風暴威脅,但氣候變化,如海洋酸化和 水溫上升,對珊瑚礁構成威脅。

我們致力透過香港首個跨界別合作的本地珊瑚保育計劃「活化珊瑚行動」,修復香港南部水域的珊瑚礁棲息地。計劃運用 Archireef 全球首創 3D 打印陶製珊瑚礁盤技術,力求於三至五年間修復曾是各種珊瑚棲息地的熨波洲,合共 20 平方米的珊瑚礁。至今,我們已成功在 14 平方米的珊瑚礁盤移植並拯救 280 多塊珊瑚碎片。經修復的珊瑚,已吸引了不少魚類和其他海洋生物棲息,提升了當地水域的生物多樣性。目前已發現 17 種獨特的物種,例如長刺海膽和可食用的海參。我們預期珊瑚將持續生長,進一步保育棲息地並促進生物多樣性。

計劃的重要里程碑,是於2023年7月於海洋公園開設名為「活化珊瑚中心」的全新珊瑚保育設施,用於修復被拯救的珊瑚碎片。為推動公眾一同保護海洋生態系統,訪客可參加一系列的中心體驗活動,包括珊瑚講座和互動的STEAM(「科學、技術、工程、藝術和數學」)實驗,為本地社群和遊客提供沉浸式的學習體驗。

此外,計劃亦包括「活化珊瑚大使計劃」,十名於計劃 當中表現傑出的學生獲選參加「星級活化珊瑚大使」 交流活動,期間透過浮潛、生態導賞團和繁殖珊瑚的 體驗,加深對海洋和珊瑚保育的認識。

Celebrating Green Living and Upcycling

升級再造慶賀綠色生活

The Group brings festive joy to our colleagues and communities during the Christmas season through circular economy activities.

集團透過推動循環經濟為同事和社區在聖誕節期間送上節日歡樂。

This Upcycled Christmas Tree was composed of over 450 recycled plastic bottles. As part of our commitment to establishing a sustainable value chain, the plastic bottles were sent to our green partner for recycling after the festive season.

這棵升級再造聖誕樹,由超過 450 個回收 膠樽製作而成。佳節過後,我們將膠樽交予 綠色合作夥伴進行回收,以實現可持續的 價值鏈。

In December 2023, we organised the inaugural Christmas Car Boot Market at China Hong Kong City. This 11-day holiday event, inspired by the famed car boot sales of the United Kingdom, brought together a community of passionate environmental advocates and interested members of the public to celebrate the spirit of the holiday season and make a meaningful difference to the environment.

At the heart of the event was a celebration of green living and the art of upcycling. Car owners participated as vendors, transforming the backs of their vehicles into innovative showcases for upcycled treasures. From repurposed furniture to charming accessories, each booth told a story of creativity and sustainability — shining a light on old and discarded items that can be transformed into something beautiful and functional.

With Christmas trees and light decorations made from recycled materials, the Christmas Car Boot Market was more than just a marketplace. Another event highlight was the Family Fun Green Workshop & Parade, where participants joined upcycling workshops and children paraded their upcycled costumes at the market.

For the fourth consecutive year, the Group celebrated the holiday season with a sustainable twist by hosting the "Upcycled Christmas Tree and Ornament Design Competition" for our colleagues and their families. We received a total of 230 entries from more than 660 employees. This year, we also invited 100 primary school students through our green partners to create a colourful upcycled Christmas tree at Tsim Sha Tsui Centre using over 450 recycled plastic bottles.

2023年12月,我們在中港城舉辦首屆聖誕車尾箱環保市集。這個為期11天的節慶活動,靈感來自英國著名的車尾箱市集,匯聚關注環保的人士和公眾在慶賀佳節的同時,亦為環境帶來具意義的影響。

活動以慶祝綠色生活和升級再造藝術為焦點。車主以檔主的身分參加,並利用創意將車尾箱改造成展示升級再造寶藏的攤位。每個攤位都各有特色,從改造家具到悅目的飾物,都在細說有關創意和可持續發展的故事,老舊的廢物經過改造都可綻放光芒,轉化為美麗和實用的物品。

聖誕車尾箱環保市集不僅為市集,更是收集回收 材料,用作升級再造成聖誕樹和燈飾的場地。活動的 另一焦點是親子環保工作坊和巡禮,參加者一同參加 升級再造工作坊,其後小朋友穿上自己的升級改造 服裝於藝墟上登台展示。

集團繼續將可持續發展理念帶進節慶中,並連續第四年為同事及家屬舉辦「升級再造聖誕樹及裝飾設計比賽」,共收到660多名同事提交的230件參賽作品。今年,我們透過環保合作夥伴邀請了100名小學生利用450多個回收膠樽在尖沙咀中心製作出色彩繽紛的升級再造聖誕樹。

The sub-committee's role includes maintaining compliance with labour and health and safety regulations, including market-specific minimum wage requirements, and reviewing our safety performance quarterly. With health and safety being a top priority for the Group, the sub-committee is tasked with developing action plans to ensure all safety measures remain robust.

Communication Channels

We believe that responding to the diverse perspectives and concerns of our stakeholders is vital to the success of our business. Our colleagues are encouraged to engage with management executives through various channels, including email, intranet, inSino, newsletters and Corporate Town Hall meetings. Through these two-way communication channels, we listen to and strive to promptly address employee needs.

In October 2023, we were pleased to have around 1,000 colleagues participate in our Corporate Town Hall meeting. Management and department heads shared major updates on key company initiatives over the year and discussed organisational challenges and strategies. The event also featured an inspiring guest speaker, Professor Thies Lindenthal, from the University of Cambridge, who shared insights about approaches to capture, quantify and optimise the impact of real estate on people's lives. In the spirit of open dialogue, an interactive Q&A session with our management team allowed employees and senior executives to exchange views and insights. A follow-up email was sent to all colleagues, addressing questions and feedback raised at the session.

溝通渠道

我們相信,回應持份者的多元化觀點和關注事項對業務的成功至關重要。我們鼓勵員工以電子郵件、內聯網、「信誌」、員工通訊、以及員工溝通大會等多個渠道,與管理層保持溝通。這些雙向的溝通渠道,有助我們聽取和迅速回應員工的需要。

我們欣然於 2023年10月舉行員工溝通大會,獲約1,000名員工參與。管理層和部門主管分享了過去一年公司重大項目的最新進展,並討論公司所面臨的挑戰及其應對策略。我們亦邀請來自英國劍橋大學的Thies Lindenthal 教授擔任嘉賓,在會上分享識別、量化和完善房地產對人們生活影響的灼見。本著開放溝通的精神,我們安排互動問答環節,讓員工和高級行政人員與管理層交流意見和見解。其後,我們向所有員工傳送跟進電郵以回應會上的問題和意見。

Employee Benefits

Our human capital strategy outlines our approach for nurturing our employees and motivating them to excel. During the reporting period, 12 outstanding employees and six high-performing teams were recognised at the Outstanding Employee and Team Award Ceremony. Each of the awardees exemplified an exceptional commitment to the Group's business performance, customer service and frontline operations. Outstanding employees were treated to a trip to Singapore where they visited The Fullerton Hotel Singapore, Far East Organization as well as major tourist attractions. Aside from awards, employees are also motivated through competitive benefits and training programmes.

We design our remuneration and benefits to attract and retain the right talent. Packages are reviewed annually to reflect individual performance, contributions and market trends. We offer competitive medical coverage, retirement benefits, training subsidies, overtime pay and discretionary performance bonuses. We also provide a range of leave entitlements, including paid annual leave, birthday leave, extended maternity leave of 18 weeks, parental leave of ten days and paternity leave, as well as a wide range of employee discounts. Many benefits enjoyed by our staff also extend to their family members.

In line with our commitment to improving the wellbeing of our colleagues, we introduced several enhancements to our employee benefits package at the beginning of 2024. These included expanding employee medical coverage to include treatment for mental health conditions and prescribed medication, introducing family care leave, and increasing volunteer service leave days.

Employees' Children Education Award and Assistance Scheme

The Employees' Children Education Award and Assistance Scheme supports the learning needs of children of employees who achieve outstanding academic results. During the reporting period, 150 children of our employees from Hong Kong and Mainland China received scholarships and bursaries. Eighty awardees and their family members attended the award presentation in November 2023. Management representatives presented certificates of commendation and gift vouchers to the awardees, encouraging them to keep up their hard work. In addition, the Group offered primary and secondary school textbook subsidies to 172 children of our employees.

Health, Safety and Wellbeing

健康、安全和福祉

The health, safety and overall wellness of our stakeholders is at the very heart of our commitment to wellbeing. We strive to foster a supportive environment where our employees, customers and communities can flourish, and aim to achieve this by implementing the highest standards across our operations.

持份者的健康、安全和福祉,是我們促進身心健康承諾的核心。 我們力求營造互助的環境,並以最高的標準營運為目標, 讓員工、顧客和社區得以健康發展。

How We Are Managing It

Our Health and Safety Policy outlines our approach to safeguarding our stakeholders, including employees, customers, contractors and suppliers. The Green Living Sub-committee, a branch of our ESG Steering Committee, ensures that our health and safety management system encompasses all our operations and is aligned to the most stringent industry standards and relevant regulations. Regular inspections and audits keep us accountable, and the Company's ERM framework also provides a risk-based approach to identifying, mitigating and reporting any further issues related to health and safety. A dedicated Occupational Health and Safety ("OHS") Steering Committee, which convenes every quarter, formulates effective strategies and policies to maintain a healthy and safe workplace for our employees.

怎樣管理

我們的《健康及安全政策》概述保障員工、顧客、 承辦商和供應商等持份者的方針。環境、社會及管治 督導委員會旗下的綠色生活小組委員會,負責確保 我們的健康及安全管理體系貫徹於各營運層面,並與 最嚴謹的行業標準和相關規例保持一致。我們定期 視察和審核問責,並以企業風險管理框架下的風險為本 方針來識別、緩解和報告有關健康及安全的其他 問題。我們成立職業健康及安全督導委員會專責制定 有效策略和政策,成員每季舉行一次會議,務求為 員工提供健康及安全的工作環境。

Occupational Health and Safety

Workplace health and safety is the highest priority across our business operations. We comply with all applicable laws and regulations in Occupational Safety and Health, including Hong Kong's Occupational Safety and Health Ordinance, and ensure stringent control over high-risk situations such as work in confined spaces and at height. SPS holds 29 certificates in the ISO 45001 OHS Management System standard.

The OHS performance of our operations in property management, car park management, security and environmental services falls under the purview of the OHS Steering Committee, comprising senior executives from key business units. This Committee also ensures that appropriate safety principles are implemented in day-to-day operations in accordance with our health and safety management system. A Safety and Health Sub-committee, and a separate sub-committee focused on district-level safety and health, sit under the OHS Steering Committee. These sub-committees review all issued accident investigation and near-miss reports and recommend improvements to enhance systems and prevent incidents. The sub-committees also compile OHS data and reports for the OHS Steering Committee's review. Employees' views on our OHS management system's development, implementation and evaluation are gathered through our two-way communication channels.

Daily inspections and risk assessments allow us to maintain effective and reliable systems. We have implemented emergency response plans to manage incidents and have external audits conducted by specialists to enhance our investigation mechanisms, to ensure that we have fulfilled all regulations and adopted measures to address all identified risks. We are committed to tracking performance and adopting measures for continuous improvement. All our building managers are required to set yearly targets for key OHS performance indicators, such as injury rates and the number of qualified first aiders. We aim to maintain an LTIR at or below 2.5 per 100 employees by 2030. During the reporting period, we achieved this target by maintaining an LTIR of 2.0 per 100 employees.

Training is key to our OHS practices, delivered through safety campaigns, alerts, newsletters, billboards and discussion sessions, as well as mandatory and specialised programmes. During the reporting period, we conducted a mandatory Fire Safety eLearning course for all colleagues and fire drills at our managed properties, embedding a solid understanding of fire safety and evacuation procedures throughout our operations. SEML is one of the first organisations in the private property management sector to be recognised and accredited by the Labour Department of the Hong Kong Government ("Labour Department") to run a mandatory Basic Safety Training Course, commonly known as "Green Card" and its revalidation training course, as well as the Safety Training Course for Competent Persons of Confined Spaces Operation.

職業健康及安全

我們在業務運營中將工作環境的健康和安全視為 最高優先事項。我們遵守所有適用的職業安全及健康 的法律和規例,包括香港的《職業安全及健康條例》, 並確保嚴密監控密閉空間和高空工作等高風險工作。 信和管業優勢持有29張ISO 45001職業健康及安全 管理體系標準證書。

職業健康及安全督導委員會由主要業務部門的高級行政人員組成,職權範圍包括物業管理、停車場管理,以及保安和環境服務業務的職安健表現。委員會確保在日常業務中執行健康及安全管理系統的各項原則。我們於職業健康及安全督導委員會轄下設立安全及健康事宜的小組委員會。這些小組委員會審查已發布的意外調查及險失事故報告,並提供改善措施和預防同類意外的建議。這些小組委員會亦會編製職安健數據和報告,供職業健康及安全督導委員會審查。我們透過雙向溝通渠道,就有關制定、推行和評估職安健管理體系向員工收集意見。

日常巡查和風險評估讓體系保持有效可靠。我們推行緊急應變計劃來處理事故,並由外部審核專家加強調查機制,以確保我們遵守所有規例,以及採取措施以應對所有已識別的風險。我們致力監控並採取措施持續改善職安健表現。所有我們的樓宇經理均需為職安健關鍵績效指標訂立年度目標,如工傷率和合資格急救員的數量。我們目標於2030年前將工傷引致損失工時比率保持在每100名員工2.5或以下。報告期內,我們將工傷引致損失工時比率保持在每100名員工2.0。

培訓是保障員工健康及安全的關鍵,並以安全推廣活動、提示、員工通訊、資訊板、討論分享環節,以及強制性和專門課程等傳遞安全訊息。報告期內,我們為所有同事舉辦強制性消防安全網上學習課程,並於旗下管理物業進行火警演習,讓同事更深入了解業務運作的消防安全和疏散程序。信和物管是首批獲得香港政府勞工處(「勞工處」)授權開辦職安健課程的私營物業管理機構之一,包括強制性基本安全訓練(俗稱「平安卡」)及其重溫課程,以及密閉空間合資格人士安全訓練課程。

Construction Site Safety

Our health and safety systems extend to all construction sites and workers. Our Safety Team oversees training and education, communication and technical support, safety inspections, hazard control and the investigation of incidents at our sites. The team also coordinates regular safety meetings, issues weather alerts, conducts risk assessments and evaluates contractor performance to identify areas of improvement.

We conduct construction site safety inspections at least five times a week. If a non-compliance issue is identified, we require our contractors to carry out corrective actions, such as conducting safety training programmes for all workers on construction safety within one week. In terms of contractor safety assessment, site supervisors are required to submit monthly reports, permits and checklists on construction site safety. We also encourage all workers to report work-related hazards or hazardous situations to supervisors. During the reporting period, we conducted joint safety inspections with our contractors an average of four times per month, while external third-party inspections were conducted monthly. Instances of non-compliance that are identified must be rectified within a predetermined time frame; failure to do so may result in suspension of work.

Our contractors conduct site-specific training sessions for complex procedures that require technical knowledge before commencing work. In addition, fire safety warning education, emergency drills and other training activities are organised during the construction stage to comprehensively enhance contractors' awareness of fire safety and their professional skills. During the reporting period, we conducted 22 training sessions related to safety for employees and contractors, with nearly 1,270 participants while the contractors conducted 515 safety training sessions for their employees and workers, with nearly 2,400 participants. We also provided health and safety training, tailored to the specific conditions at each site and to all workers before construction. Since 2008, 8,066 employees have completed the Mandatory Basic Safety Training Course (Construction Work), and 684 colleagues have completed the Safety Training Course for Competent Persons of Confined Spaces Operation.

Customer Health and Safety

To protect the health and safety of all our stakeholders, including customers, tenants and visitors, we proactively manage risks posed by the built environment. The risk management team tasks a qualified engineer to conduct building safety reviews, which include onsite inspections.

建築工地安全

我們的健康及安全體系同樣適用於所有建築工地和工人。我們的安全小組負責監督施工現場的培訓與教育、溝通和技術支援、安全巡查、危機控制和事故調查。小組亦負責統籌定期安全會議、發出天氣警告、評估風險和承辦商的表現以識別需改善的地方。

我們每週進行工地安全巡查至少五次,如發現不合規情況,我們會要求承辦商採取糾正措施,例如在一週內為所有工人舉行工地安全培訓。在承辦商安全評估方面,工地主管必須每月提交工地現場的安全報告、許可證和檢查表。我們亦鼓勵所有工人向主管報告與工作相關的隱患或危險情況。報告期內,我們聯同承建商平均每月進行四次安全檢查,同時每個月進行一次第三方檢查。如發現不合規個案,承辦商必須於指定限期內整改,否則可能導致停工。

另外,我們的承辦商在施工前針對複雜程序所需的技術知識,安排特定現場培訓課程。我們亦於施工階段期間舉行火災安全警示教育、緊急演習及其他訓練活動,全面提升承辦商的消防安全意識及專業技能。報告期內,我們為員工及承辦商舉辦了22次安全培訓,參加人數近1,270人次,而承建商為員工和工人舉辦了515次安全培訓,參與人次接近2,400人。我們更根據個別工地的具體情況,在施工前為所有工人提供定制的健康及安全培訓。自2008年以來,8,066名員工完成強制性基本安全培訓課程(建築工程),以及684名員工完成密閉空間作業合資格人士安全訓練課程。

職業健康安全獎

憑藉團隊在維護職安健方面的努力,信和管業優勢於「第十一屆最佳職安健物業管理大獎」中榮獲 13個獎項,包括銀、銅、優異獎及其他獎項。獎項 由職業安全健康局、香港政府勞工處、香港政府機電 工程署和其他協會合辦。

顧客健康及安全

為保障所有持份者的健康及安全,包括顧客、租戶和訪客,我們積極管理建築環境的既有風險。我們的風險管理團隊責成合資格工程師展開樓宇安全審查,包括實地視察。

Our hotels also prioritise food safety by enforcing strict standards for suppliers during food ingredient production, processing, storage and transportation, as well as by providing regular employee training on food safety. For instance, The Fullerton Ocean Park Hotel Hong Kong conducts food hygiene training on an annual basis for all food handlers, while The Fullerton Hotel Sydney provides third-party annual training on food safety, housekeeping and food allergies. Our food ingredient suppliers must comply with our food safety and quality standards, on top of all relevant local laws and regulations, including compliance with the Food Hygiene Code of the Food and Environmental Hygiene Department of the Hong Kong Government and of other local jurisdictions. During preliminary qualification checks, suppliers are required to provide valid documentation to prove their ability to meet our quality and safety requirements, such as food health and safety-related certificates. We also conduct onsite audits to regularly assess our suppliers on food and product quality to ensure their compliance with our quality standards on hygiene control, food handling and processing, and food safety certification. In cases of non-compliance with regulations, we carry out prompt corrective action, followed by re-auditing. We may suspend procurement from suppliers that do not meet our expectations and re-audit requirements.

We test our emergency response procedure annually across all our managed properties, including residential, commercial and industrial buildings. These emergency drills encompass various scenarios, including responses to chemical spills, power outages, flooding, typhoons, fires and injuries.

A Safety Management Plan is in place to assist our property management teams in responding to emergencies. Property managers are required to develop a tailored emergency response manual for each property under their management. In the unfortunate event of an emergency, our property management team can provide rapid onsite response to assist tenants and customers to follow procedures for their safe evacuation. Subsequently, the team has to compile an investigation report outlining the nature of the incident, its impact and recommendations for any necessary follow-up actions.

In addition to protecting the health of our stakeholders within our properties, we also prioritise their overall wellness. In this regard, we organised a series of wellbeing activities at our managed malls, including yoga classes at China Hong Kong City and Landmark South and a running event from One North to Nam Sang Wai.

Employee Wellness — Promoting Mental and Physical Health

Our dedication to employee health encompasses all aspects of wellness, both mental and physical, and is informed by employee feedback. During the reporting period, we invited colleagues to define their ideas for creative staff activities through the "2024 Shape Your Staff Activity". One of the activities submitted in response was for an indoor bouldering experience, which was successfully organised in November 2023. In addition, we engaged in the activities described on the opposite page.

我們的酒店以食品安全為先,在食品原材料生產、 加工、儲存和運輸過程中對供應商執行嚴格的標準, 並定期為員工提供食品安全培訓。例如,香港富麗敦 海洋公園酒店每年均為食物處理人員舉行食物衞生 培訓,而悉尼富麗敦酒店則每年提供有關食品安全、 房務和食物敏感的第三方培訓。我們的食品原材料 供應商必須遵守我們的食品安全和品質標準,以及所有 相關的當地法律和規例,包括遵守香港政府食物環境 衞生署的《食物衞生守則》和其他地方司法管轄區的 相關條例。在初步資格審查中,供應商必須提供有效 文件以證明能達到我們的食品質素和安全要求,例如 食品衞生和安全相關證書。我們亦進行現場審核, 定期評估我們供應商的食品和產品質素,以確保他們 符合我們在衞生管控、食品處理和加工,以及食品安全 認證方面的品質標準。如有違反規例的個案,我們會 迅速採取改善行動並重新評估。我們或有可能暫停向 未能符合我們期望和再評估要求的供應商採購。

我們在旗下管理物業,包括住宅、商業及工業大廈, 進行年度緊急應變程序測試。這些緊急演習包括不同 情境,例如化學品洩漏、停電、洪水、颱風、火災和 受傷事故。

我們已制定一套安全管理計劃,以助物業管理團隊應對緊急情況。物業經理需為每個管理的物業定制緊急應對手冊。如遇緊急狀況,物業管理團隊便可提供迅速的現場應對,幫助租戶和客戶安全地疏散。隨後,團隊需整理調查報告,列明事故及其影響,並提供跟進工作的建議。

我們不僅保障旗下物業持份者的健康,同時亦關顧他們的整體福祉。為此,我們於旗下商場舉辦一系列身心健康活動,包括在中港城和 Landmark South舉辦瑜珈班,以及以朗壹廣場為起點跑步到南生圍的活動。

員工福祉 —— 促進身心健康

我們關顧員工各方面的身心健康,並重視員工的回饋意見。報告期內,我們藉著「2024年度員工活動由你創」邀請同事構想具創意的員工活動。其中一項由同事提出的活動是室內抱石體驗,並於2023年11月順利舉行。此外,我們亦籌辦了對頁所例出的活動。

Physical Health

Throughout the year, colleagues participated in sports, charity events and various activities, promoting healthy lifestyles across the Group. This included outdoor adventures such as a UNICEF Charity Run and The Green Earth Night Walk 2024. All full-time employees were eligible to join Sino Sports Teams for football, basketball and running, which provide free coaches, venues and various equipment.

In addition to promoting physical activity, we are dedicated to protecting colleagues' health through vaccination. Ahead of the winter influenza season, the Group arranged a Seasonal Influenza Outreach Vaccination Service. Employees, their family members and tenants were invited to obtain free or low-cost influenza vaccines at Skyline Tower, Tsim Sha Tsui Centre and China Hong Kong City. Employees and their family members were also eligible to receive vaccinations at appointed medical centres.

As part of the Group's International Women's Day celebration in March 2024, we hosted a webinar on early breast cancer detection to raise awareness amongst our female colleagues about the most common cancer worldwide. Led by the General Surgeon Dr Yvonne Tsang, Honorary Medical Consultant of the HK Breast Cancer Foundation, participants learned about the various causes of and treatment options for breast cancer, methods to reduce cancer risk, and breast examination.

Mental Health

Our emotional support services include confidential counselling through the Christian Family Service Centre, available to colleagues and their family members to address stress stemming from work or personal issues. We also hosted various mental health webinars for our colleagues, covering important topics such as stress management, understanding vicarious trauma and building resilience.

We bridged the gap between physical and mental health in collaboration with Mind HK through "Move It for Mental Health 2024", a month-long challenge to complete 50 km of running, swimming or other outdoor activities to promote mental wellness. Our focus extended to mental health in December 2023 when colleagues were invited to a rejuvenating wellness journey at Flow Farm in Wenbishan Country Park, Zhongshan. Participants joined mindfulness workshops in nature, involving walking and sitting meditation to improve emotional and spiritual health.

Family-related Activities

We understand that work-life balance is important for our colleagues' overall wellness. To this end, we organised various family-friendly employee activities, including the Ocean Park Water Battle Fest, Tai O Cultural Tour and Fun Park Adventure. During the summer, we also offered free hotel getaways at The Fullerton Ocean Park Hotel Hong Kong, enabling colleagues and their families to relax and create memorable experiences together.

身體健康

同事於今年亦透過體育、慈善及其他多項活動聚首一堂,向集團上下推廣健康生活方式。當中包括參加「聯合國兒童基金會慈善跑」和「綠惜夜行2024」等戶外活動。所有全職員工均可參加集團成立的信和體育隊,包括足球、籃球和跑步,免費提供教練、場地和各項設備。

除了推動康體活動外,我們亦致力透過疫苗接種保障 同事的健康。在冬季流感季節來臨前,集團安排季節 性流感疫苗接種外展服務。我們邀請員工、家屬及 租戶於宏天廣場、尖沙咀中心和中港城免費或以折扣 價接種流感疫苗。員工及其家屬也可以在指定的醫療 中心接種疫苗。

作為集團慶祝國際婦女節的活動之一,我們於2024年3月舉辦早期乳癌檢測網路研討會,以提高女同事對全球最常見癌症的認識。在香港乳癌基金會名譽醫學顧問,外科專科醫生曾頤欣的帶領下,讓參加者了解乳癌的各種成因、治療方法以及降低癌症風險和乳房檢查的方法。

心理健康

我們為員工提供情緒支援服務,當中包括透過基督教家庭服務中心提供保密輔導,支援員工及家屬舒緩因工作或個人事務而產生的壓力。我們亦為同事舉辦多個有關精神健康的網上研討會,內容涵蓋壓力管理、認識替代性創傷和建立抗逆力等主題。

我們與香港心聆合作,透過「為精神健康躍動 2024」 拉近生理和心理健康之間的聯繫。在這為期一個月的 活動中,參加者需要完成 50公里跑步、游泳或其他 戶外活動,以促進心理健康。我們繼續將焦點延伸至 精神健康,在 2023 年 12 月,同事獲邀前往中山市 文筆山公園的「心薈」參加靜觀養生之旅。參加者在 大自然環境下的靜觀工作坊中透過行禪和打坐改善 情緒和靈性健康。

家庭活動

我們明白工作與生活之間的平衡對身心健康的 重要性。為此,我們為員工籌劃一系列適合家庭參與 的員工活動,例如海洋公園水上嘉年華、大澳文化 之旅,以及玩轉樂園大冒險。我們於夏季更為員工及 其家人提供香港富麗敦海洋公園酒店的免費住宿, 讓他們一同放鬆並創造美好家庭回憶。

Diversity and Inclusion Month

In 2023, we furthered our commitment to diversity and inclusion by organising Diversity and Inclusion Month. Through interactive activities, 400 colleagues and their families and friends were inspired to embrace fresh perspectives on disability inclusion, gender equality, mental wellness and cultural diversity. Five workshops were organised in collaboration with local NGOs and social enterprises. Highlights from sessions held throughout the month are described below.

Mental Wellness x Herbarium Workshop

In line with the spirit of World Mental Health Day, we hosted a "Mental Wellness x Herbarium Workshop" in collaboration with newlife.330 by the New Life Psychiatric Rehabilitation Association. Over 100 colleagues signed up to learn about the five ways to wellbeing: Take Notice, Be Active, Give, Connect and Keep Learning. By making their unique herbarium bottles, colleagues used this creative outlet for self-expression, stress relief and practising mindfulness.

Support Visually Impaired x Dialogue in the Dark

In partnership with Dialogue in the Dark (HK) Foundation, participants were brought from a sighted world to complete darkness, moving through a simulated daily environment with a cane and exploring the unseen with visually impaired guides.

Cultural Diversity x Sikh Temple Tour

Colleagues interested in learning more about cultural diversity joined a half-day tour of the Sikh Temple in Wan Chai, led by WEDO GLOBAL Foundation. They attended a cultural talk, experienced an Indian vegetarian meal and enjoyed a Henna DIY session with cultural ambassadors.

多元共融月

2023年,我們履行對多元和共融的承諾,繼續 舉辦「多元共融月」。透過互動體驗啟發400名同事 及其親友對傷健共融、性別平等、精神健康和多元 文化抱開放態度。期間,我們與本地非牟利機構和 社企合作舉辦五場工作坊,活動詳情如下:

精神健康 x 浮游花工作坊

為響應「世界精神健康日」,我們與新生精神康復會 旗下的新生·身心靈合作舉辦「精神健康x浮游花 工作坊」。超過100名同事參與其中,學習五種促進 身心靈健康的方法,包括好奇留意、動一動身、給予 樂善、與人聯繫和持續學習。同事藉著製作自己獨特 的浮游花瓶,以創意表達自我、緩解壓力和練習正念。

關注視障人士 x 黑暗中對話旅程

我們與黑暗中對話(香港)基金會合作,參加者從 看得見的世界過渡至一片漆黑中。在視障導遊的陪同 下使用白杖重新感受模擬的日常環境,探索看不見的 世界。

多元文化 x 參觀錫克廟

有興趣了解多元文化的同事參加了由愛同行基金會 舉辦的灣仔錫克廟半日遊。他們與文化大使一起參加 文化講座、享用印度素食和體驗Henna彩繪DIY 工作坊。

Management Approach

Property development can significantly impact the health of both people and ecosystems. To reduce environmental impact and enhance the wellbeing of all our stakeholders and the communities, we strive to implement sustainability best practices throughout the lifecycle of our buildings, including in our construction and management processes. We accomplish this by adopting leading sustainable building standards and materials to improve climate resilience and the wellness of our surrounding ecosystems. Our approach to designing environmentally and socially responsible, resource-efficient buildings is overseen by the Innovative Design Sub-committee of our ESG Steering Committee. This sub-committee meets quarterly and monitors our performance and progress, including our efforts to achieve sustainable building certifications and continual improvement in our property construction and management processes.

管理方針

物業發展能對我們的健康和周邊生態系統產生重大影響。為減低對環境的影響和提升所有持份者及社區的身心健康,我們致力在樓宇的生命週期中,包括在建築和管理流程中,採用最佳的可持續實務常規。同時,我們力求採納領先的可持續建築標準和物料,以提高氣候抗禦力及增強社區和生態系統的健康。環境、社會及管治督導委員會轄下的創新構思小組委員會負責監督我們的樓宇設計方針,確保設計對環境和社會負責和具能源效益。小組委員會每季舉行一次會議,監察我們的工作表現和進度,包括在可持續建築認證方面的工作,並持續檢討以改進物業建設和管理流程。

Sustainable Buildings

可持續發展建築物

Our approach to building design strives to enhance the wellbeing of people, the environment and the communities surrounding our properties. Our innovative designs also invite some of our most valued stakeholders — our employees, tenants and customers — to join us in transitioning to more sustainable practices.

我們的樓宇設計方針,致力提升大眾的身心健康及福祉,以及改善環境和社區。我們的創新設計亦邀請員工、租戶和顧客等重要持份者參與其中,攜手邁向更可持續的常規。

How We Are Managing It

We incorporate sustainability attributes throughout the building lifecycle in accordance with our Sustainable Building Guidelines, Sustainable Procurement Policy and SCoC. This helps embed sustainable development principles into the design, construction, management and procurement processes associated with our properties. Our Guidelines stipulate that we measure the embodied carbon in development projects where practicable and monitor community impacts during project development. We also apply innovative and environmentally responsible technologies that enhance IAQ to protect the health and safety of customers, tenants and visitors. More details on our procurement policies can be found in the Sustainable and Ethical Supply Chain section of this Report on p.54. At our properties and construction sites, we also consider ecological impacts in accordance with our Biodiversity Policy; details can be found in the Urban Biodiversity section of this Report on p.85.

怎樣管理

我們按照《可持續建築指引》、《可持續採購政策》和《承辦商/供應商行為守則》將可持續發展元素注入樓宇的生命週期中,這有助我們將可持續發展原則融合於物業設計、建築、管理及相關採購過程中。指引規定我們必須在可行情況下量度物業發展項目的含碳量,並在項目發展期間監察對社區的影響。我們還會應用創新且對環境負責任的技術提升室內空氣質素,以保障顧客、租戶和訪客的健康及安全。有關採購政策的詳情,請參閱本報告第54頁的「可持續和具道德的供應鏈」章節。我們亦會根據《生物多樣性政策》考慮物業和建築工地項目對生態的影響,詳情請參閱本報告第85頁的「城市生物多樣性」章節。

Sustainability at our Properties

Local and global standards and certifications guide our approach to adopting sustainable building practices. The BEAM Plus certification sets out sustainability-related performance criteria relevant to the planning, design, construction, commissioning, fitting out, management, operation and maintenance of buildings, as recognised and certified by the Hong Kong Green Building Council ("HKGBC"). The WELL Building Standard™, developed by the International WELL Building Institute[™], outlines ten key features of building performance: air, water, nourishment, light, movement, thermal comfort, sound, materials, mind and community. In Singapore, we also follow the standards set by Singapore's Building and Construction Authority ("BCA"). The Fullerton Hotel Singapore has received the BCA's Green Mark Gold^{PLUS} Rating, recognising building performance that reflects robust energy and water efficiency levels, IAQ, greenery provision, active mobility considerations and waste management. In addition, several of our managed properties in Hong Kong have received certifications from WiredScore, an organisation that defines and certifies digital connectivity and smart technology in homes and offices on a global scale.

Our SV2030 target is to obtain BEAM Plus Gold or above certifications at 100% of our wholly-owned new development projects, where applicable, by 2030. We also strive to achieve WELL™ certification for all of our new buildings in Hong Kong. Additionally, we continue to adopt sustainable building standards and invest in improvements across the Group's investment property portfolio, including at all our existing buildings.

During the reporting period, the key certifications achieved by our managed properties are as follows:

Industrial Revitalisation with Sustainability Features

Over the past decade, the Hong Kong Government has endeavoured to transform the Kowloon East area into Hong Kong's second central business district through an innovative and environmentally responsible approach to urban design and land use management. The aim is to change the public's perception of the city's industrial zones.

The Group supports this project by actively refurbishing our Kwun Tong industrial buildings. Welcoming a diverse portfolio of tenants, including health and lifestyle brands, the Group has proactively reached out to young entrepreneurs by promoting tenancy opportunities on social media platforms. These promotions highlight the district's transformation and the burgeoning start-up culture. As footfall is predicted to increase, the Group also aims to attract a wide range of restaurants and fitness studios to the area to meet the growing demand for healthy lifestyle amenities.

以可持續元素活化工廈

過去十年,香港政府致力於透過創新且環保的 城市設計和土地使用管理方法,積極將九龍東打造成 香港第二個核心商業區,以改變公眾對本港工業區的 固有想法。

為響應計劃,集團主動翻新旗下位於觀塘區的工業 大廈,藉以吸引健康和生活品牌等不同類型的租戶。 集團更以九龍東迅速發展和蓬勃的創業文化為推廣 重點,積極於社交媒體平台吸納年輕企業家租戶。 隨著預計人流不斷增加,集團亦積極於當區引入不同 的餐廳和健身中心,以滿足不斷增長的健康生活設施 需求。

Our buildings are designed to enhance the wellbeing of people, the environment and the surrounding communities. 我們的建築物設計有助提升人們、環境,以及周邊社區的福祉。

Ensuring Building Quality

"Quality Excellence" is one of our core values. We address customer needs and potential environmental impacts at the project design stage. We also keep up to date on technological developments and use innovative solutions to improve efficiency and quality through the construction stage, including Building Information Modelling, Design for Manufacturing and Assembly, hybrid reality platforms and 5G-enabled construction equipment. We carefully select and source materials and strictly supervise construction to maintain high levels of safety and quality. We also conduct regular onsite audits and inspections to ensure our suppliers comply with our sustainable building and material standards.

At the pre-sale stage, thorough building quality inspections are conducted using the Group's standards from in-house experts. Our project monitoring team performs quality audits to verify that finished projects meet our standards and have minimal defects. At the handover stage, we conduct at least three full-scale inspections — covering over 100 items — in every unit to ensure our quality and safety standards are met. After properties are sold, our dedication to quality endures. Qualified safety officers monitor and review sold properties. We also equip our homebuyers with mobile apps through which they can sign documents, report issues during handover and monitor repairs and maintenance during the warranty period. We further seek homebuyers' feedback through a handover survey. These efforts are supported by providing building quality training for our employees and contractors at least once a year. During the reporting period, we conducted 29 training sessions on building quality for employees with nearly 1,600 participants while main contractors conducted 15 training sessions on building quality for sub-contractors and workers with nearly 200 participants.

確保建築物質素

「卓越品質」是我們的核心價值之一。我們於項目設計的階段,便已考慮客戶需求及對環境的潛在影響。我們亦關注最新技術的發展,積極採用創新的解決方案,包括建築信息模擬、裝配式設計、混合實境平台和支援5G的建築設備,以提高施工階段的效率和質素。我們審慎地選取和採購建築材料,並嚴格監督施工,以保持高水平的安全性和品質。我們亦會定期進行實地審核和視察,以確保供應商遵守我們的可持續建築和物料標準。

在物業的預售階段,我們的內部專家按照集團的標準 徹底檢驗建築物的質量。我們的項目監控團隊亦會 進行質量審核,以確認項目已通過檢驗並符合我們的 標準,務求將瑕疵降至最低。在交樓階段,我們亦會 為每個單位進行最少三次全面檢查,檢查項目 超過100個,以確保符合我們的質量和安全標準。 物業售出後,我們對質量的要求仍不妥協,由合資格 的安全人員監督並審查已售出的物業。我們亦為買家 提供手機應用程式,不僅用作文件簽收,更可讓買家 在交樓期間提出問題,並在保養期內監督維修和保養 工作。我們亦透過交樓問卷調查收集買家的寶貴 意見。另外,我們的工作亦包括每年為員工和承辦商 提供最少一次建築物質量培訓。報告期內,我們為 員工舉辦了29場有關建築物質量的培訓課程,接近 1.600人次參與。承建商亦為分判商舉辦了15場 有關建築物質量的培訓課程,參加人次接近200名。

WiredScore Certification

WiredScore 樓宇通訊認證

Recognitions 認可

Skyline Tower Platinum Rating 宏天廣場 鉑金級評級

Empire Centre Gold Rating 金級評級

Tsim Sha Tsui Centre Gold Rating 全級評級

We take a holistic approach to innovative design, incorporating numerous sustainability features at our properties. Beyond addressing environmental and social issues, this includes investment in competitive technologies that meet both the current and future digital demands of our tenants while also optimising building designs to foster long-term sustainability. During the reporting period, Skyline Tower, Empire Centre and Tsim Sha Tsui Centre exemplified this approach by supplementing existing green building recognitions with new certifications from WiredScore.

The certifications place these properties amongst the world's best-connected buildings, recognising their ability to support the needs of our tenants with reliable and effective digital infrastructure. Empire Centre and Tsim Sha Tsui Centre received "Gold" ratings while Skyline Tower received a "Platinum" rating — the highest certification from this globally recognised digital connectivity rating scheme. The rating attests to Skyline Tower's outstanding digital connectivity performance against quality standards covering wired infrastructure, resilience and wireless network facilities. We intend to apply for WiredScore certification at additional properties in the next few years.

我們的創新設計採用全方位策略,致力於旗下物業中加入多個可持續發展的元素。除了應對環境和社會議題,我們亦投資於具競爭性的技術,以應對租戶目前和未來的數碼需求,同時藉此優化建築設計,促進長遠可持續發展。報告期內,宏天廣場、帝國中心和尖沙咀中心在現有的綠色建築認證基礎上,再添新的WiredScore樓宇通訊認證,充份實踐我們創新設計的策略。

這些認證表彰我們的數碼基礎設施能可靠且有效地支援租戶的需求,讓我們旗下的物業能躋身全球最佳建築之列。帝國中心和尖沙咀中心均獲得「金級」評級,而宏天廣場則榮獲「鉑金級」最高評級 —— 是全球認可的數碼網絡通訊評級中的最高認證。評級證明了宏天廣場在有線基礎設施、抗禦力和無線網絡方面,均有出色的數碼網絡通訊表現。未來數年,我們計劃為更多物業申請WiredScore樓宇通訊認證。

GoCircular

In line with our overall approach to material use and waste management, we implement the practices of a circular economy and incorporate innovative construction materials at our properties where applicable. At the same time, we recognise the important contributions our stakeholders make to our sustainability journey. The Group's GoCircular platform helps us work together by encouraging colleagues, partners and the community to apply circular economy practices in their daily lives to "reduce, reuse and recycle" along with us. Through the platform, we explore innovative solutions to address waste issues and transform materials into new opportunities. For example, we work with like-minded partners to create sustainable construction materials and upcycled furniture. Some of our initiatives are described below. More details about how we promote GoCircular can be found in the case study on p.126.

3D Concrete Robotic Printing

In collaboration with students from The Hong Kong Polytechnic University School of Design ("PolyU Design") and materials science experts from the Nano and Advanced Materials Institute ("NAMI") and PolyU Industrial Centre, we developed a sustainable urban design project aiming to leverage 3D concrete printing technology. The inaugural phase focused on tackling waste issues by integrating recycled materials, such as construction and plastic waste, into cement formulations. Students from PolyU Design then used this new mixed cement and other recycled materials to print functional seating installations at Olympian City as a case study. The project helps raise awareness and educate passers-by on reducing, reusing and recycling waste.

起動循環

為配合我們物料使用和廢物管理的整體方針,我們在可行的情況下於旗下物業推行循環經濟理念,並採用創新建築材料。與此同時,我們深明持份者的參與對我們的可持續發展旅程相當重要。集團的「起動循環」平台有助我們通力合作,鼓勵同事、合作夥伴和社區於日常生活中應用循環經濟的理念,與集團一起「減廢、重用和回收再造」。透過這個平台,我們探索創新解決方案以應對廢物問題,並將物料轉化為新的機遇。例如,我們與志同道合的合作夥伴協力創造可持續建築材料,並使用升級再造的家具。以下為一些相關計劃。更多有關我們如何推動「起動循環」的詳情,請參閱第126頁的案例。

3D 混凝土打印

我們與香港理工大學設計學院(「理大設計」)的學生,以及納米及先進材料研發院(「NAMI」)和理工大學工業中心的物料科學專家合作,將3D混凝土打印技術應用於我們的可持續城市設計項目。項目首階段重點應對廢物問題,將建築和塑膠廢物等回收物料加入至水泥配方。其後,來自理大設計的學生運用了這種新型混合土及其他回收物料,打印出功能性座椅並於奧海城作為一個案例研究。項目有助提高大眾對減廢、重用和回收廢物的意識和增進相關知識。

Through GoCircular, we explore innovative solutions to address waste issues and transform waste into new opportunities. 我們透過「起動循環」探索創新方案來應對廢物問題,同時將廢物轉化為新機遇。

Upcycled Mills Barrier Covers at Olympian City

Teaming up with V Cycle, we collected waste plastic bottles from Olympian City and upcycled them into mills barrier covers for the mall. This initiative offered discarded materials a new lease on life, contributing to waste reduction and promoting a circular economy. Each upcycled barrier cover amounts to keeping 115 plastic bottles out of landfills. The extensive upcycling process involves collecting, sorting, cleaning, sterilising, drying, shredding, melting, extruding, spinning, weaving, cutting and sewing the fabric into covers. This ensures the complete transformation of the retrieved plastic bottles from waste to a useful material.

Deployment of EcoBricks

We continue to install EcoBricks, the construction material made from upcycled plastic waste comprising mixed and composite plastic that is currently impossible to recycle, at our managed properties. EcoBricks were first deployed at Gold Coast Piazza in Tuen Mun; other properties that use this innovative solution include Olympian City, Citywalk, The Fullerton Ocean Park Hotel Hong Kong and One North.

我們夥拍V Cycle,從奧海城收集廢膠樽,升級再造成商場的鐵馬圍欄套。這項計劃不僅為廢棄物料提供了新的用途,亦有助減少廢物和促進循環經濟。每個升級再造的鐵馬圍欄套,均可避免將 115 個膠樽棄置於堆填區。升級再造的過程周密,當中包括收集、分類、清洗、消毒、拭乾、打碎、溶解、擠壓、紡紗和編織,將布料裁剪並縫製成鐵馬套,確保將回收得來的膠樽完成由廢物轉變成更有用的物料。

採用 EcoBricks

我們繼續在旗下管理物業採用 EcoBricks。EcoBricks 環保磚是由塑膠廢料升級再造而成的建築材料,當中物料包括現時無法回收再造的混合塑膠和合成塑膠等。我們率先在位於屯門的黃金海岸商場使用EcoBricks,其他使用此創新解決方案的物業包括奧海城、荃新天地、香港富麗敦海洋公園酒店和朗壹廣場。

Facility Management

Sustainability is also embedded in our property management services, which SPS provides through SEML. These services include responsible practices such as energy and water management, waste reduction and recycling. We are humbled that these efforts were recognised with multiple awards throughout the reporting period.

The Group also received multiple awards across facilities management and other categories at the Green Building Award 2023. Jointly organised by HKGBC and the Professional Green Building Council, the biennial award scheme has been recognising excellence in creating a sustainable built environment since 2006.

In addition, SPS received 13 awards, including one champion and 12 merit awards, at the International Facility Management Association ("IFMA") Asia Pacific Awards of Excellence 2022–23. Presented by The Hong Kong Chapter of IFMA, these accolades celebrate our exceptional facility management practices, including:

- Deploying a 5G robot as a mobile ambassador to provide free parking redemption assistance for daytime and night security patrols;
- Promoting circular economy and green living by involving stakeholders in collecting plastic bottles for producing EcoBricks; and
- Revitalising industrial buildings with wholesale conversion improvements for enhanced sustainability.

The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore were also certified to the Global Sustainable Tourism Council Industry Criteria for Hotels. The Fullerton Hotel Singapore became the first hotel in a heritage building in Singapore to earn the accolade. The certification recognises our ongoing efforts in sustainability management, maximising social and economic benefits for the local community, enhancing cultural heritage, and reducing environmental impacts. It also reflects our commitment to the Singapore Tourism Board and Singapore Hotel Association's Hotel Sustainability Roadmap, which aims for 60% of the hotel room stock in Singapore to attain internationally recognised hotel sustainability certification by 2025.

設施管理

我們亦將可持續發展理念融入物業管理服務。信和 管業優勢透過信和物管提供的服務結合負責任的 實務常規,例如能源和水資源的管理、減少廢棄物和 回收等。我們深感榮幸,於報告期內榮獲多個獎項 認可。

集團亦於「環保建築大獎 2023」榮獲多項設施管理和其他組別的獎項。「環保建築大獎」由香港綠色建築議會和環保建築專業議會合辦,為兩年一度的獎勵計劃,自2006年起表彰在建構可持續發展環境方面的優異表現。

此外,信和管業優勢在國際設施管理協會香港分會 (「IFMA」)舉辦的「國際設施管理協會亞太區卓越大獎 2022-23」獲頒13個獎項,當中包括一項大獎和 12項優異獎,表揚公司優秀的設施管理,例如:

- 利用 5G 機械人協助日間免費泊車兌換和夜間保 安巡邏;
- 向各持份者收集膠樽來生產EcoBricks環保磚, 以促進循環經濟和綠色生活;以及
- 以全面改裝來活化工業大廈,推動可持續發展。

新加坡富麗敦酒店和新加坡富麗敦海灣酒店亦榮獲全球可持續旅遊委員會所頒發的酒店行業標準認證。其中,新加坡富麗敦酒店更成為新加坡首座歷史建築酒店獲得此殊榮。認證表揚我們在可持續發展管理、為當地社區提升社會和經濟效益、加強文化傳承,以及減少對環境影響等方面的不懈努力。這些工作,亦體現出我們對新加坡旅遊局和新加坡酒店協會的酒店可持續發展路線圖的承諾,其目標於2025年或以前,至少60%新加坡酒店客房達致國際認可的酒店可持續發展認證。

Recognition for Design

In March 2024, One North received the "Best Sustainability Brand Award" at the Brand Design Awards 2024, presented by the Hong Kong Designers Association. Sino Group also received the same "Best Sustainability Brand Award" as well as the prestigious "Grand Award of the Year" in the property developer and management category at the same ceremony. Established to set and uphold high standards for premium brands in Hong Kong, the Brand Design Awards are rigorously adjudicated by esteemed professionals and business leaders in Hong Kong based on criteria including distinctiveness, aesthetic value, marketability, innovation and sustainability.

Two of our projects during the reporting period were honoured at the 2024 Green Good Design Awards. "Eco-cycling map for One North", developed in partnership with V'air Hong Kong, an environmental education organisation, aimed to raise awareness on biodiversity and sustainable living through a cycling map that featured valuable ecological and cultural attractions in the One North neighbourhood. Meanwhile, "Social Design Gift for One Soho", made in collaboration with Mosi Mosi, showcased the intersection of inclusivity and design. More information about this initiative can be found in the case study on the opposite page.

設計獎項

2024年3月,朗壹廣場在香港設計師協會主辦的 最佳品牌設計大獎2024中榮獲最佳可持續發展品牌 大獎。與此同時,信和集團亦獲得同一獎項以及房地 產及物業管理組別「年度大獎」的殊榮。品牌設計 大獎的宗旨是為香港優質品牌樹立和保持高標準。 評審團由香港的專業人士和商業領袖組成,評審標準 包括設計獨特性、美學價值、市場競爭力、創新性和 可持續性。

報告期內,我們的兩個項目獲「2024 Green Good Design Awards」頒發獎項。其中,我們與環保教育機構V'air合作,設計出「朗壹廣場單車旅遊指南」,目的是希望透過介紹朗壹廣場周邊社區寶貴的生態和文化景點來增強大眾對生物多樣性和可持續生活的意識。另一得獎項目是我們與「Mosi Mosi無事無事研究所」合作製作的「ONE SOHO設計入伙禮物」,該項目展示了共融和設計的無縫交接。有關項目的詳情,請參閱對頁的案例。

Create with People of Varying Abilities 傷健共融創作

Inclusivity brings fresh perspectives as we strive to innovate. In September 2023, the Group joined hands with Mosi Mosi Design Lab, a like-minded, creative-driven studio committed to advocating for the spirit of inclusion. Inspired by ONE SOHO's "Tranquil Oasis in the City" concept, a talented artist with autism was invited to craft exquisite coffee gift boxes with unique illustrations that served as a housewarming gift to enhance residents' experience. Aiming to promote social inclusion in the community through art, this collaboration helped us extend a warm welcome as residents settled into their new homes. It inspired us to collaborate with all who celebrate originality, functionality and craftsmanship in Creating Better Lifescapes.

共融帶來的新視角,是我們不斷創新的泉源。 2023年9月,集團與同樣宣揚共融精神的 設計工作室「Mosi Mosi無事無事研究所」聯手 邀請一位患自閉症有才華的藝術家合作。藝術家 受 ONE SOHO「繁華鬧市中寧靜綠洲」的概念 啟發,以獨特插畫圖案創作出精美咖啡禮盒, 送給住戶作為入伙禮物,以提升住戶的體驗。 在歡迎住戶新居入伙的同時,是次合作透過 藝術推廣社會共融,並藉以勉勵各界擁抱原創、 功能和工藝,攜手「建構更美好生活」。

Promoting GoCircular

宣揚「起動循環」

Through the Group's GoCircular platform, we inspire our stakeholders to adopt more environmentally responsible practices and work towards a more sustainable future.

透過集團的「起動循環」平台,我們鼓勵持分者採取對環境更負責任的實務,共同邁向更可持續的將來。

Design is more than a tool to improve the functionality, performance and aesthetics of our buildings. It is an opportunity to engage all who connect with our properties to adopt more sustainable practices, amplifying our collective impact. Throughout the reporting period, we took a number of steps to promote the Group's GoCircular platform and inspire our stakeholders to work towards a more sustainable future.

GoCircular Corner

Designed to drive innovative solutions to transform waste into sustainable construction materials, the GoCircular Corner is a physical platform where we engage our tenants and customers in circular economy practices. At each GoCircular Corner, three types of plastic are collected through recycling bins made of 100% recycled plastic waste collected by V Cycle, and designed and produced by a local plastic upcycler, Gaau1 Up. More than 3,030 EcoBricks generated from over 491,500 upcycled plastic bottle caps and rings have been used to create four benches and pave the seating areas. This amounts to 980 kg of plastic, 40 kg of glass and 35 kg of construction demolition materials diverted from landfill.

First installed at One North, the GoCircular Corner has now been replicated at Skyline Tower and Sino Plaza, serving both as a leisure area for our tenants and customers and as a small information hub to empower them to reduce, reuse and recycle.

Central Recycle Station

To collect a wide variety of materials and promote waste reduction and recycling across our properties, we have installed user-friendly central recycle stations at the common areas of Grand Central, Landmark South and One North. We collect items such as Tetra Pak containers, toner cartridges, paper, plastics, USB cables, fluorescent lights and tubes, aluminium cans, rechargeable batteries, glass bottles and metals for recycling.

設計不僅是改善建築功能、性能和美學的工具,更有助我們鼓勵大眾奉行更多環保行動,務求擴大我們的集體影響。報告期內,我們採取了多項措施推廣集團「起動循環」平台,鼓勵持份者邁向更可持續的未來。

「起動循環」區

「起動循環」區為實體平台,旨在推動創新解決方案,將不同類別的物料轉化為可持續建築材料,同時藉以促進租戶和顧客實踐循環經濟。我們於每個「起動循環」區設置的回收箱,均由本地升級再造商Gaau1 Up設計,以100%V Cycle所收集的再生塑膠製造,用於收集三類塑膠。收集所得的491,500多個膠樽蓋和拉環,已升級再造出超過3,030塊EcoBricks,其後用於製造成四張長凳和鋪設座椅區域,相當於減少980公斤塑膠、40公斤玻璃和35公斤建築材料被棄置於堆填區。

我們率先於朗壹廣場設置「起動循環」區,現已擴展至宏天廣場及信和廣場。這既能為租戶和顧客提供休憩區,又可用作小型資訊中心,藉以鼓勵他們減廢、 重用和回收再造。

中央回收站

我們於凱滙、Landmark South 和朗壹廣場的公共空間設置了中央回收站,以便收集各式各樣的物料,推動旗下物業減廢和回收。我們收集的回收物品包括紙包飲品盒、碳粉盒、紙張、塑膠、USB線、燈泡和光管、鋁罐、充電式電池、玻璃樽和金屬。

Magical Christmas Tree

奇妙聖誕樹

The Magical Christmas Tree shines a light on arts technology through the integration of Al and sustainability, embodying our approach to innovation and environmental stewardship.

透過融合人工智能和可持續發展元素,奇妙聖誕樹在展現藝術的光彩同時體現我們的創新和環境管理方針。

To celebrate the holiday season, in December 2023, we collaborated with the Laboratory for Artificial Intelligence in Design to showcase the Magical Christmas Tree at China Hong Kong City. The installation, which beautifully embodied our approach to both innovative design and green living, comprised illuminated optical fibres, sustainable yarn materials and an advanced camera in the textile that recognised pre-trained gestures, forming an innovative fabric. This resulted in an Al-supported "intelligent textile", which allowed visitors to control lighting effects by simply performing gestures in front of the tree.

The interactive Christmas tree, made from upcycled plastic bottles, was developed by 3D-printing manufacturer, Dreamcubics 3D Printing Company Limited, and was enabled by the creative vision of a local design studio LittleUrbanMountain Design Ltd. We are delighted to have shared this design-forward experience with our stakeholders, helping shine a light on arts technology through the integration of Al and sustainability with a festive celebration.

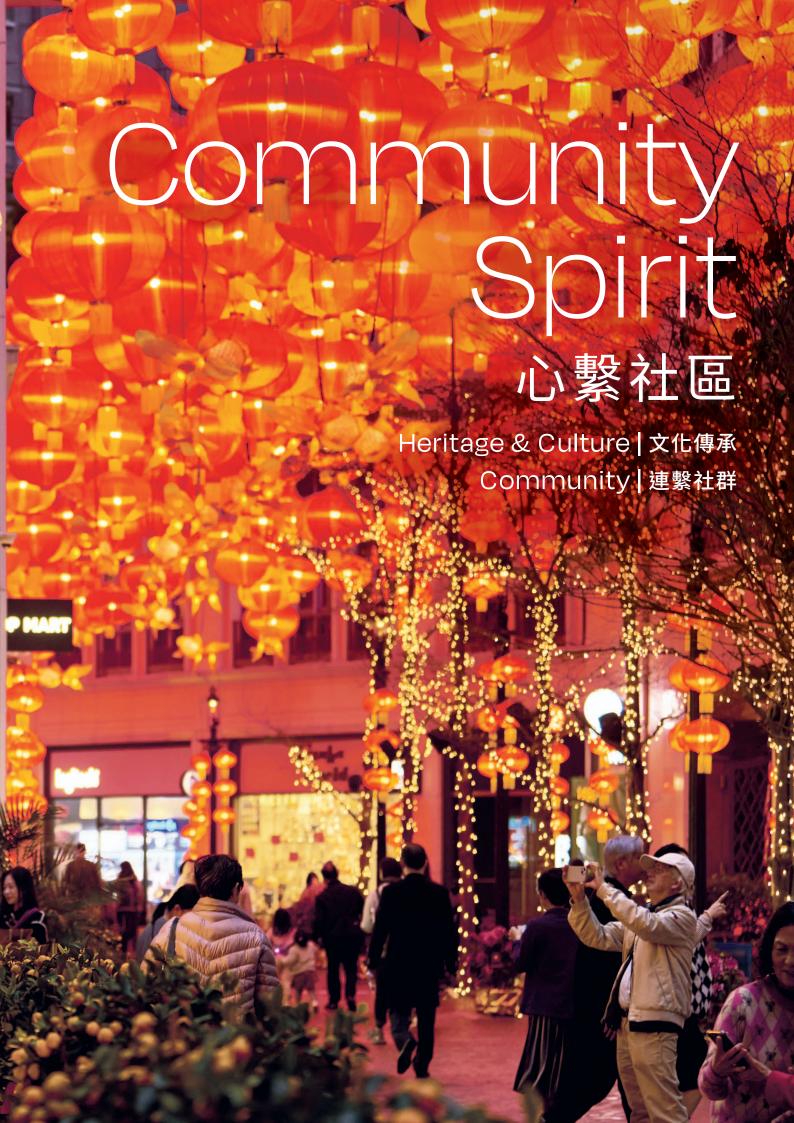

為慶祝佳節,我們於2023年12月與「人工智能設計研究所」(「AiDLab」)合作,在中港城展示「奇妙聖誕樹」。這個裝置美妙地體現出我們創新構思和綠色生活的理念,結合發光光纖、可持續紗線材料,以及可識別預設手勢的內置先進鏡頭,形成創新的布料。這揉合人工智能的「智能紡織品」,可讓顧客在聖誕樹前利用幾個簡單的手勢來控制照明效果。

這棵能互動的聖誕樹,由本地設計工作室小市山設計 創作,以及3D打印塑膠製造商夢立方三維打印有限 公司利用回收PET 轉製作而成。我們很高興能夠與 持份者分享這個先進並結合人工智能、可持續發展和 節日慶祝元素的藝術設計體驗。

Heritage and Conservation Projects

Our commitment to heritage conservation is embedded throughout our Fullerton Hotels in Singapore and Sydney. The Fullerton Hotel Singapore is housed within the former Fullerton Building, the 71st National Monument of Singapore. A grand neoclassical landmark built in 1928 and recognised as a National Monument in 2015, the building once housed Singapore's General Post Office, various government departments and the prestigious Singapore Club before it became a hotel.

The Fullerton Hotel Sydney is housed within Sydney's former General Post Office building, a landmark in its own right, steeped in character and elegance, which was completed in 1874. Celebrating its 150th anniversary in 2024, this historic building is listed on the Commonwealth Heritage List and New South Wales Heritage Register. The majestic sandstone structure was inspired by late Medieval and Renaissance Italian architecture and is considered one of Australia's finest examples of the Italianate style. Our conservation efforts at this property have included an extensive restoration of its iconic façade undertaken by hand without using chemicals.

Complimentary heritage tours are offered to hotel guests to build awareness about the rich histories of these structures and their surrounding areas. At The Fullerton Hotel Singapore and The Fullerton Bay Hotel Singapore, tour guides licensed by the Singapore Tourism Board conduct weekly heritage tours through which they share the stories, experiences and memories of people who have lived and worked in the precinct. Visitors are also invited to undertake self-guided tours along a heritage trail to explore landmarks in and around The Fullerton Heritage precinct and the neighbouring civic district.

During the reporting period, 5,423 visitors participated in these tours in Sydney, while 1,708 visitors participated in Singapore. Additionally, as part of the Singapore HeritageFest in May 2024, The Fullerton Hotel Singapore partnered with Singapore's National Heritage Board to offer a series of guided heritage tours, followed by a nostalgic afternoon tea experience at The Courtyard.

Strive and Rise

We continued to support the development of a thriving future for Hong Kong through the Hong Kong Government's Strive and Rise Programme for the second consecutive year. Our participation involved organising a range of activities, including the Sino Innovation Day and visits to the CORAL REEFStoration Centre.

In April 2024, nearly 70 students and mentors of the Strive and Rise Programme participated in the Sino Innovation Day where they visited the newly established Sino Inno Lab and The Spark at One North. The visit included guided tours and hands-on experiences with technology that inspired students' creativity and scientific thinking.

At The Fullerton Ocean Park Hotel Hong Kong, we welcomed around 50 students and mentors for a tour of the hotel facilities and guest rooms, as well as the Farm by the Ocean, part of our Farm Together integrated green community project. The tour showcased how sustainability is integrated into our hotel operations and was followed by an inspiring career sharing session on the tourism and service industries by our senior management team. Participants also visited the CORAL REEFStoration Centre to learn about our collaborative coral conservation and restoration work. In addition, we organised other fun and educational activities, including a job shadowing day, urban farming tours at the Hong Kong Gold Coast Hotel and the Tai O Culture Exploration.

Remarks 借註

¹ The scope of environmental performance data covers the assets where Sino Land has operational control, including the Head Office, property management and construction sites in Hong Kong, as well as hotels in Hong Kong, Singapore and Sydney.

Head Office refers to the offices of Sino Land in Tsim Sha Tsui Centre and the newly included Skyline Tower.

Property management in 2023/24 refers to the 170 buildings managed by the Group. For 2022/23 and 2021/22, the data included 169 and 162 buildings managed by the Group respectively. Electricity consumption by property management also included some centralised cooling services for tenants.

Construction sites in 2023/24 included two projects. For 2022/23 and 2021/22, the data included four and seven projects respectively. The changes in environmental footprints were due to the different stages of construction activities at the sites during the reporting period, when compared with previous years.

Hotels included The Fullerton Hotel Singapore, The Fullerton Bay Hotel Singapore, The Fullerton Hotel Sydney, The Fullerton Ocean Park Hotel Hong Kong, and the newly included The Olympian Hong Kong.

² Calculation methodologies for GHG emissions:

Methodologies: "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong" published by the Environmental Protection Department and the Electrical and Mechanical Services Department of the Hong Kong Government, "How to prepare an ESG Report — Appendix 2: Reporting Guidance on Environmental KPIs" published by the Stock Exchange of Hong Kong Limited.

Sources of emission factors: Local power and utility companies, Drainage Services Department and Water Supplies Department of the Hong Kong Government, Energy Market Authority of the Government of Singapore, Department of Industry, Science, Energy and Resources of the Australian Government, and UK Government Greenhouse Gas (GHG) Conversion Factors for Company Reporting. Emission factors adopted have been updated based on the above sources.

GHG emissions calculated included carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O) and hydrofluorocarbons (HFCs). Perfluorocarbons (PFCs), sulphur hexafluoride (SF₆) and nitrogen trifluoride (NF₃) are not considered material as the amount is insignificant.

Scope 1 emissions included direct GHG emissions from stationary and vehicle fuel consumption, loss of refrigerant (HCFC refrigerants: 27.2 kg; HFC refrigerants: 795.1 kg) and fugitive emissions from the use of fire extinguishers in the properties managed and construction sites. Scope 1 emissions do not apply to Head Office.

Scope 2 emissions included indirect GHG emissions from purchased electricity and gas. The latest emission factors have been applied to both market-based and location-based GHG emissions, and historical location-based GHG emissions figures are recalculated.

Scope 3 emissions included indirect GHG emissions from water consumption, wastewater discharge, paper waste disposal and air travel. GHG emissions from air travel are calculated by the ICAO Carbon Emissions Calculator.

- ³ Included scope 1, 2 and 3 GHG emissions.
- ⁴ Water consumption data of our Head Office is unavailable since there is no separate metering.
- 5 Excluded recycled materials.
- ⁶ The amount of hazardous waste produced by the Group during the reporting period was insignificant. Hazardous waste generated by the Group was collected by qualified contractors for treatment in a safe manner.
- 1 環境表現數據範圍涵蓋信和置業擁有營運控制權的資產,包括香港的總部、物業管理和建築工地,以及香港、新加坡及悉尼的酒店。 總部為信和置業於尖沙明中心的辦事處,以及新納入於宏天廣場的辦事處。

2023/24年度的物業管理為集團管理的 170 座建築物。2022/23 及 2021/22年度則分別包括集團管理的 169 及 162 座建築物。物業管理的用電量,亦包括為部分租戶提供的中央冷氣服務。

2023/24年度的建築工地包括兩個項目。2022/23及2021/22年度則分別包括四個和七個項目。與過往年度相比,報告期內工地施工活動處於不同階段,環境足跡因而有所變化。

酒店包括新加坡富麗敦酒店、新加坡富麗敦海灣酒店、悉尼富麗敦酒店、香港富麗敦海洋公園酒店,以及新納入的香港邀凱酒店。

2 溫室氣體排放量計算方法:

方法:根據香港政府環境保護署和機電工程署所發布的《香港建築物(商業、住宅或公共用途)的溫室氣體排放及減除的核算和報告指引》, 以及香港聯合交易所有限公司發布的《如何準備環境、社會及管治報告 — 附錄二:環境關鍵績效指標匯報指引》。

排放因子的來源:本地電力和公用事業公司、香港政府渠務署和水務署、新加坡政府能源市場管理局、澳洲政府產業、科學、能源及資源部, 以及英國政府供公司申報使用的溫室氣體轉換因子。所運用的排放因子已根據以上來源作出相應的更新。

計算的溫室氣體排放量包括二氧化碳 (CO_2) 、甲烷 (CH_4) 、氧化亞氮 (N_2O) 及氫氟碳化物 (HFCs)。全氟化合物 (PFCs)、六氟化硫 (SF_6) 及三氟化氮 (NF_3) 並不顯著。

範疇一排放量包括固定源和車輛的燃料消耗,及製冷劑折耗造成的直接溫室氣體排放(氟氯烴(HCFC)製冷劑:27.2 公斤;氫氟碳化物(HFC)製冷劑:795.1 公斤)及使用減火器時釋出的氣體。範疇一排放並不適用於總部。

範疇二排放量包括購買電力和燃氣的間接溫室氣體排放。最新的排放因子已應用於基於市場的方法和基於位置的方法的溫室氣體排放量,並重新計算了過往 基於位置的方法的溫室氣體排放數據。

範疇三排放量包括用水、廢水排放、廢紙棄置和航空交通造成的間接温室氣體排放。航空交通的二氧化碳對等值排放,以國際民用航空組織的碳排放計算器 計算得出。

- 3 包括範疇一、二及三的溫室氣體排放。
- 4 由於總部並沒有獨立水錶,有關用水量數據因而未能提供。
- 5 回收物料除外。
- 報告期內,集團並無產生大量有害廢物。集團產生的有害廢物由合資格承辦商收集,並以安全的方式處理。

Governance 管治

Describe the board's oversight of climate-related risks and opportunities. 描述董事會對氣候相關風險與機遇的監管情況。

Tsim Sha Tsui Properties' Board of Directors (the "Board") has the overall responsibility for risk management. The Board is dedicated to integrating sustainability into all aspects of our operations and advancing our sustainable development.

The Group has adopted an Enterprise Risk Management ("ERM") approach to assist the Board in discharging its risk management responsibilities via the Audit Committee and guide individual business units in managing the key risks faced by the Group.

The Board oversees the management of the overall sustainability strategy and reporting of the Group through regular updates from the Environmental, Social and Governance Steering Committee ("ESG Steering Committee"), which reports to the Board twice a year. The ESG Steering Committee is chaired by Mr Daryl Ng, Deputy Chairman, and comprises another Director of the Company and key executives.

Overall sustainability performance and progress are reported to the Board by the ESG Steering Committee at regular board meetings.

Under the ESG Steering Committee, the Green Living Sub-committee reviews and evaluates initiatives to address climate change, manage energy and waste, conserve water resources, and promote environmental protection, while identifying areas for improvement. This sub-committee meets regularly and makes timely reports to the ESG Steering Committee to facilitate the overall sustainability approach of the Group.

We provide incentives to key executives who hold responsibility in overseeing and addressing important material topics. In addition, employees at Assistant Manager level and above are expected to set KPIs related to sustainability topics and incorporate sustainability practices into their daily work. The achievement of ESG KPIs will be considered in the annual performance appraisal.

Strategy 策略

Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term.

描述機構所識別的短、中、長期 氣候相關風險與機遇。 We engaged an external consultant to conduct a climate risk assessment for all new and existing operations under our management in Hong Kong, covering over 170 existing and new buildings under 3°C and 1.5°C warmer climate scenarios. The exercise included analysis of climate-related risks, including both physical and transition risks as described below, alongside potential financial impacts and opportunities, to assess the implications of the prioritised risks for our operations, upstream and downstream activities, and to inform risk management and resilience planning. Shortlisted key climate-related risks and opportunities were then analysed under two scenarios developed by the Network for Greening Financial Services ("NGFS"), the World Resource Institute ("WRI"), the World Bank, and the Intergovernmental Panel on Climate Change ("IPCC"), including the Net Zero 2050 scenario, which aligns with the goal of the Paris Agreement to preferably limit global warming to 1.5°C above pre-industrial levels. Three timeframes (2025, 2030 and 2050) were defined to understand the risk profile in the short, medium and long term.

Physical Risks

Risks arising from acute events or longer-term shifts in climate patterns, such as extreme weather events, heatwaves and rising temperatures.

Transition Risks

Risks arising from policy and legal, technology and market changes, as well as reputational risks, in the process of transitioning to a lower-carbon economy. These include changes in building codes and standards, supply of raw materials, low-carbon technology and innovation, consumer preferences, financier expectations and green finance.

Please refer to Sino Land's Climate Action Report for more details on our key physical risks, transition risks and opportunities.

我們外聘獨立顧問,對集團旗下對集團旗下管理的香港現有和新業務進行氣候風險評估,包括 170 多個現有和新建物業在全球氣溫上升 3°C 和 1.5°C 情境下所面臨的氣候風險。該評估分析各項實體和轉型風險(如下述所示)所帶來的潛在財務影響和機遇。此有助我們評估主要氣候相關風險對集團營運、上游和下游活動的影響,為風險管理和抗禦力規劃提供指引。為響應《巴黎協定》將全球氣溫升幅限控制在工業化前水平以上 1.5°C之內的目標,我們針對重大氣候風險和機遇,進一步分析央行與監管機構綠色金融網絡(「NGFS」)、世界資源研究所(「WRI」)、世界銀行和政府間氣候變化專門委員會(「IPCC」)所提倡的包括 2050 年淨零情境在內的兩個情境下的影響,並設定 2025 年、2030 年和 2050 年三個階段作分析,用於監察短、中及長期風險狀況。

曺體風險

由突發事件或氣候形態長期變化(包括極端天氣事件、熱浪和氣溫上升)所引起的風險。

轉型風險

在轉型至低碳經濟的過程中,因政策與法律、技術和市場變化,以及聲譽風險所引起的 風險。當中包括建築規範和標準、原材料供應、低碳技術和創新、消費者偏好、金融機 構預期和綠色金融的變化。

有關主要實體風險、轉型風險和機遇的詳情,請參閱信和置業的《氣候行動報告》。

Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning. 描述氣候相關風險及機遇對機構業務、策略及財務規劃的影響。

Climate risk assessment enables the Group to assess and monitor both physical and transition risks by quantifying climate-related financial impacts under multiple climate scenarios. We engaged an external consultant to conduct an in-depth financial impact analysis for key climate-related risks and opportunities with reference to climate and transition pathway projections published by established research bodies such as the NGFS, WRI and IPCC.

Please refer to Sino Land's Climate Action Report for more details on the impacts and financial implications for different climate-related risks and opportunities.

We have published a holistic Decarbonisation Blueprint that outlines our climate-related and decarbonisation strategy, focuses under three key areas (Development, Operations and Collaboration) and interim targets related to GHG emissions, electricity use, climate risk assessment and green building certification.

In 2018, Sino Land announced its first green loan and the details of its Green Finance Framework. The framework guides the financing of sustainable building developments that will deliver environmental benefits in line with our sustainability vision. In 2021, Sino Land converted a five-year HK\$1 billion loan signed with Bank of China (Hong Kong) Limited to a sustainability-linked loan, marking its first financing arrangement directly linked to sustainability targets. The proceeds will be used for funding sustainability-related initiatives.

集團透過氣候風險評估,量化相關風險在不同氣候情境下的氣候相關財務影響,藉此評估和監測實體風險和轉型風險。我們外聘獨立顧問,參照NGFS、WRI和IPCC等專門研究機構所公布的氣候和轉型路徑預測,針對重大氣候風險和機遇深入分析相關財務影響。

有關不同氣候相關風險和機遇對業務和財務影響的詳情,請參閱信和置業的《氣候行動報告》。

我們亦發布了全方位《減碳藍圖》,針對三大重點範疇,包括物業發展、營運管理和協同合作制定了具體的減碳策略和改善氣候抗禦力的措拖,並制定了有關溫室氣體排放、用電、氣候風險評估和綠色建築認證的中期目標。

2018年,信和置業發表首筆綠色貸款及「綠色融資框架」的詳情。框架不僅為可持續建築發展融資提供指引,更配合我們推動可持續發展的願景,創造環保效益。信和置業於2021年與中國銀行(香港)有限公司簽訂協議,將一筆十億港元五年期貸款轉為與可持續發展表現掛鉤貸款,為信和置業首個與可持續發展目標直接相關的融資安排。所得款項將用於資助與可持續發展相關的計劃。

Our Approach 方針

Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario. 描述機構的策略彈性,並考慮不同氣候相關情境(包括2°C或更嚴苛的情境)。

We have conducted scenario analysis that considers different climate-related scenarios. Through the scenario analysis, we aim to conduct in-depth financial impact analysis for key risks and opportunities with reference to climate and transition pathway projections, including the NGFS Net Zero 2050 scenario and Current Policies scenario. These scenarios share resemblances with Representative Concentration Pathways ("RCP") 2.6 and 6.0 scenarios as both are used to model the climate risk impact under similar global warming pathways. These pathways broadly represent comprehensive climate scenarios related to two projected global average temperature increases: 1.5°C and 3°C.

Please refer to Sino Land's Climate Action Report for more details on the scenario analysis.

In 2021, we committed to developing an approach towards net zero emissions by 2050. This effort is guided by Sino Land's pledge to support the Business Ambition for 1.5°C, led by the Science Based Targets initiative ("SBTi") in partnership with the United Nations Global Compact and We Mean Business Coalition, calling on businesses to set science-based targets for GHG emission reductions. Our efforts to reach this goal are described in more detail in our Decarbonisation Blueprint. More information about our Decarbonisation Blueprint can be found in our Sustainability Report 2022.

In 2020, we established the Group's Sustainability Vision 2030, outlining our management approach and targets for crucial areas such as GHG and energy use reduction, renewable energy generation, single-use plastics consumption, green building certification and innovative sustainability solutions to mitigate climate-related risks for a more sustainable future. Going forward, colleagues across our business lines will work together in meeting our 38 SV2030 goals, reflecting our intention to make every aspect of our operations a driver of sustainability for a better future. Building climate resilience is one of our focus areas. Our commitment to take collective action to minimise GHG emissions and the impacts of climate change is illustrated by our climate action-related targets.

我們對不同的氣候相關情境進行了情境分析,我們參照氣候和轉型路徑預測,包括 NGFS 2050 淨零情境以及當前政策情境,對關鍵風險和機遇進行深入的財務影響分析。 這些情境與溫室氣體濃度途徑 (「RCP」) 2.6和6.0情境有相似之處,兩者同樣用於模擬相近的全球暖化路徑下的氣候風險影響。它們分別代表1.5°C和3°C兩個預計全球平均溫度上升的氣候情境。

有關情境分析的詳情,請參閱信和置業的《氣候行動報告》。

我們於 2021年承諾制定方針,致力於 2050年前實踐淨零碳排放目標。信和置業參與由科學基礎目標倡議組織與《聯合國全球契約》及全球商業氣候聯盟聯合發起的「Business Ambition for 1.5° C」聯署運動,響應號召訂立科學基礎減碳目標。有關我們的計劃詳情,請參閱我們的《減碳藍圖》。更多《減碳藍圖》的詳情,請參閱《可持續發展報告 2022》。

我們於 2020年制定了《可持續發展願景 2030》,涵蓋我們在減少溫室氣體排放和能源消耗、生產可再生能源、減少即棄塑膠製品用量、綠色建築認證及採用創新科技等重要範疇的管理方針和目標,以緩解氣候相關風險及建構更可持續發展未來。展望未來,各業務單位的同事將齊心合力,實現《可持續發展願景 2030》的 38個目標,以展現集團帶動各營運層面實踐可持續發展的抱負,共建更美好未來。建立氣候抗禦力是我們最關注的範疇之一,我們以集體行動來減緩溫室氣體排放和氣候變化帶來的影響的承諾,已在我們氣候行動相關的目標中體現。

Risk Management 風險管理

Describe the organization's processes for identifying and assessing climate-related risks. 描述機構識別和評估氣候相關 風險的流程。

We have engaged an independent consultant to support a comprehensive assessment of climate risks for our portfolio in Hong Kong, which consists of more than 170 existing and new properties. The assessment included identification and prioritisation of climate-related risks and opportunities. With reference to the Group's existing risk register, previous risk disclosures and peer reviews, a list of relevant climate-related risks and opportunities was developed.

We conducted an in-depth ESG and Climate Risk Workshop for key representatives from the ESG Steering Committee and key business units. During the workshop, participants were asked to discuss and prioritise climate-related risks and opportunities based on their impact to the Group. Based on the assessment results, as well as consideration of TCFD recommendations, local policy and the Group's sustainability strategy, a list of risks and opportunities has been shortlisted.

Based on the shortlisted climate-related risks and opportunities, the likelihood of financial impact is derived from analysis of recent market trends, policy changes and the development of the macro-environment.

Please refer to Sino Land's Climate Action Report for more details on the identification and prioritisation of climate-related risks and opportunities.

我們委託獨立顧問,協助對位於香港的170多座現有和新建物業所面臨的氣候風險開展綜合評估,包括對氣候相關風險和機遇進行識別和排序。我們參照了集團現有的風險登記冊、以往的風險披露內容以及同儕審查,制定了一系列氣候相關風險和機遇。

我們舉辦了深入的環境、社會及管治和氣候風險工作坊,參與者來自環境、社會及管治督導委員會和主要業務部門的代表。於工作坊期間,參加者根據各項氣候相關風險和機遇對集團的潛在影響水平,討論並對其進行優先排序。根據評估結果、TCFD建議、當地政策和集團的可持續發展策略,最終識別出一系列風險和機遇。

根據識別出的氣候相關風險和機遇,我們透過分析近期的市場趨勢、政策變化和宏觀環境的發展得出各項風險和機遇對財務影響的可能性。

有關氣候相關風險和機遇的識別和優先排序的詳情,請參閱信和置業的《氣候行動報告》。

Green – Material Use, Waste Reduction and Management – Water Consumption and Efficiency

綠色低碳 - 物料使用、廢物削減和管理 - 用水和用水效益

In Hong Kong, all of the water consumed by our operations comes from municipal water supplies, including freshwater for potable use, cooling, washing, toilets and landscaping, and seawater for flushing. Hong Kong's two main sources of freshwater are rainfall from natural catchments and the Dongjiang water from Guangdong Province. All effluents are discharged to public sewers and/or the sea in accordance with applicable discharge licences.

In Singapore, all of the water consumed by our operations comes from third-party water sources supplied by the Public Utilities Board ("PUB"). According to PUB, Singapore's water demand is currently met by water from local catchment areas, imported water, NEWater and desalinated water.

In Sydney, all of the water consumed by our operations comes from Sydney Water. All effluents are discharged to public sewers and/or the sea in accordance with applicable discharge licences/permits. There is no significant water-related impact caused by the Group's operations. We monitor the consumption of water in our operations monthly and have used this data to establish our water-related goals and targets.

在香港,我們業務使用的所有水,均來自水務署,包括用於飲用水、冷卻、洗滌、洗手間和澆灌的淡水,以及用於沖廁的海水。香港的兩個主要淡水來源是自然流域的降雨和廣東省的東江水。根據適用的排放許可證,所有廢水均排入公共污水收集系統和/或海洋。

在新加坡,我們運營所用的所有水,均由公用事業局第三方水源提供。根據公用事業局,新加坡目前可透過使用當地集水區的水、進口水、「新生水」和化淡海水來滿足對水的需求。

在悉尼,所有業務營運的用水均來自悉尼水務局。所有廢水均根據適用的排放牌照/許可證,排入公共污水收集系統和/或海洋。集團運營不會對水資源造成重大影響。我們每月監測營運用水量,並使用這些數據訂立用水相關目標和指標。

SASB Standards guide the disclosure of financially material sustainability information by companies to their investors and other stakeholders. Available for 77 industries, the Standards identify the subset of ESG issues most relevant to financial performance in each industry. Starting from 2023, the International Sustainability Standards Board ("ISSB") assumed responsibility for the SASB Standards. The SASB framework is integrated with the IFRS Sustainability Disclosure Standards as industry-based disclosure requirements.

SASB標準協助企業向投資者和其他持份者披露就財務重要性而言重大的可持續發展資訊。該標準分別就77個行業識別並羅列與其財務表現最為相關的環境、社會及管治議題。2023年起,SASB標準的管理責任由國際可持續準則理事會(「ISSB」)承擔。SASB披露框架已融合到國際財務報告可持續披露準則當中,作為行業基準的披露要求。

We actively seek opportunities to incorporate sustainability into our tenant relationships and achieve our vision of Creating Better Lifescapes via joint efforts. Key tenant engagement channels include Sino Club, Farm Together and SPS. During the reporting period, we engaged our tenants on numerous topics including the circular economy, biodiversity and arts and culture.

Our Green Lease and Green Fit-out Guides provide recommendations on making more sustainable choices including consuming less energy and water, monitoring indoor air quality ("IAQ"), utilising greener construction materials, managing food waste and more. "Green Clauses" reflect these recommendations in our lease agreements and set out specific measures tenants can implement into their operations. After trialling these Guides with selected tenants, we have extended the trial to other tenants.

Description of climate change risk exposure analysis, degree of systematic portfolio exposure, and strategies for mitigating risks 描述氣候變化的風險承擔分析、系統性物業組合風險承擔程度,以及減低風險的策略

Disclosure 披露

Guided by our Climate Change Policy, we are committed to identifying the climate-related risks and opportunities affecting our business, assessing the financial implications and responding in line with the three focus areas of our climate-related strategy. We focus on optimising our properties and construction sites for efficiency and climate resilience during construction, managing properties in ways that minimise carbon emissions during operations, and managing resources and inspiring stakeholders to join our efforts through collaboration.

In 2023, Sino Land has ramped up our science-based targets ("SBTs") to align with the 1.5°C pathway. Sino Land has set GHG emissions reduction targets with HKUST academics in line with the SBTi methodology, which reflects what the latest climate science deems necessary to meet the goals of the Paris Agreement, to guide its decarbonisation efforts. During the reporting year, Sino Land's Scope 1 & 2 and Scope 3 targets are approved by the SBTi:

- Reduce absolute Scope 1 and 2 GHG emissions by 46.2% by FY2030 from the FY2019 baseline.
- Reduce Scope 3 GHG emissions from capital goods, fuel and energy-related activities, and waste generated in operations, by 51.6% per square foot by FY2030 from the FY2022 baseline.
- Reduce Scope 3 GHG emissions from leased assets per square foot by 51.6% by FY2030 from the FY2022 baseline.

We continued to focus our efforts on climate-related risk management. Sino Land has engaged an external consultant to evaluate the resilience of over 170 existing and new managed properties under different climate scenarios in alignment with recommendations from the TCFD, and we are working to enhance the integration of climate-related risks into our ERM framework.

在《氣候變化政策》的指引下,我們致力識別影響業務的氣候相關風險和機遇、評估其財務影響,以及根據氣候相關策略的三個關注領域作出應對。我們致力提高旗下物業和建築工地於施工階段的效率和氣候抗禦力,在營運階段以盡力減低碳排放為目標來管理物業,同時管理不同資源並鼓勵持份者一同參與。

為配合將全球暖化升溫控制在攝氏1.5度以內的願景,信和置業於2023年更新科學基礎目標。信和置業與科大學者合作並採用科學基礎目標倡議組織的計算方式訂立減碳目標,符合實現《巴黎協定》目標所需的最新氣候科學,以指導其減碳和實現淨零碳排放的工作。報告期內,信和置業的範疇一、二及三的目標已獲科學基礎目標倡議組織認可:

- 以2019財政年度為基準,於2030財政年度或之前把範疇一及範疇二的絕對溫室氣體排放量減少46.2%。
- 以2022財政年度為基準,於2030財政年度或之前把每平方呎的 範疇三溫室氣體排放量減少51.6%,當中包括資本貨物、燃料和 能源相關活動,以及營運所產生的廢棄物。
- 以2022財政年度為基準,於2030財政年度或之前將出租資產每平方呎所產生的範疇三溫室氣體排放量減少51.6%。

我們繼續專注於氣候相關風險管理的工作上。信和置業委託獨立顧問參照 TCFD 建議,評估旗下管理的 170 多個現有和新建物業在不同氣候情境下的抗禦力。我們正積極將氣候相關風險融入於企業風險管理框架中。

TNFD建議

The Group has taken a significant step in its sustainability disclosures by starting to disclose its nature-related issues with reference to the Taskforce on Nature-related Financial Disclosures ("TNFD") framework, which shares the same reporting structure as TCFD. In 2023, the Group began disclosing its first nature-related issues with reference to the TNFD beta v0.4 framework. During the reporting year, we have taken a further step to enhance this disclosure by aligning with the final TNFD Recommendations v1.0 framework. Unless otherwise stated, the reporting boundary of the TNFD Recommendation disclosures aligns with the overall boundary of the Report. The Group ensures its nature-related disclosures are integrated with other sustainability issues, in particular climate-related disclosures. Targets set under Sino Group's SV2030 initiative have taken into account both climate and nature considerations.

Our Approach 方針

Strategy 策略

Describe the nature-related dependencies, impacts, risks and opportunities the organisation has identified over the short, medium and long term.

描述組織在短期、中期和長期 內識別的自然相關依賴、影響、 風險與機遇。

Dependencies

The Group relies on natural capital for various aspects of its operations. Natural resources, such as water and timber, are used for both building construction in our upstream value chain and ongoing direct operations. We also depend on intact ecosystems' ability to regulate natural hazards such as landslides, flooding and other extreme weather events, as well as to mitigate their impacts. In addition, our hotels rely on nature-based recreation to enhance overall guest experiences and attract tourism for our daily operations.

Impacts

The Group has recognised its impact on nature. With building construction being one of the key business operations, direct impacts on nature may arise during property development in our upstream value chain. This process could potentially lead to disturbances and disruptions to the natural environment. Our daily operations could also lead to indirect and cumulative impacts on nature. These include climate change resulting from GHG emissions, potential air and water pollution originating from fuel combustion, sewage discharge, and waste disposal. Our daily operations are dependent on natural resources, which could potentially contribute to resource depletion and water scarcity.

Physical Risks

Physical risks arise from the potential supply instability of essential natural resources, such as water and timber, along the Group's supply chain. Climatic and geologic events, such as drought, have the potential to cause yield losses of natural resources that the Group relies on, which represents a key acute physical risk. On top of that, both acute and chronic physical risk arises from a reduction in resilience to extreme climatic events due to changes in regulating services provided by ecosystems. Furthermore, given the Group's reliance on nature-based recreation, there is a chronic physical risk associated with the potential impact on the recreational value of areas due to alterations in ecosystems, habitats and biodiversity.

Transition Risks

Transition risks arise from policy and legal, market as well as technological changes related to nature. These include more stringent nature-related legislation and reporting obligations, shifts in customer and investor preferences favouring products and services with fewer impacts on nature, volatile costs of raw materials, conflicts amongst stakeholders over changing land use, as well as requirements to transition to more efficient, resilient and environmentally sustainable technologies.

Opportunities

Opportunities arise from resource efficiency, new products and services, as well as ecosystem restoration and regeneration. The Group has implemented initiatives to enhance resource efficiency across its operations to reduce its dependencies and impacts on nature. These include adhering to sustainable business models, such as the adoption of a circular economy approach to help reduce carbon emissions and municipal waste. The Group also invests in reputational capital through collaborative engagement with stakeholders and conducts initiatives to further the restoration and conservation of ecosystems, habitats and threatened species.

The Group plans to conduct a nature risk assessment through scenario analysis in the future, which will allow for a comprehensive evaluation of its nature-related dependencies, impacts, risks and opportunities across different timeframes.

依賴

集團在不同層面的營運都依賴自然資本。在建築施工、價值鏈上游和日常直接營運期間, 我們需要水和木材等天然資源的供應。我們亦依賴完整的生態系統來調節山泥傾瀉和洪 水等極端天氣,和減輕其影響。此外,我們的酒店日常營運業務亦依靠自然為本的休閒 娛樂活動來提升住客體驗和吸引旅遊人流。

影響

集團意識到我們對自然的影響。物業發展是我們的核心業務之一,施工過程以及價值鏈上游可能會對自然環境造成干擾和直接影響。我們的日常營運也可能對自然環境產生間接和累積的影響,包括由溫室氣體排放引起的氣候變化,以及由燃料燃燒、污水排放和廢物處理時所產生的潛在空氣和水污染。我們的日常營運還依賴自然資源,過度依賴可能導致資源枯竭和缺水。

實體風險

實體風險源於集團供應鏈中必要的自然資源(如水和木材)潛在供應不穩定性。另外,氣候和地質事件(如乾旱)可能減少集團依賴的自然資源產量,構成重大急性實體風險之一。除此之外,生態系統提供的調節服務可能發生變化,從而降低我們對極端氣候事件的抵抗力,衍生急性和慢性實體風險。此外,考慮到集團依賴自然為本的休閒娛樂活動,該區域的娛樂價值有機會因生態系統、棲息地和生物多樣性的改變而減少,從而帶來慢性實體風險。

轉型風險

轉型風險源自與自然相關的政策與法律、市場和技術變化。這些包括更嚴格的與自然相關的立法和報告守則、客戶和投資者偏好轉向對自然影響較小的產品和服務、原材料成本波動、持份者在改變土地用途上的衝突,以及轉型向更高效、更具抗禦力和環境可持續技術的要求。

機遇

機遇來自於資源效益、新產品和服務以及生態系統的恢復和再生。集團已實施了一系列提升資源效益的措施,以減少對自然的依賴和影響。這包括遵循可持續的商業模式,如採用循環經濟模式來減少碳排放和都市廢物。集團亦與持份者合作,投放資源於修復和保護生態系統、棲息地和受威脅物種,以提升聲譽資本。

集團計劃在日後進行自然風險情境分析,從而全面評估我們在不同時間範圍下與自然相關依賴、影響、風險和機遇。

Our Approach 方針

Describe the effect naturerelated dependencies, impacts, risks and opportunities have had on the organisation's business model, value chain, strategy and financial planning, as well as any transition plans or analysis in place.

描述自然相關依賴、影響、風險 及機遇已經或可能對組織業務 模式、價值鏈、策略和財務規劃、 以及任何過渡計劃或分析的 影響。

Dependencies

The Group's identified dependencies on natural resources and ecosystem services would affect its business model in the upstream value chain in sourcing raw materials, and operational financial planning in raising resilience to nature-related physical risks.

Impacts

The Group's disturbance and depletion of resources would cause an impact on the nature capital. In return, this could affect the Group's business strategy along the whole value chain in responding to nature-related transition risks, with stricter regulations.

Risks

The identified nature-related risks could affect the Group's upstream value chain with supply chain disruptions, resulting in increased costs for the Group's natural inputs. It would also affect our direct operations, with reduced revenue due to the interruption of buildings and hotel operations, and decreased asset value resulting from the losses in natural habitats and biodiversity. Consequently, this hinders our downstream activities in property sales and rental.

Opportunities

On the other hand, the nature-related opportunities would allow the Group to mitigate our upstream value chain's exposure to fluctuations in natural resource prices, enhance resilience towards supply instability of natural resources, and increase our downstream market valuation through resilience planning. Direct operation revenue streams could be expanded due to business diversification.

Transition Plans

To reduce and mitigate the potential impact of disturbance and depletion of resources from our business operations and raw material sourcing, we are committed to integrating sustainability into procurement practices to minimise impacts on natural resources, environment and the ecosystem as stated in our Sustainable Procurement Policy. We strive to purchase products from socially responsible sources considering the environmental and natural resources implications at all stages of the life cycle of the product to be procured. The Group will review the Sustainable Procurement Policy and procurement practices from time to time in accordance with its corporate strategies and development on sustainable procurement issues relating to its operations.

The Group collaborated with local stakeholders to conserve local ecosystems and protect threatened species. The Group formed a local cross-sectorial coral conservation partnership with other parties and launched a restoration project named CORAL REEFStoration. It leverages Ocean Park's marine conservation expertise, and the world's first 3D-printed reef tiles in terracotta from Archireef to rehabilitate the coral reef habitat in Hong Kong's southern waters. Together with the opening of CORAL REEFStoration Centre at the Ocean Park, it provides a new rehabilitation facility for rescued coral fragments and offers public engagement and educational activities including guided tours, interactive STEAM (Science, Technology, Engineering, Arts and Mathematics) experiments etc. Through this partnership, we aim to restore local coral species and engage the community in coral preservation and marine biodiversity.

The Group would also assess the necessity of conducting detailed nature-related risk assessment, thus developing robust nature transition plans based on the detailed assessment results in the future. The Group has been participating in boosting local biodiversity through several initiatives. We will continue to identify areas of improvement and formulate a transition plan where necessary.

Our Approach 方針

依賴

集團識別出的對自然資源和生態系統服務的依賴,將影響其在上游價值鏈中採購原材料的業務模式,以及就提高對自然相關物理風險抗禦力的運營財務規劃。

影響

集團對資源的干擾和消耗將對自然資本造成影響。這可能會影響集團在整個價值鏈上的業務策略以應對與自然相關的轉型風險,並制定更嚴格的規例。

風險

上述自然相關風險可能導致供應鏈中斷並影響集團價值鏈上游,從而增加集團對自然資本的投入成本。因建築物及酒店營運中斷而減少收入、以及因自然棲息地和生物多樣性損失而導致資產價值下降亦會波及組織的直接營運,從而阻礙集團房地產銷售和租賃的下游服務。

機遇

另一方面,與自然相關的機遇能減低價值鏈上游就自然資源價格波動所帶來的風險、增強 對自然資源供應不穩定的抗禦力,並通過抗禦規劃以提高下游市場估值。直接營運收入 來源可能因業務多元化而擴大。

過渡計劃

為了減少和減輕業務營運和原材料採購對資源的干擾和損耗所造成的潛在影響,我們按照《可持續採購政策》承諾將可持續發展融入採購實踐,以最大限度地減少對自然資源、環境和生態系統的影響。我們致力於從對社會負責的來源採購產品,並考慮產品在其生命週期各個階段對環境和自然資源的影響。集團會根據其企業策略及在可持續採購事宜的進展,定時檢討《可持續採購政策》及採購措施。

集團亦與營運本地的持份者攜手合作,保護本地生態系統和受威脅物種。集團與各方建立本地跨界別珊瑚保育夥伴關係,並推出名為「活化珊瑚行動 (CORAL REEFStoration)」的修復項目。該計劃充分應用了香港海洋公園的海洋保育專業知識,以及 Archireef的全球首創 3D 打印陶製珊瑚礁盤,旨在修復香港南部水域的珊瑚礁棲息地。隨著海洋公園「活化珊瑚中心」開幕,它為被拯救的珊瑚碎片提供修復設施,並提供包括導賞團、互動 STEAM (科學、技術、工程、藝術和數學)實驗等公眾參與和教育活動。透過此合作夥伴關係,我們旨在恢復本地珊瑚物種,並讓社區參與保護珊瑚和海洋生物多樣性。

集團將評估進行詳細的自然相關風險評估的需要,並按結果於未來制定穩健的自然過渡計劃。目前,集團一直通過參與多項舉措促進本地生物多樣性。我們將繼續探索需要持續改進的領域,並在需要時制定過渡計劃。

Our Approach 方針

Describe the resilience of the organisation's strategy to nature-related risks and opportunities, taking into consideration different scenarios. 描述組織的策略在考慮不同情景下應對自然相關風險與機遇方面的抗禦能力。

To manage our organisational nature-related risks, the Group has established sustainability targets that contribute to the broader goals under Sino Group's Sustainability Vision 2030 ("SV2030") initiative. Different business lines work together to meet our SV2030 goals. Our goals and strategies encompass the reduction of Scope 1, 2, and 3 GHG emissions, improvement of material and water efficiency, enhancement of waste diversion, and promotion of urban biodiversity. These goals are tracked and reviewed periodically, reflecting our intention to make every aspect of our operations a driver of sustainability for a better future.

In alignment with our commitment to addressing nature-related opportunities, the Group has implemented sustainable business strategies that prioritise the circular economy approach. This approach integrates considerations related to nature, with a focus on reducing carbon emissions and municipal waste, thereby diminishing our environmental footprint and lessening our impact on nature. Through strategic partnerships, such as our collaboration with the innovative start-up EcoBricks, we are pioneering groundbreaking solutions for upcycling plastic waste into sustainable construction materials. This initiative not only reduces our reliance on natural building materials but also helps mitigate the risks associated with shifting consumer preferences towards sustainable products. By embracing these initiatives, we demonstrate our firm belief that sustainability not only drives business opportunities but also fosters a more resilient and environmentally conscious future.

Moreover, Sino Group has partnered with WWF by joining the "Sustainable Seafood Business Membership Programme" and adopted a supplier e-directory assessed by WWF to procure sustainable seafood. We are committed to purchasing 100% of seafood served at the Group's hotels from sustainable sources and have made significant progress in achieving 68% of seafood served at the Group's hotels from sustainable sources in the last reporting period.

As a member of TNFD Forum, Sino Land is eager to get started with considering different scenarios as soon as more official details are published.

為了管理自然相關風險,集團已訂立可持續發展目標,致力配合並達成信和集團《可持續發展願景 2030》下的更廣泛目標。各業務部門的同事將齊心合力實現《可持續發展願景 2030》。我們的目標和策略包括減少範疇一及二,以及範疇三的溫室氣體排放、提高物料和水資源效益、改善廢物分流、以及促進城市生物多樣性。我們定期跟進和檢討這些目標,展現出我們希望在各營運層面推動可持續發展、創造更美好未來的的目標。

為了應對自然相關的機遇,集團已實施優先考慮循環經濟方法的可持續業務策略。這方針整合了與自然相關的考量,旨在減少碳排放和都市廢物,從而減少我們的環境足跡和對自然的影響。透過策略夥伴關係如與創新初創企業EcoBricks合作,我們開創突破性新方案,將塑膠廢料升級再造成可持續建築材料。這項措施不僅減少了我們對天然建築材料的依賴,還有助減輕因消費者偏好轉向可持續產品而面臨的風險。透過實施這些舉措,表明了我們的堅定的理念。可持續發展不僅能帶來商機,還能創造一個更具抗禦力和環保意識的未來。

此外,信和集團還與世界自然基金會合作,加入「環保海鮮企業會員計劃」,並採用由世界自然基金會評估的環保海鮮供應商網上目錄來採購可持續海鮮。我們致力令集團旗下酒店供應的100%海鮮採購自可持續來源,並在報告期內取得重大進展,實現了68%海鮮採購於可持續來源。

信和置業作為TNFD論壇成員,將會在更多細節發布後盡快開展情境分析。

Disclose the locations of assets and/or activities in the organisation's direct operations and, where possible, upstream and downstream value chain(s) that meet the criteria for priority locations.

披露符合優先領域準則的組織 直接營運,以及在可能的情況 下披露相關的上游和/或下游 價值鏈中存在資產和/或活動 的地點。 According to Version 4.0 of the WRI's Aqueduct Water Risk Atlas tool, we identified that The Fullerton Hotel Sydney is currently located in regions with high baseline water stress. Although Sydney is identified as a high baseline water stress region, it has a medium overall water risk that takes into account both physical water quantity and quality, as well as water-related regulatory and reputational risk. Guided by our ESG Policies, we are committed to utilising precious shared resources, including water, more efficiently throughout our operations. Our operations have been proactively promoting responsible water management amongst our stakeholders.

We have also reckoned that Hong Kong's marine biodiversity is immensely rich with a long coastline of nearly 90 hard coral species. The Fullerton Ocean Park Hotel Hong Kong is located in an area of high biodiversity importance, with where the Group is likely to have significant potential dependencies for its direct operation. The hotel is located in the biome of coastal inlet with cultural services for recreation, such as marine eco-tourism. Therefore, the Group formed a local cross-sectorial coral conservation partnership with other parties and launched the CORAL REEFStoration in Hong Kong's southern waters.

The Group will evaluate the need to conduct location-specific impact assessment in the future to identify the priority locations, such as areas important for biodiversity and high ecosystem integrity etc., and locations with material nature-related dependencies, impacts, risks and opportunities.

根據世界資源研究所的《輸水道水源風險地圖》4.0版本,我們識別悉尼富麗敦酒店目前位於高水平基準上的缺水地區。儘管悉尼被識別為缺水較高的地區,但考慮到實體水量和水質,以及與水相關的監管和聲譽風險,其整體水風險為中等。在環境、社會及管治的政策的指引下,我們致力於在業務營運中更有效地利用寶貴的共享資源,包括水資源。我們的業務營運積極向不同持份者推廣負責任的水資源管理措施。

我們亦留意到香港的海洋生物多樣性極為豐富,綿長的海岸線上有近90種硬珊瑚。香港富麗敦海洋公園酒店位於一個具高生物多樣性的地區,且集團的直接營運業務對此可能有高度依賴。酒店位於沿海一帶,提供海洋生態旅遊等消閒服務。因此集團與各方建立了跨界別的珊瑚保育夥伴關係,並在香港南部水域啟動了「活化珊瑚行動」。

集團未來將評估進行特定地點的影響評估的必要性,以確定優先領域,例如對生物多樣性 和高生態系統完整性等重要的地區,以及具有重大自然相關依賴性、影響、風險和機遇 的地點。 Recommended Disclosure 建議披露事項

Our Approach 方針

Risk and Impact Management 風險與影響管理

Describe the organisation's processes for identifying, assessing and prioritising nature-related dependencies, impacts, risks and opportunities in its direct operations.

描述組織在其直接營運中自然 相關依賴、影響、風險與機遇 的識別、評估和排序的流程。 The Group engaged an independent consultant to conduct the identification and assessment of nature-related dependencies, impacts, risks and opportunities in its direct operations.

Identification

The Natural Capital Protocol is used to understand the relationship and interactions between the Group's business activity and natural capital through a high-level overview. Online tools such as Exploring Natural Capital Opportunities, Risks and Exposure ("ENCORE") and WWF Biodiversity Risk Filter, are used for the identification of dependencies and impacts of the real estate industry in a local context, providing a better understanding of the relationship between the Group's business activity and natural capital.

Assessment

We have performed nature-related risks and opportunities analysis through desktop research on existing and emerging regulatory requirements, recent market trends, as well as the development of the macro environment related to nature loss. Taking a more quantitative approach, we have leveraged tools such as the Aqueduct Water Risk Atlas to conduct water risk assessments at a global and local scale. This has enabled us to identify water risk hotspots and enhance our resilience.

The risk assessment determines that none of our operations are situated in areas with high or extremely high overall water risk. Consequently, our operations are not exposed to the risks associated with water scarcity.

We acknowledge that while our current operations are not situated in areas with high or extremely high overall water risk, and we understand that water scarcity can be affected by various factors, including population growth, socioeconomic shifts, and technological progress. As part of our Sustainability Vision 2030, we are dedicated to minimising water usage by establishing water consumption targets. Furthermore, we are incorporating water management practices into our overall sustainability strategy and framework to address potential water-related risks, such as elevated water costs, which may have an impact on our operation.

Prioritisation

The identified risks and opportunities are being mapped to the identified dependencies and impacts. Utilising risk metrics by categorising the risks as high, medium or low priority based on their likelihood and impact, we determine the severity and probability of the potential impacts or benefits of each identified risk and opportunity on the Group. We also ensure the prioritisation of nature-related risks and opportunities aligns with the Group's strategic goal by engaging stakeholders in designing the risk metrics. The quantitative financial impact of each nature-related risk and opportunity would be further explored to reassess priorities, which helps inform decision-making.

To ensure transparency and accountability, the Group will further evaluate the need to conduct location-specific impact assessments in the future, using the Integrated Biodiversity Assessment Tool ("IBAT") to indicate the relationship of our assets' direct and indirect influence with detailed biodiversity indicators. Results of the assessment for different timeframes would be further disclosed. In response to the TNFD framework, the Group would also pursue ongoing efforts in adopting the Locate, Evaluate, Assess and Prepare ("LEAP") approach, the integrated process for nature-related risk and opportunity management developed by TNFD for robust assessment and disclosure.

集團委託獨立顧問識別和評估與其直接營運業務中自然相關的依賴、影響、風險和機遇。

識別

我們參考《自然資本協議》,以了解集團業務活動與自然資本之間的關係和相互作用。 同時,我們利用《探索自然資本機會、風險和暴露》和《世界自然基金會生物多樣性風險 評估工具》等網上工具來識別集團營運所在地的地產行業對自然的依賴和影響,從而深 入地了解集團業務營運與自然資本之間的關係。

評估

我們透過研究現有和新興的監管要求、近期市場趨勢以及與自然損失相關的宏觀經濟環境發展,分析了與自然相關的風險和機遇。我們採用了量化方法,利用《輸水道水源風險地圖》在全球和地方層面進行水風險評估,有助我們識別水風險熱點並增強抗禦力。該風險評估判斷我們沒有在高或極高水平上的整體水風險地區營運業務。因此我們的業務不會面臨與水資源短缺相關的風險。

雖然我們目前的業務並不位於整體水風險較高或極高的地區,但我們理解水資源短缺可能受到多種因素的影響,包括人口成長、社會經濟轉變和技術進步。作為我們《可持續發展願景 2030》的一部分,我們致力透過制定用水量目標來最大限度地減少用水。此外,我們正在將水資源管理實踐納入我們的整體可持續發展策略和框架,以解決如水成本上漲等可能對我們業務產生影響的潛在與水相關風險。

排序

已識別的風險和機遇與已識別的依賴性和影響相互對應。透過風險指標,並按風險的可能性和影響將它們分為高、中或低優先級別,我們界定每個已識別風險和機遇對本集團的潛在影響或收益的嚴重性和概率。我們也透過讓持份者參與設定風險指標,確保與自然相關的風險和機遇的優先順序與集團的策略目標保持一致。為協助決策,我們將進一步探討每種自然相關風險和機遇的定量財務影響,以重新評估已識別風險的優先順序。

為了確保透明度和問責性,集團將評估日後進行特定地點影響評估的需要,使用《綜合生物多樣性評估工具》及詳細的生物多樣性指標來顯示我們資產對自然的直接和間接影響,並進一步披露不同時間範圍的評估結果。集團將會積極考慮採用由TNFD開發的風險與機遇評估綜合管理流程(「LEAP」),以提高與自然相關風險和機遇的評估和披露穩健性,以進一步響應TNFD框架及指引。

The Group maintains a comprehensive approach to identifying nature-related dependencies, impacts, risks and opportunities, and acknowledges the importance of extending the analysis of these issues in our upstream and downstream value chains. The Group has been proactively focusing on enhancing readiness to expand the scope of analysis, we are committed to working closely with our suppliers and customers through capacity building and partnerships. We remain dedicated to ongoing review of existing and emerging nature-related trends, and continuously strive to monitor and manage our identified nature-related risks.

集團全面地識別與自然相關的依賴、影響、風險和機遇,並意識到擴展相關分析到上下游價值鏈的重要性。集團一直積極預備擴大分析範圍的準備工作,致力透過能力提升及與供應商和客戶密切合作,持續檢討現有和新興的自然相關趨勢,並不斷監控和管理已識別的自然相關風險。

Describe the organisation's processes for monitoring nature-related dependencies, impacts, risks and opportunities.

描述組織管理監察自然相關依賴、影響、風險與機遇的流程。

To enhance our preparedness and response, the Group regularly monitors and reviews nature-related risks. Our environmental management system ("EMS") ensures that environmental considerations are front and centre in all the decisions we make. We have aligned our continuous efforts for improvement with recognised management system certifications such as the ISO 41001 (Facility) and ISO 50001 (Energy) management systems to ensure the service quality and efficiency of our work processes within our properties.

The ESG Steering Committee is responsible for planning, implementing, and ensuring our programmes and policies support the overall sustainability strategy. In response to our identified nature-related risks, our ESG Policies and guidelines enable us to design and deliver products and services while meeting our sustainability goals, as well as managing risks. Our Biodiversity Policy provides guidelines for integrating biodiversity considerations into all aspects of our operations. Our Sustainable Building Guidelines outline our commitments to protect and conserve native species, important habitats and ecosystems, as well as sites with a historical or heritage setting during site selection of our development projects where practicable. The Group supports conserving and enhancing biodiversity through ongoing assessment and management of its operations and activities.

集團定期監察和檢討與自然相關的風險,以加強我們的應急準備和應對能力。我們的環境管理系統確保環境因素被納入所有決策的考慮中。我們力求進步並爭取與國際認可的管理體系認證包括ISO 41001(設施)和ISO 50001(能源)達成一致,以確保我們旗下物業的服務質素和工作流程的效率。

環境、社會和管治督導委員會負責規劃、實施,並確保措施和政策能配合整體的可持續發展策略。為了應對我們與自然相關的風險,我們的環境、社會和管治政策和指引使我們在設計和提供產品與服務時,能兼顧可持續發展目標及風險管理。我們的《生物多樣性政策》為如何將生物多樣性融入營運提供指引。《可持續建築指引》則明確規定了我們在項目選址中,盡可能地保護和保育本地物種、重要棲息地和生態系統、以及具有歷史或文化遺產背景的地點的承諾。集團透過持續評估及管理業務營運,支持生態保育及生物多樣性。

Describe how processes for identifying, assessing, prioritising and monitoring nature-related risks are integrated into and inform the organisation's overall risk management processes. 描述如何將識別、評估、排序和監察自然相關風險的流程整合至及指引組織的整體風險管理流程。

The Group is committed to incorporating the process for identifying, assessing, prioritising and monitoring nature-related risks in its overall risk management through setting sustainability targets to keep track of the Group's management progress under the SV2030. The Group's performance regarding GHG emissions, material and water usage, waste generation and urban biodiversity are closely monitored. The Group has also adopted an Enterprise Risk Management ("ERM") approach to assist in managing the nature-related risks identified.

With the assistance of the Risk and Control Committee, the Audit Committee reviews the effectiveness of the risk management and internal control systems covering strategic, financial, operational, compliance and ESG risks. If nature-related risk has been identified as an emerging risk, risk assessment and analysis, evaluation rating, prioritisation, and treatment plans would be conducted. The Group would keep it under regular monitoring and review at least quarterly or when the situation requires.

Sino Land is also a signatory of the Action Declaration on climate policy engagement and continuously monitor the alignment of its public policy engagements with our ESG commitments. Additionally, Sino Land has demonstrated its support for HKEX's market consultations on enhancing climate-related disclosures within the environmental, social, and governance framework during the reporting year. In addressing matters pertaining to nature-related issues, we continuously monitor the alignment of our public policy engagements with our ESG commitments, including nature-related commitments. We regularly review our risk register and the results of stakeholder engagement exercises to refresh our understanding of the salient ESG risks and opportunities applicable to our business.

集團通過設定可持續發展目標,致力於將識別、評估、排序和監察自然相關風險納入整體風險管理,並確保與集團《可持續發展願景 2030》的管理進展保持一致。集團在溫室氣體排放、物料和水資源使用、廢物產生和城市生物多樣性方面的表現都受到密切監控。集團亦採用企業風險管理(「企業風險管理」)方針協助管理已識別出的與自然相關的風險。

在風險及監控委員會的協助下,審核委員會檢討集團的風險管理和內部監控體系的成效,範疇包括策略、財務、營運、合規,以及環境、社會及管治的風險。當自然相關的風險被識別為新興風險時,則將進行風險評估及分析、風險評級、排序和處理計劃。本集團至少每季或視乎情況適時審視相關風險。

作為氣候政策參與行動宣言的簽署方,信和置業持續監控其的公共政策參與與其的ESG 承諾的一致性。此外,信和置業亦支持香港交易所於報告年度內就加強氣候相關披露而 進行的市場諮詢。在處理與自然相關的問題時,我們持續監控我們在公共政策參與跟 環境、社會及管治承諾,包括與自然相關的承諾的一致性。我們定期審閱風險登記和 持份者參與活動的結果,以更新適用於我們業務的顯著環境、社會及管治風險和機遇的 理解。

Metrics and Targets 指標及目標

Disclose the metrics used by the organisation to assess and manage material nature-related risks and opportunities in line with its strategy and risk management process. 披露組織以符合其策略和風險管理流程的方式,用於評估和管理重大自然相關風險及機遇的指標。

We have determined a financial budget allocated for deciding the investment deployed towards our identified nature-related opportunity on reputational capital and ecosystem restoration. To date, we have been contributing over HK\$7.5 million to the CORAL REEFStoration project. The project creates a positive change in sentiment towards the Group's brand through the direct conservation and restoration of coral reef ecosystems in Hong Kong. We continue to explore collaborations with local community recycling centers to support local EcoBricks manufacturing, fostering a sustainable circular economy ecosystem. We remain committed to deploying EcoBricks across suitable properties while fostering deeper engagement with tenants and customers, advocating for plastic recycling and upcycling into EcoBricks.

The quantitative financial impact of each nature-related transition and physical risk, as well as opportunities are still under assessment, we will disclose other metrics once the information is prepared. During the reporting year, the Group did not encounter any fines/penalties received/litigation action in the year due to negative nature-related impacts. We believe that monitoring and reporting nature-related risk and opportunity metrics would help us further improve our sustainability performance.

我們已預留財務預算,用作決定對已識別的自然相關機遇進行投資,以提升聲譽資本和恢復生態系統。至今,我們已在「活化珊瑚行動」投入超過750萬港元。該項目通過直接恢復香港的珊瑚礁生態系統,為集團品牌樹立正面形象。我們繼續探索與本地社區回收中心合作,以支持EcoBricks的本地生產,從而推動循環經濟發展。我們繼續在合適的物業採用EcoBricks,同時加強與租戶和客戶的深入互動,倡導塑膠回收和升級改造為EcoBricks。

與自然相關的轉型和實體風險以及機遇所量化的財務影響仍在評估中,我們將在準備就緒時披露其他指標。報告期內,本集團未發生因負面的自然相關影響而受到任何罰款/處罰/訴訟的情況。我們相信監測和披露與自然相關的風險和機遇指標將有助於進一步提升可持續發展表現。

Disclose the metrics used by the organisation to assess and manage dependencies and impacts on nature.

披露組織用於評估和管理對自然的依賴和影響的指標。

We publish key metrics on Scope 1, 2 and 3 GHG emissions, air pollutant emissions, water consumption, material use and waste generation in our Sustainability Report annually. Please refer to the Progress on Key Sustainability Indicators section for more details. Monitoring and reporting these metrics enable us to identify areas with high nature-related dependencies and impacts to further improve our performance. We strive to enhance our capacity and readiness to optimise the internal data management procedures in order to ensure data accuracy and reliability. Other metrics for monitoring and managing dependencies and impacts on nature will be reported upon enhanced readiness for disclosure.

我們每年都會在《可持續發展報告》中披露範圍一、二和三溫室氣體排放、空氣污染物排放、用水量、物料使用量、以及廢物棄置量等關鍵指標。詳情請參閱「關鍵可持續發展指標的進展」。監控和披露相關指標有助我們識別自然相關依賴和影響較高的領域,從而繼續提升表現。我們致力提高集團的能力和準備情況,優化內部數據管理程式,以確保數據的準確性和可靠性。其他監察及管理依賴和影響的指標及目標將在準備充分後進行披露。

Describe the targets and goals used by the organisation to manage nature-related dependencies, impacts, risks and opportunities and its performance against these. 描述組織用於管理自然相關依賴、影響、風險與機遇的目標,以及針對這些目標的績效。

Our nature-related targets set out in the SV2030 initiative, including those related to climate resilience and GHG emissions, water consumption, material use, waste reduction and management as well as urban biodiversity, along with progress on metrics, are available in the Sustainability Vision 2030 chapter of this Report.

We will continue to develop new goals that prioritise nature conservation and monitor our approaches towards managing nature-related dependencies and impacts, risks and opportunities to ensure long-term environmental stewardship. We will explore the possibility of conducting scenario analysis to evaluate the possible consequences of nature loss to our operations. Sino Land has joined the Science Based Targets Network ("SBTN")'s Corporate Program to engage with other mission-driven organisations, and take part in developing and testing tools, methodologies, and guidance for establishing science-based targets for nature. This also helps us understand how to assess and mitigate nature-related risks, such as potential water risks. This demonstrates our dedication to contributing to nature and biodiversity.

我們的自然相關目標載於《可持續發展願景 2030》,包括氣候抗禦力和溫室氣體排放、用水量、物料使用、廢物削減和管理、和城市生物多樣性的相關目標以及進展,詳情可參閱本報告的「可持續發展願景 2030」章節。

我們將繼續制定優先考慮自然保護的新目標,並監測我們與自然相關的依賴和影響、風險和機遇的管理,以確保長期的環境管理。我們將探索進行情境分析的可能性,以評估自然損失對我們營運可能造成的後果。信和置業已加入科學目標網絡(「SBTN」)企業參與計劃,並與其他使命相近的組織合作,參與開發和測試制定科學基礎自然目標的工具、方法和指引。此有助於我們瞭解如何評估和減輕與自然相關的風險,例如潛在的水風險,並展示我們致力於為自然和生物多樣性做出貢獻。

Ng Teng Fong Charitable Foundation

黄廷方慈善基金

The Ng Teng Fong Charitable Foundation was established in memory of Mr Ng Teng Fong, the founder of Sino Group in Hong Kong and Far East Organization in Singapore. The Foundation focuses on supporting education, arts and culture, the environment, medical services, heritage and ageing-related initiatives. Alleviating poverty, supporting disadvantaged groups and social welfare causes remain priorities. The Ng Teng Fong Charitable Foundation has donated to multiple charitable causes across Mainland China, Hong Kong, Singapore and overseas since its establishment in 2010. Highlights of the work carried out by the Foundation during the reporting period are below.

Community Initiatives

Spreading Christmas Cheer
